aware that once my pen intervenes I can make whatever I like out of what I was Paul Valéry. Modernism is often characterized as a movement of impersonality, a rejection of autobiography. But most of the major works of European modernism and postmodernism engage in very profound and central ways with questions about life writing. Max Saunders explores the ways in which modern writers from the 1870s to the 1930s experimented with forms of life writing: biography, autobiography, memoir, diary, journal, increasingly for the purposes of fiction. He identifies a wave of new hybrid forms from the late nineteenth century and uses the term *autobiografiction* discovered in a surprisingly early essay of 1906 to provide a fresh perspective on turn of the century literature and to propose a radically new literary history of Modernism. Saunders offers a taxonomy of the extraordinary variety of experiments with life writing, demonstrating how they arose in the nineteenth century as the pressures of secularization and psychological theory disturbed the categories of biography and autobiography in works by authors such as Pater, Ruskin, Proust, Mark Rutherford, George Gissing, and A. C. Benson. He goes on to look at writers experimenting further with *autobiografiction* as Impressionism turns into Modernism, juxtaposing detailed and vivacious readings of key Modernist texts by Joyce, Stein, Pound, and Woolf with explorations of the work of other authors including H. G. Wells, Henry James, Joseph Conrad, Ford Madox Ford, and Wyndham Lewis, whose experiments with life writing forms are no less striking. The book concludes with a consideration of the afterlife of these fascinating experiments in the postmodern literature of Nabokov, Lessing, and Byatt. *Self Impression* sheds light on a number of significant but under-theorized issues: the meanings of autobiographical, the generic implications of literary autobiography, and the intriguing relation between autobiography and fiction in the period.

Dictionary of National Biography, 1901. Virginia Woolf's Afterlives Monica Latham, 2021-05-30. This book explores Virginia Woolf's afterlives in contemporary biographical novels and drama. It offers an extensive analysis of a wide array of literary productions in which Virginia Woolf appears as a fictional character or a *dramatis persona*. It examines how Woolf's physical and psychological features, as well as the values she stood for, are magnified, reinforced, or distorted to serve the authors' specific agendas. Beyond general theoretical issues about this flourishing genre, this study raises specific questions about the literary and cultural relevance of Woolf's fictional representations. These contemporary narratives inform us about Woolf's iconicity, but they also mirror our current literary, cultural, and political concerns. Based on a close examination of twenty-five works published between 1972 and 2019, the book surveys various portraits of Woolf as a feminist, pacifist, troubled genius, gifted innovative writer, treacherous competitive sister, and tragic suicidal character, or on the contrary as a caricatural comic spirit, inspirational figure, and perspicacious amateur sleuth. By resurrecting Virginia Woolf in contemporary biofiction, whether to enhance or debunk stereotypes about the historical figure, the authors studied here contribute to her continuous reinvention. Their diverse fictional portraits constitute a way to reinforce Woolf's literary status, re-evaluate her work, rejuvenate critical interpretations, and augment her cultural capital in the twenty-first century.
