U.S. Foreign Policy after the Cold War Randall B. Ripley, James M. Lindsay, 2010-11-23. The cold war came to a grinding halt during the astounding developments of 1989-1991. The Berlin Wall fell, Eastern European countries freed themselves from Soviet domination and the Soviet Union itself disintegrated after witnessing a failed coup, presumably aimed at restoring a communist dictatorship. Suddenly the evil empire was no more and U S foreign policy was forever changed. This volume explores the revisions to a variety of bureaucratic institutions and policy areas in the wake of these political upheavals.

**US Military Strategy and the Cold War Endgame** Stephen J. Cimbala, 2014-01-14. At the end of the Cold War, security concerns are more about regional and civil conflicts than nuclear or Eurasian global wars. Stephen Cimbala argues that deterrence characteristics of the pre Cold War period will in the 21st century again become normative.

Nuclear Ethics in the Twenty-First Century Thomas E. Doyle, II, 2020-01-31. This book relates a complex ethical re-assessment of the continued reliance by some states on nuclear weapons as instruments of state power. This re-assessment is more urgent considering the relatively recent intensification of great power conflict dynamics and the nuclear weapon states' recommitments to modernizing, augmenting or tailoring their nuclear forces to address vital state and alliance interests. And especially since the beginning of the administration of U S President Donald J. Trump, these recommitments have accelerated the degree to which the political and moral dilemmas of the threat of nuclear use define and intensify existential risks for specific states and the international community at large. To execute this re-assessment, this book details how strategic, political, legal and moral reasoning are deeply intertwined on the questions of vital state and global values. Its ontological assumptions are taken from a broadly construed IR Constructivist stance and its

epistemological approach applies non ideal moral principles informed by Kantian thought to selected problems of nuclear armed security competition as they evolved since President Barack Obama s 2009 Prague Declaration This non ideal moral approach employed is committed to the view that the dual imperatives of humanity s survival and the common security of states requires an international order which privileges considerations of justice over power political considerations This non ideal moral approach is a necessary element of theorizing a set of practices to effectively address the challenges and dilemmas of reordering international politics in terms of justice **Superpowers in the Post-Cold War Era** K.

Subordinating Intelligence David P. Oakley,2019-03-15 In the late eighties and early nineties driven by the post Cold War environment and lessons learned during military operations United States policy makers made intelligence support to the military the Intelligence Community s top priority In response to this demand the CIA and DoD instituted policy and organizational changes that altered their relationship with one another While debates over the future of the Intelligence Community were occurring on Capitol Hill the CIA and DoD were expanding their relationship in peacekeeping and nation building operations in Somalia and the Balkans By the late 1990s some policy makers and national security professionals became concerned that intelligence support to military operations had gone too far In Subordinating Intelligence The DoD CIA Post Cold War Relationship David P Oakley reveals that despite these concerns no major changes to national intelligence or its priorities were implemented These concerns were forgotten after 9 11 as the United States fought two wars and policy makers increasingly focused on tactical and operational actions As policy makers became fixated with terrorism and the United States fought in Iraq and Afghanistan the CIA directed a significant amount of its resources toward global counterterrorism efforts and in support of military operations United States Post-Cold War Defence Interests K.
