

A photograph of a beach at sunset. The sky is a gradient of orange and yellow. In the foreground, dark, jagged rocks are scattered along the shoreline. Waves are breaking against the rocks, creating white foam. The water is a deep blue-grey color.

see the past as it actually was?

**The Possible Past** Aislinn Hunter, 2004 Poet Aislinn Hunter asks What if our writers and artists scientists and revolutionaries had used other words or media told other stories developed alternative assumptions and conclusions In *The Possible Past* she finds tentative answers expressed in startling vivid imagery and dark musical rhythms The book's four sections Errors Inventions The Progress of History Public Records Local Histories and Field Notes speak of its sweep as Hunter's poetic meditation on memory moves magically from the local to the universal *Haunting History* Ethan Kleinberg, 2017-08-22 This book argues for a deconstructive approach to the practice and writing of history at a moment when available forms for writing and publishing history are undergoing radical transformation To do so it explores the legacy and impact of deconstruction on American historical work the current fetishization of lived experience materialism and the real new trends in philosophy of history and the persistence of ontological realism as the dominant mode of thought for conventional historians Arguing that this ontological realist mode of thinking is reinforced by current analog publishing practices Ethan Kleinberg advocates for a hauntological approach to history that follows the work of Jacques Derrida and embraces a past that is at once present and absent available and restricted rather than a fixed and static snapshot of a moment in time This polysemic understanding of the past as multiple and conflicting he maintains is what makes the deconstructive approach to the past particularly well suited to new digital forms of historical writing and presentation
