Pathos Of Power:

Children, Race, and Power Gerald Markowitz, David Rosner, 2013-12-16 A portrait of two important black social scientists and a broader history of race relations this important work captures the vitality and chaos of post war politics in New York recasting the story of the civil rights movement

Spirit, Pathos and Liberation Samuel Solivan, 1998-11-01 The growth of the Pentecostal movement is often most evident among the poor and disenfranchised of society as for example among the Hispanic American community As this community continues to develop will Pentecostal theology be able to incorporate into its hermeneutics those issues that especially concern it Solivan looks at relevant issues to this debate from a Hispanic American perspective presenting an overview of Hispanic diversity and its common roots and struggles He talks of four critical issues in Hispanic theology religious experience suffering the work of the Holy Spirit and the importance of language and culture and other issues including acculturation and assimilation He shows how a community's suffering and oppression can be transformed by the Holy Spirit into a liberating life full of hope and promise

Suffering, Politics, Power Cynthia Halpern, 2002-01-03 Suffering and politics in the thought of Luther Hobbes Rousseau and Nietzsche

The Phantom of the Ego Nidesh Lawtoo, 2013-10-01 The Phantom of the Ego is the first comparative study that shows how the modernist account of the unconscious anticipates contemporary discoveries about the importance of mimesis in the formation of subjectivity Rather than beginning with Sigmund Freud as the father of modernism Nidesh Lawtoo starts with Friedrich Nietzsche's antimetaphysical diagnostic of the ego his realization that mimetic reflexes from sympathy to hypnosis to contagion to crowd behavior move the soul and his insistence that psychology informs philosophical reflection Through a transdisciplinary comparative reading of landmark modernist authors like Nietzsche Joseph Conrad D H Lawrence and Georges Bataille Lawtoo shows that before being a timely empirical discovery the mimetic unconscious emerged from an untimely current in literary and philosophical modernism This book traces the psychological ethical political and cultural implications of the realization that the modern ego is born out of the spirit of imitation it is thus strictly speaking not an ego but what Nietzsche calls a phantom of the ego The Phantom of the Ego opens up a Nietzschean back door to the unconscious that has mimesis rather than dreams as its via regia and argues that the modernist account of the mimetic unconscious makes our understanding of the psyche new

In Search of Authenticity Jacob Golomb, 2012-11-12 Great philosophers such as Kierkegaard Nietzsche and Sartre have clearly been preoccupied by the possibility of authenticity In this study Jacob Golomb looks closely at the literature and writings of these philosophers in his analysis of their ethics Golomb's writings shows his passionate commitment to the quest for the authenticity particularly in our climate of post modern scepticism He argues that existentialism is all the more pertinent and relevant today when set against the general disillusionment which characterises the late twentieth century This book is invaluable reading for those who have been fascinated by figures like Camus's Meursault Sartre's Matthieu and Nietzsche's Zarathustra

Empathy Susan Lanzoni, 2018-09-25 A surprising

sweeping and deeply researched history of empathy from late nineteenth century German aesthetics to mirror neurons Empathy A History tells the fascinating and largely unknown story of the first appearance of empathy in 1908 and tracks its shifting meanings over the following century Despite empathy s ubiquity today few realize that it began as a translation of Einfühlung or in feeling in German psychological aesthetics that described how spectators projected their own feelings and movements into objects of art and nature Remarkably this early conception of empathy transformed into its opposite over the ensuing decades Social scientists and clinical psychologists refashioned empathy to require the deliberate putting aside of one s feelings to more accurately understand another s By the end of World War II interpersonal empathy entered the mainstream appearing in advice columns popular radio and TV and later in public forums on civil rights Even as neuroscientists continue to map the brain correlates of empathy its many dimensions still elude strict scientific description This meticulously researched book uncovers empathy s historical layers offering a rich portrait of the tension between the reach of one s own imagination and the realities of others experiences

Metaphysics and Nihilism Martin Heidegger, 2022-11-29 The two treatises The Overcoming of Metaphysics 1938 39 and The Essence of Nihilism 1946 1948 do not belong together temporally or formally but they are brought together in this volume because they both treat a common thesis from the standpoint of different questions namely that nihilism is the essence of metaphysics in relation to the history of being The overcoming of metaphysics is for Heidegger the decisive historical moment in which metaphysics is experienced as the history of the abandonment by being and overcome at the same time The abandonment of beings by being reveals itself in the final and most extreme intensification of metaphysics as the unconditioned predominance of manipulation Manipulation means here the all dominating producibility of beings The Essence of Nihilism is linked to the idea of overcoming This text deals with the attempt to elucidate the essence of nihilism through Nietzsche s words God is dead The killing of God springs from the will to power as the most extreme form of manipulation The being of beings is grasped here as the positing of values emanating from the will to power In this positing of being as value it becomes clear that being itself remained unthought in metaphysics Therefore metaphysics as such is nihilism proper These key works by Heidegger now available in English for the first time will be of great interest to students and scholars of philosophy and to anyone interested
