Disaster Movies Stephen Keane, 2006 Through detailed analysis of films such as *The Towering Inferno* *Independence Day* *Titanic* and *The Day After Tomorrow* this book looks at the ways in which disaster movies can be read in relation to both contextual considerations and the increasing commercial demands of contemporary Hollywood Featuring new material on cinematic representations of disaster in the

wake of 9 11 and how we might regard disaster movies in light of recent natural disasters the volume explores the continual reworking of this previously undervalued genre **Washed in Blood** Claire Sisco King,2011-11-25 Will Smith in I Am Legend Leonardo DiCaprio in Titanic Charlton Heston in just about everything Viewers of Hollywood action films are no doubt familiar with the sacrificial victim hero the male protagonist who nobly gives up his life so that others may be saved Washed in Blood argues that such sacrificial films are especially prominent in eras when the nation and American manhood is thought to be in crisis The sacrificial victim hero continually imperiled and frequently exhibiting classic symptoms of post traumatic stress disorder thus bears the trauma of the nation Claire Sisco King offers an in depth study of three prominent cycles of Hollywood films that follow the sacrificial narrative the early to mid 1970s the mid to late 1990s and the mid to late 2000s From Vietnam era disaster movies to post 9 11 apocalyptic thrillers she examines how each film represents traumatized American masculinity and national identity What she uncovers is a cinematic tendency to position straight white men as America s most valuable citizens and its noblest victims The Apocalypse in Film Karen A. Ritzenhoff,Angela Krewani,2015-12-30 We live in a world at risk Dire predictions about our future or the demise of planet earth persist Even fictional representations depict narratives of decay and the end of a commonly shared social reality Along with recurring Hollywood blockbusters that imagine the end of the world there has been a new wave of zombie features as well as independent films that offer various visions of the future The Apocalypse in Film Dystopias Disasters and Other Visions about the End of the World offers an overview of Armageddon in film from the silent era to the present This collection of essays discusses how such films reflect social anxieties ones that are linked to economic ecological and cultural factors Featuring a broad spectrum of international scholars specializing in different historical genres and methodologies these essays look at a number of films including the silent classic The Four Horsemen of the Apocalypse the black comedy Dr Strangelove or How I Learned to Stop Worrying and Love the Bomb the Mayan calendar disaster epic 2012 and in particular Lars Von Trier s Melancholia the focus of several essays As some filmmakers translate the anxiety about a changing global climate and geo political relations into visions of the apocalypse others articulate worries about the planet s future by depicting chemical warfare environmental disasters or human made destruction This book analyzes the emergence of apocalyptic and dystopic narratives and explores the political and social situations on which these films are based Contributing to the dialogue on dystopic culture in war and peace The Apocalypse in Film will be of interest to scholars in film and media studies border studies gender studies sociology and political science *101 Thought-Provoking Films* Bob Navarro,2019-06-08 Films are entertainment that create an escape from our ordinary reality Many of these films are thought provoking especially when they address possibilities that may come true in the future **New York Magazine** ,1974-05-06 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country With award winning writing and photography covering everything from politics and

