Sharing the Experiences of Immigrants

Moving Stories is a tool for sharing migration narratives. We seek written contributions, images, artwork, oral accounts, and other forms of storytelling that cover any aspect of migration. This project helps us to understand how narratives foster connections between different communities and how they work to influence policy.

Conscious Moving Christine Caldwell, PHD, 2024-06-25 Conscious Moving extends from one transformative belief we feel more human more empowered and more ourselves when we live from that place within us and all around us that simply moves And when we examine and trust in the emerging and evolving movement of our minds and bodies we can better harness the tools needed to expand our creativity wellbeing and learning Body based psychotherapist movement specialist and renowned author educator Christine Caldwell *Oppression and the Body* offers a radically ambitious mode of somatic awareness and inquiry and shows how designing our own conscious movement practices can improve not only our own lives but our relationships communities and culture This anthology explores how movement practices can help us be more present more grounded and intentional in responding to and working with experiences in the moment and claim our own bodily autonomy Caldwell and contributors explore these key benefits and applications in four critical areas Creativity Contemplation Healing Learning Rooted in both ancient and modern scientific ways of knowing Conscious Moving imparts fundamental principles and tools applicable to a broad spectrum of fields and professions Topics explored in partnership with conscious movement practice include Trauma and Oppression Isolation and Loneliness Addiction Group Therapy Sexuality Creative Arts and Grief Encouraging each reader to pay attention to and honor their own embodied intuition Conscious Moving is a non prescriptive guide to accessing body based wisdom for personal growth community impact and widespread social change **Histories of the Self** Penny Summerfield, 2018-07-04 Histories of the Self interrogates historians work with personal narratives It introduces students and researchers to scholarly approaches to diaries letters oral history and memoirs as sources that give access to intimate aspects of the past Historians are interested as never before in how people thought and felt about their lives This turn to the personal has focused attention on the capacity of subjective records to illuminate both individual experiences and the wider world within which narrators lived However sources such as letters diaries memoirs and oral history have been the subject of intense debate over the last forty years concerning both their value and the uses to which they can be put This book traces the engagement of historians of the personal with notions of historical

reliability and with the issue of representativeness and it explores the ways in which they have overcome the scepticism of earlier practitioners. It celebrates their adventures with the meanings of the past buried in personal narratives and applauds their transformation of historical practice. Supported by case studies from across the globe and spanning the fifteenth to twenty-first centuries, *Histories of the Self* is essential reading for students and researchers interested in the ways personal testimony has been and can be used by historians.

Moving Borders Matthew Atencio, Becky Beal, E. Missy Wright, Zane McClain, 2018-12-03 Once considered a kind of delinquent activity, skateboarding is on track to join soccer, baseball, and basketball as an approved way for American children to pass the after-school hours. With family skateboarding in the San Francisco Bay Area as its focus, *Moving Borders* explores this switch in stance, integrating first-person interviews and direct observations to provide a rich portrait of youth skateboarders, their parents, and the social and market forces that drive them toward the skate park. This excellent treatise on the contemporary youth sports scene examines how modern families embrace skateboarding and the role commerce plays in this unexpected new parent culture, and highlights how private corporations, community leaders, parks and recreation departments, and nonprofits like the Tony Hawk Foundation have united to energize skate parks like soccer fields before them as platforms for community engagement and the creation of social and economic capital.

We're Moving Again?! C.L. Greyson, 2021-06-09 I used to say that everyone knows someone who's moving. Whether you are planning a move across town, placing your possessions in temporary storage, moving across the country, or internationally, this book discusses how to prepare for an estimator if the plan is to use a Van Line or self-move. In addition, it provides tips on packing your own moving boxes, storage options, valuation, not insurance, and terms often used by movers. This book does not try to steer a reader into a Van Line or self-move because ultimately it is the decision of the family that is relocating. Hopefully, you will enjoy the stories, all true, that I have witnessed over a fifty-year span. Obviously, all names are changed since the name of the person isn't relevant; it's the story. Movers have a personal relationship with customers as they not only move their furniture but all their possessions, including clothing, books, kitchen items, etc. It is important for the mover to form a rapport with the family so they can be trusted. I always remember standing next to a woman whose furniture had just left in the van when she said, "That's everything I own. That is a big responsibility."
