Poser Pour Le Public:

Accounting for Culture Caroline Andrew, 2005-03-30 Many scholars practitioners and policy makers in the cultural sector argue that Canadian cultural policy is at a crossroads that the environment for cultural policy making has evolved substantially and that traditional rationales for state intervention no longer apply The concept of cultural citizenship is a relative newcomer to the cultural policy landscape and offers a potentially compelling alternative rationale for government intervention in the cultural sector Likewise the articulation and use of cultural indicators and of governance concepts are also new arrivals emerging as potentially powerful tools for policy and program development Accounting for Culture is a unique collection of essays from leading Canadian and international scholars that critically examines cultural citizenship cultural indicators and governance in the context of evolving cultural practices and cultural policy making It will be of great interest to scholars of cultural policy communications cultural studies and public administration alike Elements de droit public et administratif, ou Exposition methodique des principes du droit public positif precedes de la constitution du 14 Janvier 1852 ... affaires sociales mais pour valuer les conditions de l'organisation du débat public national ayant pris par une réforme dans ce domaine. Telle est la tâche qui a été confiée à l'OPECST par l'article L 1412-11 du code de la santé publique, article 46 de la loi du 7 juillet 2011 relative à la bioéthique. Tout projet de réforme sur les problèmes éthiques et les questions de société soulevés par les progrès de la connaissance dans les domaines de la biologie, de la médecine et de la santé doit être précédé d'un débat public sous forme de débats généraux. Ceux-ci sont organisés à l'initiative du Comité consultatif national d'éthique pour les sciences de la vie et de la santé après consultation des commissions parlementaires permanentes compétentes et de l'Office parlementaire d'évaluation des choix scientifiques et technologiques. La suite du débat public le comité tablit un rapport qu'il présente devant l'Office parlementaire d'évaluation des choix scientifiques et technologiques qui procède de son évaluation. Le présent rapport après avoir confirmé que les conditions de la saisine étaient remplies rappelle l'esprit dans lequel le législateur a voulu que l'évaluation soit conduite avant de débattre les pistes qui ont été examinées pour tenir compte des enseignements du débat public considéré. Ces réflexions aboutissent des propositions d'amendements dans la perspective du prochain examen prévu à partir du 10 mars 2015 de la proposition de loi de MM Alain Claeys et Jean Leonetti créant de nouveaux droits en faveur des malades et des personnes en fin de vie.

The Provincial Statutes of Lower-Canada Québec (Province), 1795 **User, observer, programmer et fabriquer l'espace public** Jean-Yves Toussaint, Monique Zimmermann, 2001-01-01. Les connaissances portant sur la pratique d'aménagement des espaces publics se focalisent souvent soit sur celle des habitants soit sur les pratiques de programmation formelle et technique. En mettant en relation ces divers éléments, cet ouvrage collectif veut contribuer à l'amélioration des connaissances sur la programmation et l'usage des espaces publics. La valorisation scientifique de la pratique d'aménagement originale de Lyon permet d'aborder l'embranchement de ces diverses connaissances et de comprendre comment il oriente la fabrication des espaces publics, place faite aux habitants, modes de programmation et de décision, formalisations architecturales et techniques. Le recours au concept d'espace public conduit en outre à privilégier la multiplication des points de vue et l'association de compétences hétérogènes. L'élaboration de cet objet, la fois politique, économique, sociale, technique et organisationnelle. Ouvrage inédit de synthèse qui ne cherche pas dissimuler l'hétérogénéité de la question. Ce livre comporte un important état des lieux bibliographiques rendant compte de cet étatement des connaissances. Cet ouvrage s'adresse aux étudiants, professeurs, chercheurs et praticiens en aménagement, urbanisme, paysagisme, sociologie urbaine, génie civil, architecture, ainsi qu'aux responsables politiques de l'aménagement et de planification locaux.