food to theater and fashion the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea American Films of the 70s Peter Lev, 2010-01-01 While the anti establishment rebels of 1969's Easy Rider were morphing into the nostalgic yuppies of 1983's The Big Chill Seventies movies brought us everything from killer sharks blaxploitation and disco musicals to a loving look at General George S Patton Indeed as Peter Lev persuasively argues in this book the films of the 1970s constitute a kind of conversation about what American society is and should be open diverse and egalitarian or stubbornly resistant to change Examining forty films thematically Lev explores the conflicting visions presented in films with the following kinds of subject matter Hippies Easy Rider Alice's Restaurant Cops The French Connection Dirty Harry Disasters and conspiracies Jaws Chinatown End of the Sixties Nashville The Big Chill Art Sex and Hollywood Last Tango in Paris Teens American Graffiti Animal House War Patton Apocalypse Now African Americans Shaft Superfly Feminisms An Unmarried Woman The China Syndrome Future visions Star Wars Blade Runner As accessible to ordinary moviegoers as to film scholars Lev's book is an essential companion to these familiar well loved movies **Where Did It All Go Right?** Andrew Collins, 2008-09-04 Andrew Collins was born 37 years ago in Northampton His parents never split up in fact they rarely exchanged a cross word No one abused him Nobody died He got on well with his brother and sister and none of his friends drowned in a canal He has never stayed overnight in a hospital and has no emotional scars from his upbringing except a slight lingering resentment that Anita Barker once mocked the stabilisers on his bike Where Did It All Go Right is a jealous memoir written by someone who occasionally wishes life had dealt him a few more juicy marketable blows The author delves back into his first 18 years in search of something anything that might have left him deeply and irreparably damaged With tales of bikes telly sweets good health domestic harmony and happy holidays Andrew aims to bring a little hope to all those out there living with the emotional after effects of a really nice childhood Andrew Collins kept a diary from the age of five so he really can remember what he had for tea everyday and what he did at school excerpts from his diary run throughout the book and it is this detail which makes his story so compelling Explaining Risk Analysis Michael Greenberg, 2016-09-13 Risk analysis is not a narrowly defined set of applications Rather it is widely used to assess and manage a plethora of hazards that threaten dire implications However too few people actually understand what risk analysis can help us accomplish and even among experts knowledge is often limited to one or two applications Explaining Risk Analysis frames risk analysis as a holistic planning process aimed at making better risk informed decisions and emphasizing the connections between the parts This framework requires an understanding of basic terms including explanations of why there is no universal agreement about what risk means much less risk assessment risk management and risk analysis Drawing on a wide range of case studies the book illustrates the ways in which risk analysis can help lead to better decisions in a variety of scenarios including the destruction of chemical weapons management of nuclear waste and the response to passenger rail threats The book demonstrates how

the risk analysis process and the data models and processes used in risk analysis will clarify rather than obfuscate decision makers options This book will be of great interest to students and scholars of risk assessment risk management public health environmental science environmental economics and environmental psychology **Are We Living in a Disaster Movie?** Brian A. Shaer, 2022-08-18 Some periods of history contain so many compounded disasters they seem to be inspired by disaster movies In the early 2020s the Covid 19 pandemic upended the world and thrust populations into a state of uncertainty and fear as seen in movies like Outbreak The Towering Inferno or Armageddon Birtched from the author s original research on disaster movies this book argues that the life cycle of Covid closely parallels various apocalyptic films from the personas of the main players to the strike of the cataclysm itself To view the Covid pandemic through the language of disaster movies the book identifies those that mirror predict each stage of the Covid pandemic analyzing the similarities between the films and real life events A filmography of the featured disaster movies concludes the book **The 1970s** Kelly Boyer Sagert, 2007-01-30 Few conventions were left unchallenged in the 1970s as Americans witnessed a decade of sweeping social cultural economic and political upheavals The fresh anguish of the Vietnam War the disillusionment of Watergate the recession and the oil embargo all contributed to an era of social movements political mistrust and not surprisingly rich cultural diversity It was the Me Decade a reaction against 60s radicalism reflected in fashion film the arts and music Songs of the Ramones the Sex Pistols and Patti Smith brought the aggressive punk rock music into the mainstream introducing teenagers to rebellious punk fashions It was also the decade of disco Who can forget the image of John Travolta as Tony Manero in Saturday Night Fever decked out in a three piece white leisure suit with his shirt collar open his hand points towards the heavens as the lighted disco floor glares defiantly below him While the turbulent decade ushered in Ms magazine Mood rings Studio 54 Stephen King horror novels and granola it was also the decade in which over 25 million video game systems made their way into our homes allowing Asteroids and Pac Man games to be played out on televisions in living rooms throughout the country Whether it was the boom of environmentalism or the bust of the Nixon administration and public life as we knew it the era represented a profound shift in American society and culture *Hollywood in San Francisco* Joshua Gleich, 2018-11-14 One of the country s most picturesque cities and conveniently located just a few hours drive from Hollywood San Francisco became the most frequently and extensively filmed American city beyond the production hubs of Los Angeles and New York in the three decades after World War II During those years the cinematic image of the city morphed from the dreamy beauty of Vertigo to the nightmarish wasteland of Dirty Harry although San Francisco itself experienced no such decline This intriguing disconnect gives impetus to Hollywood in San Francisco the most comprehensive study to date of Hollywood s move from studio to location production in the postwar era In this thirty year history of feature filmmaking in San Francisco Joshua Gleich tracks a sea change in Hollywood production practices as location shooting overtook studio based filming as the dominant production method by the early 1970s He shows how this transformation

