A Practical Guide

Positional Sacrifices

Ivan Sokolov

Positional Sacrifices:

Positional Sacrifices Neil McDonald,1994 Most competitive players are very familiar with the idea of a sacrificial checkmating attack but the positional sacrifice has been strangely neglected By means of a subtle positional sacrifice a player can sometimes fundamentally alter the course of a game in his or her favor In this instructive and entertaining book International Master Neil McDonald demonstrates just how effective well executed positional sacrifices are Topics covered include sacrifices to open lines for the pieces sacrifices as a defensive weapon the exchange sacrifice the psychology of sacrifice and much more

Mastering Positional Sacrifices Merijn van Delft,2020-06-25 Most chess games of beginners and post beginners are decided by fairly straightforward tactics Anyone who wants to progress beyond this level and become a strong club player or a candidate master needs to understand that somewhat mysterious looking resource the positional sacrifice International Master Merijn van Delft has studied and loved positional sacrifices for as long as he can remember This non forcing tool is not just a surprising and highly effective way of creating a decisive advantage during a game Positional sacrifices are also instruments of superior beauty Van Delft has created a unique thematic structure for all types of positional sacrifices He shows the early historical examples explains which long term goals are typical for each fundamental theme and presents lots of instructive modern examples He then concentrates on those sacrifices that have become standard features of positional play Solving the exercises he has added will further enhance your skills Playing a positional sacrifice will always require courage Merijn van Delft takes you by the hand and not only teaches the essential technical know how he also helps you to recognize the opportunities when to take the plunge Mastering Positional Sacrifices is bound to become a modern day classic

The Art of Sacrifice in Chess Rudolf Spielmann,2012-03-08 The beauty of a game of chess is usually appraised and with good reason according to the sacrifices it contains On principle we incline to rate a sacrificial game more highly than a positional game Instinctively we place the moral value above the scientific We honor Capablanca but our hearts beat higher when Morphy s name is mentioned Introduction Perhaps the strongest Austrian born grandmaster of the20th century Rudolf Spielmann 1883 1942 defeated such world class opponents as Nimzovich Tartakower Bogoljubov and even the great Capablanca Among the reasons for his success was his mastery of the art of sacrifice In this ground breaking classic distilled from 40 years of tournament play he outlines the hard won lessons that enable a player to win games by giving up pieces Drawing on dozens of his own games against such topflight players as Schlechter Tartakower Bogoljubov Reti Rubinstein and Tarrasch Spielmann describes and analysis various type of sacrifices positional for gain mating and real sacrifices for development obstructive preventive line clearance vacating deflecting and more The result was the first systematic attempt to explain and exploit the theory of chess sacrifice it remains an extremely helpful and useful weapon in the arsenal of chess players at every level
