acted independently from or in opposition to the dynastic polity Deeply grounded in both primary and secondary sources Levine s study is important for the clarity and fluidity with which it presents a critical period in the development of Chinese imperial history and government *Air University Library Index to Military Periodicals* ,1986 **Performing Japan** ,2008-07-03 For the first time using an interdisciplinary theoretical and ethnographic approach the editors have brought together a rich collection of current research on contemporary Japanese performance practices Topics covered include theatre music art fashion and technology media architecture and tourism Well illustrated Performing Japan will provide added value in introductory courses on the Japanese language history or culture as well as Asian Studies in general In addition it offers valuable comparative references in the context of theatre music and dance classes which either introduce Japanese forms or focus entirely on the performing traditions of Japan The fourteen contributors include Joy hendry Roy Starrs Peter Eckersall Kimi Coaldrake Henry Johnson and Jerry C Jaffe **Resort Hotels of the Adirondacks** Bryant Franklin Tolles,2003 An architectural study of the large Adirondack hotels that focuses on the cultural history of travel and tourism
