Rubin,2017-07-05 Introducing the concept of music and painting as rival sisters during the nineteenth century this interdisciplinary collection explores the productive exchange from rivalry to inspiration to collaboration between the two media in the age of Romanticism and Modernism The volume traces the relationship between art and music from the opposing claims for superiority of the early nineteenth century to the emergence of the concept of synesthesia around 1900 This collection puts forward a more complex history of the relationship between art and music than has been described in earlier works including an intermixing of models and distinctions between approaches to them Individual essays from art history musicology and literature examine the growing influence of art upon music and vice versa in the works of Berlioz Courbet Manet Fantin Latour Rodin Debussy and the Pre Raphaelites among other artists **Eye-music** Frances Guy,Simon Shaw-Miller,Michael Tucker,2007 Searching for a new visual language at the beginning of the twentieth century many artists were inspired by musical forms and ideas in their early experiments in abstract art The arrival of jazz shocked both artists and composers into creating responses to its syncopated beats and vital sensuality This book explores the results of these investigations from some of the pre eminent names in Modern art including Wassily Kandinsky Paul Klee and Piet Mondrian
The Diaries of Paul Klee, 1898-1918 Paul Klee,1968-06 Paul Klee was endowed with a rich and many sided personality

that was continually spilling over into forms of expression other than his painting and that made him one of the most extraordinary phenomena of modern European art. These abilities have left their record in the four intimate Diaries in which he faithfully recorded the events of his inner and outer life from his nineteenth to his fortieth year. Here together with recollections of his childhood in Bern, his relations with his family and such friends as Kandinsky, Marc Chagall, and many others, his observations on nature and people, his trips to Italy and Tunisia, and his military service, the reader will find Klee's crucial experience with literature and music as well as many of his essential ideas about his own artistic technique and the creative process.

Art, Music, and Mysticism at the Fin de Siècle Corrinne Chong, Michelle Foot, 2024-07-29. This edited volume explores the dialogue between art and music with that of mystical currents at the turn of the twentieth century. The volume draws on the most current research from both art historians and musicologists to present an interdisciplinary approach to the study of mysticism's historical importance. The chapters in this edited volume gauge the scope of different interpretations of mysticism and illuminate how an exchange between the sister arts unveils an underlying stream of metaphysical, supernatural, and spiritual ideas over the course of the century. Case studies include Charles Tournemire, Joseph P. Ladan, Erik Satie, Hilma af Klint, Jean Sibelius, František Kupka, and Wassily Kandinsky. The contributors' unique theoretical perspectives and disciplinary methodologies offer expert insight on both the rewards and inevitable aesthetic complications that arise when one artform meets another. The book will be of interest to scholars working in art history, musicology, visual culture, and mysticism.

The Art of Music Patrick Coleman, 2015-01-01. The Art of Music takes the relationship between two of the more prominent and oft-intersecting branches of artistic creation as its subject. The liaison between music and the visual arts has inspired countless generations of artists. The two have had manifold, complex interactions across all periods of history in Western and non-Western contexts alike, yet their intersection has only become a rich vein for research by art historians and musicologists in the last thirty years. By tracing these relationships, new insights into the affinities of the arts become clear.
