Pathways Fostering Spiritual Growth Among At-risk Youth

Douglas Cullinan

Pathways Fostering Spiritual Growth Among Atrisk Youth:

Pathways Thomas J. Everson,1993-01-01 Reaching troubled or at risk youth on a spiritual level is gaining ground as an effective approach in youth care This wealth of material gathered in a three ring binder was developed for workshops delivered to dozens of churches and youth ministry programs in recent years Topics covered include at risk youth who they are the question of suffering spiritual and more development methodologies and techniques for promoting spiritual growth

Passing on the Faith Merton P. Strommen,Dick Hardel,2008 From the Introduction This book is about passing on the faith from generation to generation throughout the milestones of a person s life Faith is created and nurtured by the Holy Spirit through the Gospels The vision underlying the RADICAL model was developed in light of the theological principle that faith is formed by the Holy Spirit through personal trusted relationships often but not always in our own homes A youth and family ministry for the 21st century connects all the generations in the total ministry of the congregation and through the cross of Christ recognizes the work of the Holy Spirit shaping faith in all the circles of relationships This revised edition expands on the authors original model in an all new chapter on the circle of creation This edition has also been updated throughout in light of new ideas and research that have emerged during the past decade **Lost Boys** James

Garbarino,2000-08-15 Remarkable What sets *Lost Boys* apart from the ordinary lament is the author s palpable sense of care and compassion The Washington Post Book World Our national consciousness has been altered by haunting images of mass slaughters in American high schools carried out by troubled young boys with guns It s now clear that no matter where we live or how hard we try as parents our children are likely to be going to school with boys who are capable of getting guns and pulling triggers What has caused teen violence to spread from the urban war zones of large cities right into the country s heartland And what can we do to stop this terrifying trend James Garbarino Ph D Cornell University professor and nationally noted psychologist insists that there are things that we both as individuals and as a society can do In a richly anecdotal style he outlines warning signs that parents and teachers can recognize and suggests steps that can be taken to turn angry and unhappy boys away from violent action Full of insight vivid individual portraits practical advice and considered hope this is one of the most important and original books ever written about boys **Practicing Passion** Kenda Creasy

Dean,2004-04-26 Youth and the Quest for a Passionate Church **Creating A Safe harbor , Building Skills in**

High-risk Families Jane L. Peterson,1995 This six phase approach guides workers and families through the process of building family strengths and developing skills By focusing on family skill acquisition and goal attainment this program helps both the worker and the family plot the course toward more effective and satisfying family life Students with Emotional

and Behavioral Disorders Douglas Cullinan,2007 This text provides a broad coverage of the nature causes assessment approaches and interventions of emotional and behavioral disorders It presents readers with an exploration of the assumptions behind intervention practices and curricula This emphasis enables educators and professionals to select and use

appropriate assessments for effective instruction and classroom management techniques Back cover Working with Aggressive Youth in Open Settings Father Flanagan's Boys' Home, 1989 This manual is designed to provide basic information to child care staff who work with aggressive youth in open settings such as schools clinics group homes foster homes etc Child care staff who work with youth in closed settings eg detention or locked psychiatric facilities also will find the principles and procedures offered in this training useful in reducing the frequency and intensity of aggressive behaviour in their programs **Supporting Children and Youth Through Spiritual Education** Kirmani, Mubina Hassanali, Chapman, Amy L., Steele, Barbara M., Moallem, Mahnaz, Schroth, Stephen T., 2023-07-17 Across academic circles over the last few decades the interest and inquiry on spirituality continues to broaden Currently the school system in the United States and many Western countries put their focus on academic achievement at the expense of preparing their students inner cores for skills they will need to deal with a more complex and challenging world to come Supporting Children and Youth Through Spiritual Education provides a platform for researchers and experts in the field of spirituality in children and youth to voice the urgent need for an educational system that truly nurtures the whole child The book also considers the need to remove the misunderstandings about the terms spirituality and religion among those who work directly with children and youth Covering key topics such as religion cognitive development and spiritual needs this reference work is critical for principals administrators industry professionals researchers scholars practitioners academicians instructors and students

Pathways Through Adolescence Lisa J. Crockett, Ann C. Crouter, 2014-03-05 Adolescent researchers are increasingly aware that they must examine development both across time and across context To do so however requires new conceptualizations and methodological approaches to the study of development including attention to the pathways young people choose in adolescence and follow into adulthood This volume assembles work by key researchers in the field who are struggling to understand how developmental trajectories are constructed and maintained throughout the adolescent period A complete understanding of developmental pathways requires the recognition that adolescents social contexts family school neighborhood and or peer group are important influences on the choices they make at this developmental period Researchers have traditionally studied contexts in isolation rather than examining the interrelationships among contexts and their implications for adolescent development The present volume seeks to address this gap in the literature with attention given not only to the interrelationships among contexts for white middle class youth but also to these issues for minority adolescents in neighborhoods that vary in terms of access to resources It concludes with an examination of researcher community collaboration as a strategy to move communities toward a greater awareness of adolescent development and the problems facing youth in their community and as a means to promote potential avenues for policy change and intervention