intersected with a precipitous decline in public perceptions of the American city to which filmmakers responded by developing a stark realist aesthetic that suited America's growing urban pessimism and superseded a fidelity to local realities. Analyzing major films set in San Francisco ranging from *Dark Passage* and *Vertigo* to *The Conversation*, *The Towering Inferno* and *Bullitt* as well as the TV show *The Streets of San Francisco*, Gleich demonstrates that the city is a physical environment used to stage urban fantasies that reveal far more about Hollywood filmmaking and American culture than they do about San Francisco.

Gene Hackman Peter Shelley, 2018-11-30 Gene Hackman b 1930 has been described as the best actor of his generation. During almost half a century as an American film, television and stage actor, film producer and author, he was nominated for five Academy Awards, winning the Best Actor for *The French Connection* 1971 and the Best Supporting Actor for *Unforgiven* 1992, as well as three Golden Globes and two BAFTAs. This study examines his film work in detail with a filmography; videography included.

American Disaster Movies of the 1970s Scott Freer, 2023-10-19 *American Disaster Movies of the 1970s* is the first scholarly book dedicated to the disaster cycle that dominated American cinema and television in the 1970s. Through examining films such as *Airport* 1970, *The Poseidon Adventure* 1972, *Two Minute Warning* 1976 and *The Swarm* 1978 alongside their historical contexts and American contemporaneous trends, the disaster cycle is treated as a time-bound phenomenon. This book further contextualises the cycle by drawing on the longer cultural history of modernist reactions to modern anxieties, including the widespread dependence on technology and corporate power. Each chapter considers cinematic precursors such as the ark movie and contemporaneous trends such as New Hollywood vigilante and blaxploitation films as well as the immediate American context: the end of the civil rights and countercultural era, the Watergate crisis and the defeat in Vietnam. As Scott Freer argues, the disaster movie is a modern demotic form of tragedy that satisfies a taste for the macabre. It is also an aesthetic means for processing painful truths, and many of the dramatized themes anticipate present-day monstrosities of modernity.

The Disaster Film as Social Practice Joseph Zornado, Sara Reilly, 2024-07-26 Surveying disaster films from a Lacanian psychoanalytic perspective, this book explores the disaster film genre from its initial appearance in 1933's *The Grapes of Wrath* to its present-day form in *Don't Look Up* 2021, laying bare the ideological unconscious at work within the genre. *The Disaster Film as Social Practice* examines environmental science history, film and literature in its interdisciplinary analysis of the disaster film genre. It explores the interplay and the dichotomy of restorative and reflective disaster narratives. An analysis of cinema's role in symbolizing and managing collective anxiety around disaster and death narratives examines how disaster films, through their narrative structures and symbolic elements, contribute to the public's understanding and emotional processing of real-world threats and how cinematic narratives shape and are shaped by public and private ideological discourses reflecting deeper psychological and environmental truths. Finally, the book offers an overview of how the transformation of the disaster film genre over time tells a history through imagining the worst. Providing a nuanced understanding of the disaster film genre and its significance in

contemporary culture and thought this book will be of interest to scholars and students of film studies cultural studies media studies and environmental studies *The Golden Age of Disaster Cinema* Nik Havert,2019-05-10 From the 1950s through the 1970s disaster movies were a wildly popular genre Audiences thrilled at the spectacle of these films many of which were considered glamorous for their time Derided by critics they became box office hits and cult classics inspiring filmmakers around the globe Some of them launched the careers of producers directors and actors who would go on to create some of Hollywood's biggest blockbusters With more than 40 interviews with actors actresses producers stuntmen special effects artists and others this book covers the Golden Age of sinking ships burning buildings massive earthquakes viral pandemics and outbreaks of animal madness *Oscar's Favorite Actors* Roger Leslie,2017-07-07 Just as the Academy Awards have an impact upon stars and their careers their filmic achievements influence the Academy and contribute to the rich history of the Oscars Upset wins jarring losses and glaring oversights have helped define the careers of Hollywood icons while unknown actors have proven that timing sometimes beats notoriety or even talent With detailed discussion of their performances and Awards night results this book describes how 108 actors earned the Academy's favor and how 129 others were overlooked
