Mrs Gooses Baby:

Mrs. Goose's Baby Charlotte Voake, 1997 Mrs Goose is a devoted mother to her new baby but is puzzled by the baby's strange behavior *SRA Open Court Reading*, 2005 *Billy Goat's Story* Amy Prentice, 1906 **Literacy and Schooling** Frances Christie, Ray Misson, 2012-10-12 This book is intended to offer an introduction to some major themes in literacy education. Literacy has become an important issue both in the UK and internationally and this book aims to inform discussions while assisting teachers to reflect on their work as literacy teachers. Literacy is important from the earliest years through all the years of formal education and so this book covers work with students in the full range of schooling and in a number of different subject areas. Topics covered include the nature and use of texts, the reading positions that are constructed in texts and their ideological implications, the ways in which written texts change as students grow older, moving from the early years through to secondary education, the implications of Information Technology for literacy teaching. Frances Christie is Foundation Professor of Language and Literacy Education at the University of Melbourne. Ray Misson is Senior Lecturer in Language and Literacy Education at the University of Melbourne. **Contextualising Difficulties in Literacy Development** Gavin Reid, Janet Soler, Janice Wearmouth, 2014-06-03 This book provides a range of interdisciplinary and international perspectives on difficulties in literacy development. The high profile team of contributors provide ethical and policy discussions as well as contextualising individual and collective strategies to addressing difficulties in literacy development. The chapters break new ground by encompassing a wide range of perspectives related to critical literacy, socio-cultural, cognitive and psychological viewpoints to help inform practice, policy and research into literacy difficulties. Issues addressed include the different ways literacy can be conceptualised through social science based disciplinary perspectives, the issues at the centre of current public and professional debates surrounding literacy difficulties and how these have impacted upon pedagogical responses, the impact of these wider political and social issues on individual students. This reader forms the basis of the Open University's Difficulties in Literacy Development course but will also be of interest to postgraduate students, teachers, researchers, education professionals and policymakers who are keen to address difficulties in literacy development.
