

PATHWAYS TO DEMOCRACY

The Political Economy of Democratic Transitions

James C. McMillan and Colin Meese, Editors

Pathways To Democracy The Political Economy Of Democratic Transitions

James Frank Hollifield, Calvin C. Jillson

Pathways To Democracy The Political Economy Of Democratic Transitions:

Pathways to Democracy James Frank Hollifield, 2000 The legendary Greek figure Orpheus was said to have possessed magical powers capable of moving all living and inanimate things through the sound of his lyre and voice Over time the Orphic theme has come to indicate the power of music to unsettle subvert and ultimately bring down oppressive realities in order to liberate the soul and expand human life without limits The liberating effect of music has been a particularly important theme in twentieth century African American literature The nine original essays in *Black Orpheus* examines the Orphic theme in the fiction of such African American writers as Jean Toomer Langston Hughes Claude McKay James Baldwin Nathaniel Mackey Sherley Anne Williams Ann Petry Ntozake Shange Alice Walker Gayl Jones and Toni Morrison The authors discussed in this volume depict music as a mystical shamanistic and spiritual power that can miraculously transform the realities of the soul and of the world Here the musician uses his or her music as a weapon to shield and protect his or her spirituality Written by scholars of English music women s studies American studies cultural theory and black and Africana studies the essays in this interdisciplinary collection ultimately explore the thematic linguistic structural presence of music in twentieth century African American fiction

Pathways to Democracy James Frank Hollifield, Calvin C. Jillson, 2014-01-21 A global examination that includes nations in Latin America Asia Russia Eastern Europe and Africa *Pathways to Democracy* investigates the implications of the various paths that nations take to democracy and the political and economic programs needed to stabilize new democracies From military to authoritarian to communist oligarchies the essays reveal that democratic transitions were instigated by divisions within the ruling elite challenges came from groups and interests outside the elite and poor economic performance followed in its wake An extensive look at what the United States can do through its foreign policy to promote and invest in democratization is included An introduction to democratization that is comprehensive and global in scope Includes comprehensive focus on U S foreign policy

Political Change, Democratic Transitions and Security in Southeast Asia Mely Caballero-Anthony, 2009-12-16 This book examines the nature of political transitions in Southeast Asia and why political transitions toward political liberalisation and democracy have failed to take off It considers political systems in the region that have gone through significant periods of transition but continue to face serious challenges toward democratic consolidation

Democratic Transitions Sergio Bitar, Abraham F. Lowenthal, 2015-09-15 Thirteen former presidents and prime ministers discuss how they helped their countries end authoritarian rule and achieve democracy National leaders who played key roles in transitions to democratic governance reveal how these were accomplished in Brazil Chile Ghana Indonesia Mexico the Philippines Poland South Africa and Spain Commissioned by the International Institute for Democracy and Electoral Assistance International IDEA these interviews shed fascinating light on how repressive regimes were ended and democracy took hold In probing conversations with Fernando Henrique Cardoso Patricio Aylwin Ricardo Lagos John Kufuor Jerry Rawlings B J Habibie Ernesto Zedillo Fidel V Ramos Aleksander Kwa niewski Tadeusz Mazowiecki F

W de Klerk Thabo Mbeki and Felipe Gonz lez editors Sergio Bitar and Abraham F Lowenthal focused on each leader s principal challenges and goals as well as their strategies to end authoritarian rule and construct democratic governance Context setting introductions by country experts highlight each nation s unique experience as well as recurrent challenges all transitions faced A chapter by Georgina Waylen analyzes the role of women leaders often underestimated A foreword by Tunisia s former president Mohamed Moncef Marzouki underlines the book s relevance in North Africa West Asia and beyond The editors conclusion distills lessons about how democratic transitions have been and can be carried out in a changing world emphasizing the importance of political leadership This unique book should be valuable for political leaders civil society activists journalists scholars and all who want to support democratic transitions **Democratization** Dirk Berg-Schlosser,2007-08-22 Problems of democratization its successes failures and future prospects belong to the most pressing concerns of our times Empirical democratic theory has received many new impulses since the last wave of democratization in Latin America Eastern Europe Africa and Southeast and East Asia In this volume the state of the art in this respect is discussed by leading international experts in this field including Laurence Whitehead Gerardo Munck Axel Hadenius and Juan Linz From the contents Some significant recent developments in the field of Democratization Concepts measurements and sub types in Democratization Research Agendas findings challenges Successes and failures of the new democracies Some thoughts on the victory and future of democracy **Democratization** Jean Grugel,Matthew Louis Bishop,2013-12-04 The second edition of this popular and authoritative text provides a truly global assessment of democratization in theory and practice in the contemporary world It has been systematically revised and updated throughout to cover recent developments from the impact of 9 11 and EU enlargement to the war in Iraq *Mass Media and Political Communication in New Democracies* Katrin Voltmer,2006 This book examines how political communication and the mass media have played a central role in the consolidation of emerging democracies around the world Covering a broad range of political and cultural contexts including Eastern and Southern Europe Latin America Asia and Africa this new volume investigates the problems and conflicts arising in the process of establishing an independent media and competitive politics in post autocratic societies Considering the changing dynamic in the relationship between political actors the media and their audience the authors of this volume address the following issues changing journalistic role perceptions and journalistic quality the reasons and consequences of persisting instrumentalization of the media by political actors the role of the media in election campaigns the way in which the citizens interpret political messages and the extent to which the media influence political attitudes and electoral behaviour the role of the Internet in building a democratic public sphere This book will be of great interest to all those studying and researching democracy and democratization comparative politics political communication journalism media and the Internet **The Logic of Positive Engagement** Miroslav Nincic,2011-08-15 Recent American foreign policy has depended heavily on the use of negative inducements to alter the behavior of other states

