Patrick Suppes Radu J. Bogdan, 1979-05-31 The aim of this series is to inform both professional philosophers and a larger readership of social and natural scientists methodologists mathematicians students teachers publishers etc about what is going on who s who and who does what in contemporary philosophy and logic PROFILES is designed to present the research activity and the results of already outstanding personalities and schools and of newly emerging ones in the various fields of philosophy and logic There are many Festschrift volumes dedicated to various philosophers There is the celebrated Library of Living Philosophers edited by P A Schilpp whose format influenced the present enterprise Still they can only cover very little of the contemporary philosophical scene Faced with a tremendous expansion of philosophical information and with an almost frightening division of labor and increasing specialization we need systematic and regular ways of keeping track of what happens in the profession PROFILES is intended to perform such a function Each volume is devoted to one or several philosophers whose views and results are presented and discussed The profiled philosopher s will summarize and review his their own work in the main fields of significant contribution This work will be discussed and evaluated by invited contributors Relevant historical and or biographical data an up to date bibliography with short abstracts of the most important works and whenever possible references to significant reviews and discussions will also be included **Patrick**
