

A dirt path leads through a field of tall grass and a fence, with a sunset sky in the background. The path is made of dirt and leads towards the horizon. The fence is made of wooden posts and wire. The sky is a mix of orange, yellow, and blue, with some clouds. The overall mood is peaceful and contemplative.

All paths lead to Heaven,
follow your own path and
leave the others in peace.

Paths To Peace:

Paths To Peace Richard Smoke, Willis W Harman, 2019-06-26 A primer on thinking about peace in a nuclear age this book describes the kinds of peace efforts that have been tried and those that might be tried from the highest echelons of government policymaking to the grassroots level of individual endeavour Its primary goal is to enable the reader to understand ways of eliminating the threat of nuclear war and to be empowered to take action The book describes and compares nine basic methods people have used to achieve peace ranging from such conventional approaches as the theories of deterrence and balance of power to more unconventional strategies such as nonviolent resistance Essentially all significant ideas for achieving and maintaining international peace fall into one of these nine categories or combine features from several Many have been tried but all clearly have been found wanting Yet the authors tone is one of optimism as they explore some of the major changes of the past quarter century They contend that these changes alter the balance of advantages and disadvantages among the various paths to peace so that what seemed partially workable in the past may not be appropriate to the present and what seemed totally impractical in the past might have a chance of working today The book concludes with a scenario that may make a stable peace possible in the foreseeable future Paths to Peace Elizabeth A.

Stanley, 2009-07-28 Paths to Peace begins by developing a theory about the domestic obstacles to making peace and the role played by shifts in states governing coalitions in overcoming these obstacles In particular it explains how the longer the war the harder it is to end because domestic obstacles to peace become institutionalized over time Next it tests this theory with a mixed methods approach through historical case studies and quantitative statistical analysis Finally it applies the theory to an in depth analysis of the ending of the Korean War By analyzing the domestic politics of the war s major combatants the Soviet Union the United States China and North and South Korea it explains why the final armistice terms accepted in July 1953 were little different from those proposed at the start of negotiations in July 1951 some 294 000 additional battle deaths later
