Patron Saint Of Eels:

The Patron Saint of Eels Gregory Day, 2015-06-19 Winner of the Patrick White Literary Award A contemporary fable this book shows that when life seems dull and cruel it is the power of the natural world and our ability to imagine it that can bring the wonder back into living In the southern Italian village of Stellanuova in the 1700s a Franciscan monk Fra Ionio becomes known as the Patron Saint of Eels when he brings a distraught fisherman's yearly catch of eels back from the dead in the village market When Stellanuova's inhabitants emigrate to Australia in the post World War II migrations of the 1940s 50s and 60s the immortal saint is left looking down on an abandoned town To fulfil his calling he decides in heaven to migrate with his countrymen and now looks down on the state of Victoria where he intercedes in matters relating to eels In the southern Victorian town of Mangowak Noel Lea lives with the melancholy inheritance of a place undergoing the gentrifications of contemporary Australia Along with his oldest friend Nanette Burns he longs for a time when life was less complex and unexpected magic seemed to permeate the ocean town and its people When spring rains flood a nearby swamp and hundreds of eels get trapped in the grassy ditches around Noel's family home he and Nanette encounter the vibrant Fra Ionio and get more magic than they bargained for A beautifully written charming and evocative book by Gregory Day who also authored *Trace* in collaboration with photographer Robert Ashton

Eels and Humans Katsumi Tsukamoto, Mari Kuroki, 2013-10-29 This book explains much of what is known currently about freshwater eels focusing on social and cultural aspects as well as science A wealth of eel related material is presented by scientists from around the world including information on eel fishing resources distribution aquaculture economics cuisine environment and ecosystems idioms arts and crafts tradition legends mythology archaeology and even memorial services Eels are important as food for humankind and are an interesting model for scientists studying animal migration and reproductive ecology Their snake like morphology differentiates them from most other fish and their unpredictable behaviour that allows them to move over wet land and climb rocks adjacent to waterfalls attracts attention and evokes curiosity Eels are therefore considered to be enigmatic creatures or metaphysical entities beyond human intelligence indeed they have been deified in parts of the world In recent decades however with global populations of eels in sharp decline some species face a real threat of extinction and effective conservation strategies and measures are needed Comparisons across these issues between various countries provide an image of a long lasting relationship between eels and humankind and encourage comprehensive and detailed understanding of eels from the perspectives of social cultural and natural sciences By promoting understanding of the close relationship between eels and humans the broader public is engaged and public awareness of eel importance raised helping to conserve these unique but endangered fish

Ron McCoy's Sea of Diamonds Gregory Day, 2008-07-01 Winner of the Patrick White Literary Award On the wild clifftop of the coastal town of Mangowak Ron McCoy lives an almost marsupial existence with his elderly mother He hunts and gathers while the town sleeps he is acutely shy but

in the privacy of his imagination fostered as it is by his love of music and the oceanscape of his birth all things are possible Liz and Craig Wilson meanwhile are lovers of the surf and the bush When Craig is offered a job by Colin Batty Mangowak s larrikin real estate agent the dream of bringing up their kids away from the city is finally realised But working for Batty Real Estate is not as simple as it seems The surrounding landscape is full of alchemic power and mystery and when Ron McCoy and his mother decide to sell half their land the subtle generational differences between young and old Australia begin to swirl Written in a precise painterly style Gregory Day s follow up to his award winning debut novel *The Patron Saint of Eels* is a powerful meditation on belonging on landscape and on love *The Postie and The Priest* Ron Burrows, 2013-08-09 A priest a postie a parish a suburb a city a diocese an unusual and deep friendship a struggle to get a book published *The Postie and the Priest* is part biography part philosophy part social commentary part theological reflection Here is a fly on the wall account of the daily life of an iconic Melbourne priest who has a deep passion for the battlers of his city written by his postman who began by delivering his letters and ended up recording his life story The stories from Fr Bob Maguire s life recall family events life in the seminary time as an army chaplain work in various parishes media connections and above all his passion for the organisations he founded Open Family and the Fr Bob Maguire Foundation that give voice to his concern for the underprivileged and the homeless of Melbourne The postie admires the priest and tells his story but this is as much the postie s story giving us a unique insight into the history characters and streets of South Melbourne that have shaped the lives of both men *Field & Stream* , 1968-08 FIELD STREAM America s largest outdoor sports magazine celebrates the outdoor experience with great stories compelling photography and sound advice while honoring the traditions hunters and fishermen have passed down for generations *The Popular Science Monthly* , 1902 *The Eye of the Sandpiper* Brandon Keim, 2017-06-20 In *The Eye of the Sandpiper* Brandon Keim pairs cutting edge science with a deep love of nature conveying his insights in prose that is both accessible and beautiful In an elegant thoughtful tour of nature in the twenty first century Keim continues in the tradition of Lewis Thomas Stephen Jay Gould and David Quammen reporting from the frontiers of science while celebrating the natural world s wonders and posing new questions about our relationship to the rest of life on Earth The stories in *The Eye of the Sandpiper* are arranged in four thematic sections Each addresses nature through a different lens The first is evolutionary and ecological dynamics from how patterns form on butterfly wings to the ecological importance of oft reviled lampreys The second section explores the inner lives of animals which science has only recently embraced empathy in rats emotions in honeybees spirituality in chimpanzees The third section contains stories of people acting on insights both ecological and ethological nourishing blighted rivers but also caring for injured pigeons at a hospital for wild birds and demanding legal rights for primates The fourth section unites ecology and ethology in discussions of ethics how we should think about and behave toward nature and the place of wildness in a world in which space for wilderness is shrinking By appreciating the nonhuman world more fully Keim writes I hope people will also act in ways that nourish rather

than impoverish its life which is ultimately the problem that needs to be solved at this Anthropocene moment with a sixth mass extinction looming once common animals becoming rare and Earth straining to support 7.5 billion people The solution will come from a love of nature rather than chastisement or lamentation **Popular Science Monthly and World's Advance** ,1902 *Australian Book Review* ,2005
