Moving Lives Kathy Burrell, 2017-03-02 Immigrants in Britain are often viewed as just that immigrants Their experiences as migrants are sidelined in favour of discussions about assimilation and integration how they adapt to us This book refocuses debates about migration by following the experiences memories and perceptions of three migrant groups in Britain the Polish Italian and Greek Cypriot populations In tracing some of the key themes of migration narratives Kathy Burrell illustrates that the act of migration creates enduring legacies which continue to influence the everyday lives of migrants long after they have moved The book is structured around four key themes The first is the migration process itself Burrell highlights the important contrast between voluntary and involuntary migration examining the different memories and legacies of migration The second theme is the national as opposed to ethnic identities of the groups studied The author demonstrates how national consciousness survives the upheaval of migration and is perpetuated through the recognition of national histories myths and traditional rituals The third theme is a memory of the homeland The author traces her respondents memories and experiences of their national territory focusing particularly on the transnational connections that are established with the homeland after migration Finally Burrell considers community analyzing her respondents experiences of community life and the shared social and cultural norms and values that underpin it

An Immigration History of Britain Panikos Panayi, 2014-09-11 Immigration ethnicity multiculturalism and racism have become part of daily discourse in Britain in recent decades yet far from being new these phenomena have characterised British life since the 19th century While the numbers of immigrants increased after the Second World War groups such as the Irish Germans and East European Jews have been arriving settling and impacting on British society from the Victorian period onwards In this comprehensive and fascinating account Panikos Panayi examines immigration as an ongoing process in which ethnic communities evolve as individuals choose whether to retain their ethnic identities and customs or to integrate and assimilate into wider British norms

Consequently he tackles the contradictions in the history of immigration over the past two centuries migration versus government control migrant poverty versus social mobility ethnic identity versus increasing Anglicisation and above all racism versus multiculturalism Providing an important historical context to contemporary debates and taking into account the complexity and variety of individual experiences over time this book demonstrates that no simple approach or theory can summarise the migrant experience in Britain

Italians in Wales and their Cultural Representations, 1920s-2010s Bruna Chezzi, 2015-11-25 Italian immigrants began to settle in Wales at the turn of the 19th century opening hundreds of coffee shops particularly in the South Wales Valleys Despite this such immigrants remain a largely unexplored case study in the history of Italian immigration to the UK This book uses a variety of unexplored sources and engages with the broader academic debate on migration identity and the trans generational transmission of memory to describe the emergence of Welsh Italian narratives and the formation of a distinctive yet complex Welsh Italian identity It follows a chronological journey moving from the interwar period a time in which Italians in Wales were generally regarded as fully established and integrated through to the Second World War a time when Italian identity became problematic and resulted in nearly seventy years of silencing up until the first decade of the 21st century where a mixture of commemorative events and cultural initiatives prompted the emergence of Welsh Italian narratives The book begins by studying photographic representations of Italians in Wales during the interwar period using photographs available in local history books private collections and history books The analysis of the photographic material draws from the work of scholars such as Sontag Noble Hirsh and Bate on photo textual analysis to show how photographs can reveal understudied yet important aspects of Italian migrant identity and of the relationship with the host community in the period that preceded the Second World War The book then examines how the events of the Second World War destabilised the images of family sociability and integration suggested by these photographs and how such events aggravated tensions between host and migrant cultures It continues by investigating recent Welsh Italian texts where in revisiting the past and the experience of their ancestors the authors bring different circumstances and personal factors into play determining the degree to which they reconcile their dual identity It concludes with a comparison between these narratives of belonging and the representation of the Italian migrant experience in Anglo Welsh literature
