The Routledge History Handbook of Central and Eastern Europe in the Twentieth Century Włodzimierz

Borodziej, Ferenc Laczó, Joachim von Puttkamer, 2020-08-02 *Intellectual Horizons* offers a pioneering transnational and comparative treatment of key thematic areas in the intellectual and cultural history of Central and Eastern Europe in the twentieth century. For most of the twentieth century Central and Eastern European ideas and cultures constituted an integral part of wider European trends. However, the intellectual and cultural history of this diverse region has rarely been incorporated sufficiently into nominally comprehensive histories of Europe. This volume redresses this underrepresentation and provides a more balanced perspective on the recent past of the continent through original critical overviews of themes ranging from the social and conceptual history of intellectuals and histories of political thought and historiography to literary, visual, and religious cultures to perceptions and representations of the region in the twentieth century. While structured thematically, individual contributions are organized chronologically. They emphasize where relevant generational experiences, agendas, and accomplishments while taking into account the sharp ruptures that characterize the period. The third in a four-volume set on Central and Eastern Europe in the twentieth century, it is the go-to resource for understanding the intellectual and cultural history of this dynamic region.

Curing Their Ills Megan Vaughan, 2013-06-06 *Curing their Ills* traces the history of encounters between European medicine and African societies in the nineteenth and twentieth centuries. Vaughan's detailed examination of medical discourse of the period reveals its shifting and fragmented nature, highlights its use in the creation of the colonial subject in Africa, and explores the conflict between its pretensions to scientific neutrality and its political and cultural motivations. The book includes chapters on the history of psychiatry in Africa, on the treatment of venereal diseases, on the memoirs of European Jungle Doctors, and on mission medicine. In exploring the representations of disease as well as medical practice, *Curing their Ills* makes a fascinating and original contribution to both medical history and the social history of Africa.

European Music in the Twentieth Century Howard Hartog, 2025-08-01 First published in 1957, *European Music in the Twentieth Century* includes chapters by Everett Helm on Bartók, Eric Walter White on Stravinsky, Norman del Mar on Hindemith, and Walter Goehr on Schoenberg, followed by various critics on musical development during the twentieth century in Austria, the Scandinavian countries, England, Switzerland, Italy, Germany, Russia, France, Czechoslovakia, Poland, and Greece. The plan has therefore been to take as starting point the four key composers, the pioneers of a revolution. Bartók, Stravinsky, Hindemith, and Schoenberg, and follow the history of new works and experiments through half a century. All these chapters have been written for this book; none has appeared before. Nothing of this kind has hitherto been attempted, and the result is an impressive summary of achievement in a period of immense vitality and experiment which can now be viewed in reasonable perspective.