From public browbeating through economic sanctions to military invasion the last several presidents have chosen to use coercion to advance U S interests when dealing with adversaries In this respect as Miroslav Nincic notes the United States differs from many of its closest allies Canada has long maintained diplomatic relations with Cuba and several of the European democracies have continued diplomatic engagement with governments that the United States considers pariah regimes In *The Logic of Positive Engagement* Nincic outlines the efficacy of and the benefits that can flow from positive rather than negative engagement Nincic observes that threats and punishments may be gratifying in a symbolic sense but that they haven't affected the longevity or the most objectionable policies of the regimes against which they are directed Might positive inducements produce better results Nincic examines two major models of positive inducements the exchange model in which incentives are offered in trade for altered behavior and the catalytic model in which incentives accumulate to provoke a thorough revision of the target's policies and priorities He examines the record with regard to long term U S relations with Cuba Libya and Syria and then discusses the possibility that positive inducements might bring policy success to current relations with Iran and North Korea Democratization Without Representation Kenneth C. Shadlen, 2007-08-09

When countries become more democratic new opportunities arise for individuals and groups to participate in politics and influence the making of policy But democratization does not ensure better representation for everyone and indeed some sectors of society are ill equipped to take advantage of these new opportunities Small industry in Mexico Kenneth Shadlen shows is an excellent example of a sector whose representation decreased during democratization Shadlen's analysis focuses on the basic characteristics of small firms that complicate the process of securing representation in both authoritarian and democratic environments He then shows how increased pluralism and electoral competition served to exacerbate the political problems facing the sector during the course of democratization in Mexico These characteristics created problems for small firms both in acting collectively through interest associations and civil society organizations and in wielding power within political parties The changes that democratization effected in the structure of corporatism put small industry at a significant disadvantage in the policy making arena even while there was general agreement on the crucial importance of this sector in the new neoliberal economy especially for generating employment The final chapter extends the analysis by making comparisons with the experience of small industry representation in Argentina and Brazil Shadlen uses extensive interviews and archival research to provide new evidence and insights on the difficult challenges of interest aggregation and representation for small industry He conducted interviews with a wide range of owners and managers of small firms state and party officials and leaders of business associations and civil society organizations He also did research at the National Archives in Mexico City and in the archives of the most important business organizations for small industry in the post World War II period **The Oxford Handbook of the Politics of Development** Carol Lancaster, Nicolas van de

Walle, 2018-05-01 In many discussions of nations development we often focus on their economic and social development Is it

becoming wealthier Is its society modernizing Is it becoming more technologically sophisticated Are social outcomes improving for the broad mass of the public The process of development policy implementation however is always and inevitably political Put simply regime type matters when it comes to deciding on a course of development to follow Further political institutions matter When a government's institutional capacity is low the chances of success severely decline regardless of the merits of the development plan In The Oxford Handbook of the Politics of Development two of America's leading political scientists on the issue Carol Lancaster and Nicolas van de Walle have assembled an international cast of leading scholars to craft a broad state of the art work on this vitally important topic This volume is divided into five sections major theories of the politics of development organized historically e g modernization theory dependency theory the Washington consensus of policies without politics etc key domestic factors and variables key international factors and variables political systems and structures and geographical perspectives inclusive of regional dynamics A comprehensive and cross regional examination on key issues of political development this Handbook not only provides an authoritative synthesis of past scholarship but also sets the agenda for future research in this discipline
