

possibilities

remember as a child
when you'd walk amongst the trees
and you'd find a stick that held
so many possibilities

it could have been an arrow
and it could have been a sword
it could have been a telescope,
a microphone, an oar

it could have been a hook you used
to catch things from afar
and it could've been a catapult
that launched a shooting star

it could have been a flute that played
a song you knew so well
it could've been a wand
ready to cast a thousand spells

and now what if I told you
that the stick was all of these
because there lies a certain sense
of magic in the trees

a magic that reminds us
we are not too old to play
that helps us see the awe and wonder
wrapped in every day

see the forest is our playground
and the paths between the trees
are endless new beginnings
of adventures to be seized

so grab that stick and row to shore
then search the midnight sky
play your favourite tune
then cast a spell that makes you fly

catch a shooting star
then launch it back beyond the clouds
search for hidden gold
and mark an X upon the ground

remember how it feels to live
like you've nothing to lose
when just a simple stick
can be whatever you might choose

then seize those new beginnings
strewn across the forest floor
'cause adventure's out there waiting
so, what are you waiting for?

Linguistics Meets Literature Matthias Bauer, Sigrid Beck, Saskia Brockmann, Susanne Riecker, Angelika Zirker, Nadine Bade, 2020-06-08 Until recently collaborative efforts between formal linguistics and literary studies have been relatively sparse this book is an attempt to bridge this gap and add to the hitherto small pool of studies that combine the two disciplines Our study concentrates on Emily Dickinson s poetry since it displays a highly uncommon and therefore challenging use of language We argue this to be part of her poetic strategy and consider Dickinson an intuitive linguist her apparent non compliance with linguistic rules is a productive exploration of linguistic expression to reveal the flexibility and

potential of grammar leading to complex processes of interpretation Our study includes a number of in depth analyses of individual poems which combine formal linguistic methods and literary scholarship and focus on specific aspects such as ambiguity reference and presuppositions One of our findings concerns the dynamic interpretation of lyrical texts in which the pragmatic step of establishing what a poem means for the reader is postponed to text level We provide readers with a tool box of methods for the formal linguistic analysis not just of Emily Dickinson s poetry but of linguistically complex literary texts in general

Kierkegaard, Aesthetics, and Selfhood Peder Jothen,2016-04-22 In the digital world Kierkegaard s thought is valuable in thinking about aesthetics as a component of human development both including but moving beyond the religious context as its primary center of meaning Seeing human formation as interrelated with aesthetics makes art a vital dimension of human existence Contributing to the debate about Kierkegaard s conception of the aesthetic Kierkegaard Aesthetics and Selfhood argues that Kierkegaard s primary concern is to provocatively explore how a self becomes Christian with aesthetics being a vital dimension for such self formation At a broader level Peder Jothen also focuses on the role authority and meaning of aesthetic expression within religious thought generally and Christianity in particular

The Psychological Power of Language Sayyed Mohsen Fatemi,2018-07-11 This volume shows how the psychology and power of language can create realities It examines the psychological implications of language as a way of being and not just as an instrument of communication It discusses how a shift in language gives rise to an existential transformation and shows how creative modes of expression lead to a radical transformation of beings Throughout both the theoretical and practical implications of the psychological power of language are presented particularly how language may result in a healthier inter and intrapersonal world It will interest upper level students and researchers of language in Psychology Linguistics Philosophy and Education as well as professional counselors

Feldman,2019-08-05

At the intersection of literary theory philosophy of history and phenomenology *Arts of Connection* Poetry History Epochality explores the representation of connections between events in literary historical and philosophical narratives Events in a story can be seen as ordered according to proximate causation which leads diachronically from one event to the next and they can also be understood in view of the structure of the narrative as a whole for instance in terms of the unity of plot Feldman argues that there exists an essential narrative tension between these two kinds of connection i.e. between the overarching arrangement or plot that holds together events from outside as it were in order to produce an intelligible whole and the portrayal of one by one interstitial connections between events within the narrative *Arts of Connection* demonstrates by means of exemplary moments in Aristotle and classical German poetics eighteenth century philosophy of history and twentieth century phenomenology that the task of connection is a fraught one insofar as the formal unity of narrative competes or interferes with the representation of one by one connections between events and vice versa *Orpheus in the Bronx* Reginald Shepherd,2010-02-05

Orpheus in the Bronx not only extols the freedom language affords us it embodies that freedom enacting poetry's greatest gift the power to recognize ourselves as something other than what we are These bracing arguments were written by a poet who sings James Longenbach A highly acute writer scholar editor and critic Reginald Shepherd brings to his work the sensibilities of a classicist and a contemporary theorist an inheritor of the American high modernist canon and a poet drawing and playing on popular culture while simultaneously venturing into formal experimentation In the essays collected here Shepherd offers probing meditations unified by a resolute defense of poetry's autonomy and a celebration of the liberatory and utopian possibilities such autonomy offers Among the pieces included are an eloquent autobiographical essay setting out in the frankest terms the vicissitudes of a Bronx ghetto childhood the escape offered by books and gifted status preserved by maternal determination early loss and the equivalent of exile and the formation of the writer's vocation With the same frankness that he brings to autobiography Shepherd also sets out his reasons for rejecting identity politics in poetry as an unnecessary trammeling of literary imagination His study of the urban pastoral from Baudelaire through Eliot Crane and Gwendolyn Brooks to Shepherd's own work provides a fresh view of the place of urban landscape in American poetry Throughout his essays as in his poetry Shepherd juxtaposes unabashed lyricism

Secularism and Hermeneutics Yael Almog, 2019-05-13 In the late Enlightenment a new imperative began to inform theories of interpretation all literary texts should be read in the same way that we read the Bible However this assumption concealed a problem there was no coherent way to read the Bible in the same way In Secularism and Hermeneutics Yael Almog shows that several prominent thinkers of the era including Johann Gottfried Herder Moses Mendelssohn Immanuel Kant Georg Wilhelm Friedrich Hegel and Friedrich Daniel Ernst Schleiermacher constituted readers as an imaginary we around which they could form their theories and practices of interpretation This conception of interpreters as a universal community Almog argues established biblical readers as a coherent collective In the first part of the book Almog focuses on the 1760s through the 1780s and examines these writers' works on biblical Hebrew and their reliance on the conception of the Old Testament as a cultural rather than religious asset She reveals how the detachment of textual hermeneutics from confessional affiliation was stimulated by debates on the integration of Jews in Enlightenment Germany In order for the political community to cohere she contends certain religious practices were restricted to the private sphere while textual interpretation which previously belonged to religious contexts became the foundation of the public sphere As interpretive practices were secularized and taken to be universal they were meant to overcome religious difference Turning to literature and the early nineteenth century in the second part of the book Almog demonstrates the ways in which the new literary

genres of realism and lyric poetry disrupted these interpretive reading practices Literary techniques such as irony and intertextuality disturbed the notion of a stable universal reader's position and highlighted interpretation as grounded in religious belonging Secularism and Hermeneutics reveals the tension between textual exegesis and confessional belonging and challenges the modern presumption that interpretation is indifferent to religious concerns
