

Portraiture In Prints

Ann Bermingham, John Brewer

Portraiture In Prints:

Portraiture in Prints Constance Harris, 1987 **Rembrandt** Stephanie Dickey, 2004 This is the first monograph devoted to Rembrandt's etched portraits of himself and his contemporaries Between 1633 and 1665 Rembrandt etched less than two dozen formal portraits yet this small body of work includes some of his most finely crafted and widely sought after prints Rembrandt depicted influential preachers of the Remonstrant Reformed and Mennonite faiths as well as prominent citizens such as the tax administrator Jan Wtenbogaert the wealthy connoisseur Jan Six the physician Arnout Tholinx and the landscape painter Jan Asselijn Most of these men participated in a circle of artists poets and patrons who thought of themselves as a Dutch Parnassus For this community of art lovers the celebration of individual character and accomplishment in products ranging from imposing portrait sculptures to witty occasional verses was a central preoccupation This book brings together contextual evidence such as preparatory studies inscribed copies and literary responses of Rembrandt's etched portraits **Van Dyck, Rembrandt, and the Portrait Print** Victoria Sancho Lobis, Maureen Warren, 2016-01-01 In the last decade of his life Anthony van Dyck 1599-1641 undertook a printmaking project that changed the conventions of portraiture In a series later named the Iconography he portrayed artists alongside kings courtiers and diplomats a radical departure from preexisting conventions He also depicted his subjects in novel ways focusing on their facial features often to the exclusion of symbolic costumes or props In addition to illustrating approximately 60 works by Van Dyck and other artists from his era particularly Rembrandt this catalogue traces the artist's influence over hundreds of years Showcasing both 17th century portraits in a variety of media and portrait prints by a wide range of artists spanning the 16th through the 20th centuries including Albrecht Dürer Hendrick Goltzius Francisco de Goya Edgar Degas and Jim Dine the book demonstrates the indelible mark that Van Dyck left on the genre **Catalogue of the Heraldic and Miscellaneous Library, Illustrated Manuscripts, Portraits, Prints Stained Glass with Paintings, &c. &c. &c. of the Late Philip Absalom ... which Will be Sold by Auction by Messrs. Evans, No. 93, Pall Mall, on Wednesday, June 23, and Two Following Days**, 1841 **Library of Congress Subject Headings** Library of Congress, 2009 Bulletin of Photography John Bartlett, Frank V. Chambers, Francis Stapleton Chambers, 1924 Bulletin of Photography, 1922 "The Thomas Bell Library." Thomas Bell, 1860 The Ashgate Research Companion to Dutch Art of the Seventeenth Century Wayne Franits, 2017-07-05 Despite the tremendous number of studies produced annually in the field of Dutch art over the last 30 years or so and the strong contemporary market for works by Dutch masters of the period as well as the public's ongoing fascination with some of its most beloved painters until now there has been no comprehensive study assessing the state of research in the field As the first study of its kind this book is a useful resource for scholars and advanced students of seventeenth century Dutch art and also serves as a springboard for further research Its 19 chapters divided into three sections and written by a team of internationally renowned art historians address a wide variety of topics ranging from those

that might be considered traditional to others that have only drawn scholarly attention comparatively recently **Art in a Season of Revolution** Margaretta M. Lovell,2007-02-13 Lovell delights astonishes and challenges us with her insightful new readings of early American paintings and material culture objects *Journal of the Early Republic* **The Consumption of Culture, 1600-1800** Ann Bermingham,John Brewer,1995 **Prints and Printmakers of New York State, 1825-1940** David Tatham,1986-08-01 For well over a century New York has been a microcosm of the art and craft of American printmaking Until 1825 printmaking in America was almost entirely an artisan s craft Then with the arrival of lithography the realization arose that printmaking could also be a fine art The essays published in this collection contribute to the body of scholarship by identifying important but hitherto insufficiently studied aspects of the graphic arts and treating them authoritatively Their subjects concern prints in New York State whose great metropolitan city was after 1825 the acknowledged center of nearly everything important in the graphic arts in the U S The history of American prints from 1825 on is enormously rich yet until the 1970s it was the least studied and understood aspect of the history of art in North America It is a history more deeply rooted in popular culture and more closely tied for a long time to the world of commerce than the other arts The usually small scale sometimes ephemeral and often highly subtle or highly unsubtle nature of prints makes it easy to overlook them The collection of essays included here were originally presented at the Twelfth Annual North American Print Conference held in 1981 in Syracuse New York Locally organized these conferences have been held during the last decade throughout the U S and Canada to further the study of the history of the pictorial graphic arts in North America Contributors include several leading historians of the graphic arts of nineteenth century America Their chapters bring to life and flesh out figures who were previously little more than names establish facts that correct long held erroneous assumptions introduce many prints of exceptional interest that have remained out of the public view for generations and provide a rich new context for many familiar images **Dutch Art** Sheila D. Muller,2013-07-04 An illustrated feast for the eye and intellect Dutch Art explores developments in art art history art criticism and cultural history of the Netherlands from the artists workshops for the Utrecht Dom in 1475 to the latest movements of the 1990s it is lavishly illustrated with 147 black and white photographs and 16 pages in full color More than 100 internationally recognized scholars museum professionals artists and art critics contributed signed essays to this monumental work including historians sociologists and literary historians **Library of Congress Subject Headings** Library of Congress. Cataloging Policy and Support Office,2004 **Downriver** Pennington, Estill Curtis,1991 **Burning Bright** Diana Dethloff,Caroline Elam,Tessa Murdoch,Kim Sloan,2015-09-11 This book celebrates the work and career of the internationally renowned art historian David Bindman on the occasion of his 75th birthday and is above all a tribute to him from his former students and colleagues **Burton's Modern photography** William Kinnimond Burton,1887 *Wilson's Photographic Magazine* ,1910 **Photography** ,1896 **Catalogues of Items for Sale by Auction by Mr. Evans, 1810-1840** ,1810

Portraiture In Prints Book Review: Unveiling the Magic of Language

In a digital era where connections and knowledge reign supreme, the enchanting power of language has become more apparent than ever. Its power to stir emotions, provoke thought, and instigate transformation is actually remarkable. This extraordinary book, aptly titled "**Portraiture In Prints**," written by a very acclaimed author, immerses readers in a captivating exploration of the significance of language and its profound impact on our existence. Throughout this critique, we shall delve into the book's central themes, evaluate its unique writing style, and assess its overall influence on its readership.
