Making Of The Hapsburg Monarchy 1550 1700 An Interpretation:

The Making of the Habsburg Monarchy, 1550-1700 Robert John Weston Evans, 1979 **The Habsburg Monarchy as a Fiscal-Military State** William D. Godsey, Petr Maťa, 2022-03-10
Renders greater precision and depth to the concept of the fiscal military state and applies it to the Habsburg Monarchy one of early modern Europe's foremost war machines. It systematically integrates the problems of armed conflict and foreign competition into perceptions of society and government in the Monarchy ruled from Vienna.

The Habsburg Empire: A Very Short Introduction Martyn Rady, 2017-03-16
The Habsburgs are the most famous dynasty in continental Europe. From the thirteenth to the twentieth centuries they ruled much of Central Europe and for two centuries were also rulers of Spain. Through the Spanish connection they acquired lands around the Mediterranean and a chunk of the New World spreading eastwards to include the Philippines. Reaching from South East Asia to what is now Ukraine the Habsburg Empire was truly global. In this Very Short Introduction Martin Rady looks at the history of the Habsburgs from their tenth century origins in Switzerland to the dissolution of the Habsburg Empire in 1918. He introduces the pantheon of Habsburg rulers which included adventurers, lunatics and at least one monarch who was so malformed that his true portrait could never be exhibited. He also discusses the lands and kingdoms that made up the Habsburg Empire and the decisive moments that shaped their history. Dynasty, Europe, global power and the idea of the multi-national state all converge on the history of the Habsburg Empire.

ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas and enthusiasm to make interesting and challenging topics highly readable.

The Habsburg Monarchy 1815-1918 Steven Beller, 2018-05-10
This clear and compelling account of the Habsburg Monarchy in its last century explains why a century after its disappearance it has never been more relevant. With extensive discussion of recent historiographic controversies about the Monarchy's character and viability, Steven Beller presents a detailed account of the main strands of the Monarchy's political history and how its economic, social and cultural development interacted with this main narrative. While recognizing the importance of these larger trends, readers will learn how the historical accident of personality and the complexities of high politics and diplomacy still had a central impact on the Monarchy's fate. Although some would see the Monarchy as an atavistic irrelevance in the modern age, its multicultural, multinational experience and inclusive logic was in many ways more relevant to our modernity than the nationalism that did so much to bring about its demise.

The Meaning of Literature Timothy J. Reiss, 2018-10-18
In this searching and wide-ranging book, Timothy J. Reiss seeks to explain how the concept of literature that we accept today first took shape between the mid-sixteenth century and the early seventeenth, a time of cultural transformation. Drawing on literary, political and philosophical texts from Central and Western Europe, Reiss maintains that by the early eighteenth century, divergent views concerning gender, politics, science, taste and the role of the

writer had consolidated and literature came to be regarded as an embodiment of universal values During the second half of the sixteenth century Reiss asserts conceptual consensus was breaking down and many Western Europeans found themselves overwhelmed by a sense of social decay A key element of this feeling of catastrophe Reiss points out was the assumption that thought and letters could not affect worldly reality Demonstrating that a political discourse replaced the no longer viable discourse of theology he looks closely at the functions that letters served in the reestablishment of order He traces the development of the idea of literature in texts by Montaigne Spenser Sidney Shakespeare Lope de Vega and Cervantes among others through seventeenth century writings by such authors as Davenant Boileau Dryden Rymer Anne Dacier Astell and Leibniz to eighteenth century works including those of Addison Pope Batteux and Hutcheson Burke Lessing Kant and Wollstonecraft Reiss follows key strands of the tradition particularly the concept of the sublime into the nineteenth century through a reading of Hegel s Aesthetics The Meaning of Literature will contribute to current debates concerning cultural dominance and multiculturalism It will be welcomed by anyone interested in literature and in cultural studies including literary theorists and historians comparatists intellectual historians historical sociologists and philosophers

German Histories in the Age of Reformations, 1400-1650 Thomas A. Brady Jr., 2009-07-13 This book studies the connections between the political reform of the Holy Roman Empire and the German lands around 1500 and the sixteenth century religious reformations both Protestant and Catholic It argues that the character of the political changes dispersed sovereignty local autonomy prevented both a general reformation of the Church before 1520 and a national reformation thereafter The resulting settlement maintained the public peace through politically structured religious communities confessions thereby avoiding further religious strife and fixing the confessions into the Empire s constitution The Germans emergence into the modern era as a people having two national religions was the reformation s principal legacy to modern Germany

Beyond the Wall Martin Elbel, 2020-09-14T16:54:00+02:00 The wall separating the cloister from the surrounding world is one of the most distinctive features of a monastery it marks out the community of monks or

friars and defines the very essence of a cloister However this wall was never completely impenetrable Those inside interacted with those outside in churches in towns and villages or even in the cloisters It is this permeability of the cloister wall what constitutes the central motif of this book Using the example of the Franciscan Friary of St Bernardino in Olomouc nowadays in the Czech Republic it analyses the interaction of the friars and the urban community It focuses on the 17th and 18th centuries when following the suppression of non Catholic confessions Roman Catholicism became the only official religion and the city became one of major ecclesiastical centres in the Habsburg Lands The Franciscans significantly contributed to the formation of the new Catholic confessional culture in the city yet they were just one of the many agents They were forced to constantly re negotiate their position and to compete with other religious institutions The mendicant character of the order eventually proved to be their main advantage Although the life in strict poverty brought many complications it also greatly enhanced the prestige of the friars Simultaneously it motivated them to search for new and efficient ways to address the people Begging for alms thus became one of the main forms of interaction between the friary and the local community allowing the mendicants to extend their reach significantly to emphasise their uniqueness and importance and to patiently build their own network of ties to the local population The story of the friary of St Bernardino in Olomouc demonstrates that early modern Roman Catholicism was not built unilaterally from the top down but was instead the result of synergy and even conflicts between many actors

Zone Di Frattura in Epoca Moderna Almut Bues,2005 Until recently there have not been many researches on border zones in Early Modern Europe For the time before the emergence of nation states however it is convenient to think in European cases which indicate instability or cooperation in these zones of contact Three representative geographic regions have been central to an international conference which was questioning the specificities of zones of fracture Poland Lithuania has been linked with two zones the Baltic Sea and the Balkans The Northern Italian States were situated between two tectonic regions the Balkans and the Rhine valley The Balkans by themselves were divided into various mini zones and confronted with the Ottoman Empire The panels did not only try to look for comparisons but intended to find out the complexity and the different experiences within zones of frontiers in an European context The overlapping of various lines especially in the fields of law taxes and the Church has been brought into sharper focus

Events That Formed the Modern World Frank W. Thackeray,John E. Findling,2012-05-31 This comprehensive five volume set contains readable essays that describe and interpret the most important global events since the European Renaissance some accompanied by related document excerpts and primary source materials What were the effects of the Age of Exploration on today s ethnic groups and social structure How did the development of moveable type pave the way for Facebook and Twitter Why is the Reformation so critical for understanding today s religious controversies This set will help readers answer these questions by exploring the most significant historical events of the modern world This five volume set covers times from the Renaissance to the present Each volume focuses on a specific historic period and examines 12 events within those time frames that

changed the world Each entry provides an introduction that lays out factual material in a chronological manner an in depth essay interpreting the event s significance and an annotated bibliography of the most important current works on the topic Select entries are followed by primary sources pertaining to the event under consideration such as diary entries Targeted to both general readers as well as entry level university students this book also directly supports high school and undergraduate curricula allowing students to identify and contextualize events in order to think critically about their causes aftermath and legacy
