Ennobling Love C. Stephen Jaeger, 2010-08-03 Richard Duke of Aquitaine son of the King of England remained with Philip the King of France who so honored him for so long that they ate every day at the same table and from the same dish and at night their beds did not separate them And the King of France loved him as his own soul and they loved each other so much that the King of England was absolutely astonished at the vehement love between them and marveled at what it could

mean Public avowals of love between men were common from antiquity through the Middle Ages What do these expressions leave to interpretation An extraordinary amount as Stephen Jaeger demonstrates Unlike current efforts to read medieval culture through modern mores Stephen Jaeger contends that love and sex in the Middle Ages relate to each other very differently than in the postmedieval period Love was not only a mode of feeling and desiring or an exclusively private sentiment but a way of behaving and a social ideal It was a form of aristocratic self representation its social function to show forth virtue in lovers to raise their inner worth to increase their honor and enhance their reputation To judge from the number of royal love relationships documented it seems normal rather than exceptional that a king loved his favorites and the courtiers and advisors clerical and lay loved their superiors and each other Jaeger makes an elaborate accessible and certain to be controversial case for the centrality of friendship and love as aristocratic lay clerical and monastic ideals Ennobling Love is a magisterial work a book that charts the social constructions of passion and sexuality in our own times no less than in the Middle Ages

The Architecture of Medieval Churches John A.H. Lewis, 2017-11-20 The Architecture of Medieval Churches investigates the impact of affective theology on architecture and artefacts focusing on the Middle Ages as a period of high achievement of this synthesis It explores aspects of medieval church and cathedral architecture in relation to the contemporary metaphysics and theology which articulated an integrated theocentric culture architecture and art Three modes of attention comprehension instruction and contemplation informed the builders intuition and intention The book s central premise reasons that love for God was the critical force in the creation of vernacular church architecture using a selection of medieval writings to provide a unique critique of the genius of architecture and art during this period An interdisciplinary study between architecture theology and philosophy it will appeal to academics and researchers in these fields

Love in the Afterlife Richard Striner, 2016-04-29 This is a definitive study of films that have been built around the themes of love death and the afterlife films about lovers who meet again and love again in heaven via reincarnation or through other kinds of after death encounters Far more than books about mere ghosts in the movies or religion in movies Love in the Afterlife presents a complex but highly distinctive and unique pattern the love death afterlife pattern as it was handed down by the ancient Egyptians and Greeks in the Isis and Orpheus myths for example developed by Freud and his followers in the duality of Eros and Thanatos and then featured in popular movies from the 1920s to the recent past Among its other qualities Love in the Afterlife may encourage readers to look at movies differently and reflect upon the possibility that other patterns in cinema may have gone undetected for years Furthermore this book will show how the love death afterlife theme found its way into all sorts of different film types melodramas comedies war films horror films film noir and other genres The book will be well illustrated and quotations from film reviews will enliven its pages A long appendix gives production data on almost sixty individual films
