

SYMPOSIUM ON PROSPER WEIL, "TOWARDS RELATIVE NORMATIVITY IN INTERNATIONAL LAW?"

WHAT IS POSITIVISM TODAY?

Mélanie García-Salazar-Rivera*

This essay focuses on the understanding of positivism in Prosper Weil's time, its trajectory since, and how that trajectory reflects changes that have occurred in global society in the intervening years. The world to which Weil spoke is neither in scientific nor in political and cultural terms the same as ours. Key positivist notions, such as neutrality or Weil's critique of the ideal of the unity of the international community and of the invocation of higher moral values, appear to chain sound normative principles while letting loose real power. At any rate, Weil's ideas have not survived globalisation or the critical and historical turn taken in the discipline of international law. And yet "Towards Relative Normativity?" arguably owes its lasting significance to its grasp of the weight of the authority of law in international society.

It Was Never Neutral

"Towards Relative Normativity?" is a classic, and surprisingly modern in certain respects. But it is undeniable that the school of positivism to which Prosper Weil belonged has lost much of its once absolute authority in the discipline.¹ To mention one of several non-positivist studies on normativity, Karl-Heinz Ladeur's political analysis that a court charged with achieving a stable order will, ostensibly, be less flexible than (international) actors who pursue a particular right goes further towards explaining the volatility of today's international legal order than does Weil's abstract attack against relative normativity.² The current dynamic of international law, involving numerous international courts, organisations, and actors who not only interpret but also constantly develop law, is incommensurable with Weil's type of self-conscious and cognitive-state international positivism.

Moreover, the phenomenon of relative normativity is not new. Matthias Goldmann studies the way in which over centuries different expressions of relative normativity, such as *ius cogens*, obligations *erga omnes*, and myriad types of soft law, have been articulated; he concludes that "throughout the history of modern international law relative normativity has been the rule rather than the exception."³ In this constellation, Weil's piece vindicating spotless normativity appears almost like a unicorn offering an improbable remedy against the poisonous

* Adjunct Professor of International Law, University of Helsinki.

¹ For this argument, see Mélanie García-Salazar-Rivera, *Faith, Ritual and Rebellion in 21st Century (Political) International Law*, 26 *IJIL* 537 (2015); see also Mélanie García-Salazar-Rivera, *The Promise of Positivism in International Law* (2015).

² Karl-Heinz Ladeur, *Was bedeutet die "Normativität" des Rechts in der postmodernen Gesellschaft?*

³ Matthias Goldmann, *Relative Normativity*, in *Concepts from International Law* 740 (Jean d'Aspremont & Sachin Singh eds., 2019).
