Rules for Radical Christians Nelson R Foster,2019-10-04 This book is a brutal expose of religion s failure to keep and preserve our Godly American

culture and the unconventional answer to restore the cultural soul that is rightfully ours to maintain It exposes the history and spiritual influences behind the decline and the process Christians can follow to reverse that decline Liberals may claim that they are godless Atheists but the truth is they are following the doctrines of Lucifer and following a game plan taught by followers of Lucifer We are losing a spiritual battle by fighting with the tools of the flesh logic reason emotion science and the law We are bound to lose We need to learn the rules and methods that have been proven to work spiritually against a ruthless spiritual opponent Liberals know full well that they are fighting for the soul of our nation We need to realize that the soul they are fighting for is the complete corruption and loss of the Godly soul our founding fathers tried to establish for our nation It not only presents the problem but also provides the solution to our problem and the promise that the problem of ungodliness in our culture can be reversed Godliness can be restored We are also fighting for the soul of our nation It is NOT the same soul that the Liberals are trying to preserve They have corrupted our nation by deception We can restore the national soul they corrupted with the truth

Secrets of Good Living Brij Bhushan Goel, Are we actually living a life or are we just alive Good living means following a lifestyle that is full of fresh beliefs and ideas and one that includes the enthusiasm and the thrill to better what is already available to you We enter this world crying keep complaining throughout our lives and ultimately die in despair It is rightly said that we get just one life to live and so we should live it fully This book tries to help us to live that life It discusses the various obstacles we face in our lives and how to overcome them in the best way that we can We all live desiring big success and happiness But actually in order to achieve big happiness we often overlook countless chances of small happy moments This book teaches us to value such small and precious moments and to live them to the fullest Happy people do not necessarily possess everything they obtain happiness from whatever they have The main objective of this book is to enable every person to achieve success and happiness in their lives
