Lien Chong, 2002 Treating China's Cultural Revolution as much more than a political event this innovative volume explores its  
ideological dimensions The contributors focus especially on the CR's discourse of heroism and messianism and its  
demonization of the enemy as reflected in political practice official literature and propaganda art arguing that these  
characteristics can be traced back to hitherto neglected undercurrents of Chinese tradition Moreover while most studies of  
the Cultural Revolution are content to point to the discredited cult of heroism and messianism this book also explores the  
alternative discourses that have flourished to fill the resulting vacuum The contributors analyze the intense intellectual and  
artistic ferment in post Mao China that embody resistance to CR ideology as well as the urgent quest for authentic  
individuality new forms of social cohesion and historical truth Contributions by Anne Marie Brady Woei Lien Chong Lowell

spectacularization of campaigning Written by an international group of contributors this volume focuses on the last one  
hundred years covering a wide range of countries around the globe and dealing with dictatorial regimes and democratic  
systems alike As well as discussing the effigies that are produced by the powers that be for propaganda purposes it looks at  
the uses of portraiture by antagonistic groups or movements as forms of resistance derision denunciation and demonization

from a number of vantage points and asks key questions about its nature How has portraiture changed over the centuries How have portraits represented their subjects and how have they been interpreted Issues of identity modernity and gender are considered within a cultural and historical context Shearer West uncovers much intriguing detail about a genre that has often been seen as purely representational featuring examples from African tribes to Renaissance princes and from stars such as David and Victoria Beckham to ordinary people In the process she shows us how to communicate with the past in an exciting new way The Wife's Portrait; and Other Tales.
