The Origins of Criticism Andrew Ford, 2009-01-10 By literary criticism we usually mean a self conscious act involving the technical and aesthetic appraisal by individuals of autonomous works of art Aristotle and Plato come to mind The word social does not Yet as this book shows it should if that is we wish to understand where literary criticism as we think of it today came from Andrew Ford offers a new understanding of the development of criticism demonstrating that its roots stretch back long before the sophists to public commentary on the performance of songs and poems in the preliterate era of ancient Greece He pinpoints when and how later in the Greek tradition than is usually assumed poetry was studied as a discipline with its own principles and methods The Origins of Criticism complements the usual history of ideas approach to the topic precisely by treating criticism as a social as well as a theoretical activity With unprecedented and penetrating detail Ford considers varying scholarly interpretations of the key texts discussed Examining Greek discussions of poetry from the late sixth century B C through the rise of poetics in the late fourth he asks when we first can recognize anything like the modern notions of literature as imaginative writing and of literary criticism as a special knowledge of such writing Serving as a monumental preface to Aristotle's Poetics this book allows readers to discern the emergence within the manifold activities that might be called criticism of the historically specific discourse on poetry that has shaped subsequent Western approaches to literature

Lyric Poetry Mutlu Blasing,2009-01-10 Lyric poetry has long been regarded as the intensely private emotional expression of individuals powerful precisely because it draws readers into personal worlds But who exactly is the I in a lyric poem and how is it created In Lyric Poetry Mutlu Blasing argues that the individual in a lyric is only a virtual entity and that lyric poetry takes its power from the public emotional power of language itself In the first major new theory of the lyric to be put forward in decades Blasing proposes that lyric poetry is a public discourse deeply rooted in the mother tongue She looks to poetic linguistic and psychoanalytic theory to help unravel the intricate historical processes

that generate speaking subjects and concludes that lyric forms convey both personal and communal emotional histories in language Focusing on the work of such diverse twentieth century American poets as T S Eliot Ezra Pound Wallace Stevens and Anne Sexton Blasing demonstrates the ways that the lyric I speaks from first to last as a creation of poetic language
