**Education Is Discipleship: So Who's Really Discipling Your Kids?** Dr. Christy Anderson,2016-06-05 This book demonstrates how and why biblical discipleship has been abandoned by a significant majority of Christian parents and church leaders A catastrophic failure to fulfill the Great Commission to make disciples who can effectively pass on the Good News sound doctrine and a biblical worldview to future generations is the result The adoption of secular philosophies of education age segregation the creation of adolescence the formation of youth ministry the adoption of a teen subculture and a fundamental rejection of practical aspects of the doctrine of sola Scriptura are at the heart of the problem Warnings from Christians who wrote on this topic over the past 150 years have now become a manifest reality with devastating results The only way to overcome this discipleship cataclysm is to go back to a biblical philosophy of education both in the home and in the church

**The Palgrave Handbook of Christianity in Africa from Apostolic Times to the Present** Andrew Eugene Barnes,Toyin Falola,2024-03-07 This comprehensive Handbook provides chapter length surveys of the history of Christian missions and Christian churches on the African continent since the time of Christ Africa is rapidly becoming the most Christianized region of the world While common narratives about Christianity tend to present Christianity as a set of ideas and beliefs imposed on Africa from the outside such narratives hold little meaning for African Christians or for those seeking to understand Christianity in Africa as an indigenous faith The aim of the Handbook is to propose a set of scholarly starting points for a new set of narratives The chapters collected here communicate an idea of Christianity as it has been embraced among African peoples at particular historical moments It therefore grants voice to the various strands of

African Christianity on their own terms and offers scholarly study of what these voices teach us about how the world's most adhered to religion is practiced and understood on the continent of Africa

*The Faces of Authoritarianism and Strategies of Dissent in Contemporary Brazil* Andreza Aruska de Souza Santos, Katerina Hatzikidi, 2025-05-15 Rather than looking back into Brazil's authoritarian past the Bolsonaro administration 2019-2022 provides an

innovative case study through which to explore Brazil's manifold and recurring expressions of authoritarianism. This book investigates the ways that authoritarianism most recently emerged and how it was confronted and in doing so the varied ways and spaces in which struggles over the meaning and practice of democracy that took place during the period. *The Faces of Authoritarianism and Strategies of Dissent in Contemporary Brazil* examines repression and dissent efforts to dismantle democratic foundations alongside forms of contestation and resistance to authoritarianism. The chapters offer valuable theoretical and ethnographic insights from interdisciplinary perspectives into the complex realities that Brazilians experienced in the four years of Bolsonaro's presidency. The book is organised around four sections each addressing a core area where democracy as meaning and practice was contested, attacked and defended. This is shown not only between Bolsonaro's government and those who resisted it from within and outside the state but also between state and non-state actors and between public and private sectors allowing for a broad view of the country's polarised political landscape and the impact such struggles have had on civil society. Praise for *The Faces of Authoritarianism and Strategies of Dissent in Contemporary Brazil*: An extraordinary analysis of how Brazil's far right built cultural hegemony before seizing institutional power. It unpacks both the circumstances and the structures behind this rise and crucially shows that the battle is far from over. A vital lens on contemporary global politics. Gabriel Feltran, Centre for European Studies and Comparative Politics Sciences Po Paris. Bringing together diverse interdisciplinary perspectives, this book offers a timely exploration of Brazil's recent political experiences with authoritarianism and resistance, making it essential reading for those concerned with democracy's future in Brazil and beyond. Malu A. C. Gatto, UCL. A timely contribution that explores not only the rise of right-wing authoritarianism in Brazil but different forms of resistance that have emerged from efforts to push back. This is an important book that paints a sobering picture of how democracy is under threat in contemporary Brazil. Dr Jeff Garmany, University of Melbourne. [American Catholics in Transition](#) William V. D'Antonio, Michele Dillon, Mary L.

Gautier, 2013-05-09. *American Catholics in Transition* reports on five surveys carried out at six-year intervals over a period of 25 years from 1987 to 2011. The surveys are national probability samples of American Catholics age 18 and older, now including four generations of Catholics. Over these twenty-five years, the authors have found significant changes in Catholics' attitudes and behavior as well as many enduring trends in the explanation of Catholic identity. Generational change helps explain many of the differences. Many millennial Catholics continue to remain committed to and active in the Church, but there are some interesting patterns of difference within this generation. Hispanic Catholics are more likely than their non-Hispanic peers to emphasize social justice issues such as immigration reform and concern for the poor, and while Hispanic millennial women are the most committed to the Church, non-Hispanic millennial women are the least committed to Catholicism. In this fifth book in the series, the authors expand on the topics that were introduced in the first four editions. The authors are able to point to dramatic changes in and across generations and gender, especially regarding Catholic identity.
