A Physical Education Jonathan Taylor, 2025-03-11 On bullying discipline and power in school and beyond What does it mean to be a bully What does it feel like to be bullied to be a victim a pariah a scapegoat What are the techniques patterns and languages of bullying Intermingling memoir with literary criticism philosophy and sociology A Physical Education attempts to answer these questions A highly original examination of the uses and abuses of power in the education system it explores how

bullying and discipline function how they differ from each other and how they all too often overlap Taylor interweaves his own experiences with reflections on well known literary representations of bullying and school discipline alongside sociological psychological and philosophical theories of power He discusses the transition from corporal punishment to psychological forms of discipline that took place in the UK in the 1980s and he also investigates the divergences and convergences of physical psychological and linguistic bullying Above all A Physical Education sets out to understand bullying and discipline from an experiential perspective what these things feel like from within rather than above for all those involved There are horrors tragedies and cyclical traumas certainly but there are also absurdities contradictions grotesque comedies Sometimes beneath the Gradgrindian tyranny there is trickery laughter And sometimes there are chinks in The Wall through which other possible worlds might be glimpsed
