Post Conflict Capabilities Independent Task Force Report:

U.S. Trade and Investment Policy Andrew H. Card, Edward H. Alden, Council on Foreign Relations, Matthew Jon Slaughter, 2011 From American master Ward Just returning to his trademark territory of Forgetfulness and The Weather in Berlin an evocative portrait of diplomacy and desire set against the backdrop of America's first lost war *Working With a Rising India* Charles R. Kaye, Joseph S. Nye Jr., Alyssa Ayres, 2015-11-01 India now matters to U.S. interests in virtually every dimension This CFR sponsored Independent Task Force report directed by Alyssa Ayres assesses the current situation in India and the U.S. India relationship and suggests a new model for partnership with a rising India U.S. Strategy for Pakistan and Afghanistan Richard Lee Armitage, Samuel R. Berger, Daniel Seth Markey, 2010 The Council on Foreign Relations sponsors Independent Task Forces to assess issues of current and critical importance to U.S. foreign policy and provide policymakers with concrete judgments and recommendations Diverse in backgrounds and perspectives Task Force members aim to reach a meaningful consensus on policy through private and non-partisan deliberations Once launched Task Forces are independent of CFR and solely responsible for the content of their reports Task Force members are asked to join a consensus signifying that they endorse the general policy thrust and judgments reached by the group though not necessarily every finding and recommendation Each Task Force member also has the option of putting forward an additional or a dissenting view Members affiliations are listed for identification purposes only and do not imply institutional endorsement Task Force observers participate in discussions but are not asked to join the consensus Book Jacket *North America* Council on Foreign Relations, 2014-10-01 This CFR sponsored Independent Task Force report North America Time for a New Focus asserts that elevating and prioritizing the U.S. Canada Mexico relationship offers the best opportunity for strengthening the United States and its place in the world U.S. Immigration Policy Council on Foreign Relations. Independent Task Force on U.S. Immigration Policy, Jeb Bush, Thomas F. McLarty, Edward H. Alden, 2009 The Council on Foreign Relations sponsors Independent Task Forces to assess issues of current and critical importance to U.S. foreign policy and provide policy makers with concrete judgments and recommendations Diverse in backgrounds and perspectives Task Force members aim to reach a meaningful consensus on policy through private and nonpartisan deliberations Once launched Task Forces are independent of CFR and solely responsible for the content of their reports Task Force members are asked to join a consensus signifying that they endorse the general policy thrust and judgments reached by the group though not necessarily every finding and recommendation Each Task Force member also has the option of putting forward an additional or dissenting view Members affiliations are listed for identification purposes only and do not imply institutional endorsement Task Force observers participate in discussions but are not asked to join the consensus Book jacket A Sharper Choice on North Korea Mike Mullen, Sam Nunn, Adam Mount, 2016-09-01 U.S. Education Reform and National Security Joel I. Klein, Condoleezza Rice, Julia Levy, 2014-05-14 The United States failure to educate its students leaves them unprepared to

compete and threatens the country's ability to thrive in a global economy and maintain its leadership role. This report notes that while the United States invests more in K-12 public education than many other developed countries, its students are ill-prepared to compete with their global peers. According to the results of the 2009 Program for International Student Assessment (PISA), an international assessment that measures the performance of 15-year-olds in reading, mathematics, and science every three years, U.S. students rank fourteenth in reading, twenty-fifth in math, and seventeenth in science compared to students in other industrialized countries. The lack of preparedness poses threats on five national security fronts: economic growth and competitiveness, physical safety, intellectual property, U.S. global awareness, and U.S. unity and cohesion, says the report. Too many young people are not employable in an increasingly high-skilled global economy and too many are not qualified to join the military because they are physically unfit, have criminal records, or have an inadequate level of education. The report proposes three overarching policy recommendations: implement educational expectations and assessments in subjects vital to protecting national security; make structural changes to provide students with good choices; and launch a national security readiness audit to hold schools and policymakers accountable for results and to raise public awareness.

U.S. Nuclear Weapons Policy William James Perry, Brent Scowcroft, Charles D. Ferguson, 2009. The report notes that in the near term, nuclear weapons will remain a fundamental element of U.S. national security. For this reason, it emphasizes the importance of maintaining a safe, secure, and reliable deterrent nuclear force and makes recommendations on this front. The report also offers measures to advance important goals such as preventing nuclear terrorism and bolstering the nuclear nonproliferation regime. Foreword. *Defending an Open, Global, Secure, and Resilient Internet*. Council on Foreign Relations, 2013-06-01. The CFR-sponsored Independent Task Force report *Defending an Open, Global, Secure, and Resilient Internet* finds that as more people and services become interconnected and dependent on the Internet, societies are becoming increasingly vulnerable to cyberattacks. To support security innovation, growth, and the free flow of information, the Task Force recommends that the United States and its partners work to build a cyber alliance, make the free flow of information a part of all future trade agreements, and articulate an inclusive and robust vision of Internet governance. U.S.-Turkey Relations Madeline Albright, Steven Cook, Stephen Hadley, Senior Fellow Steven A. Cook, 2012-05. Turkey is a rising regional and global power, facing as is the United States the challenges of political transitions in the Middle East, bloodshed in Syria, and Iran's pursuit of nuclear weapons. As a result, it is incumbent upon the leaders of the United States and Turkey to define a new partnership in order to make a strategic relationship a reality, says a new Council on Foreign Relations CFR-sponsored Independent Task Force. *The Emerging Global Health Crisis*. Council on Foreign Relations, 2014-12-01. Rates of heart disease, cancer, diabetes, and other noncommunicable diseases (NCDs) in low and middle income countries are increasing faster in younger people and with worse outcomes than in wealthier countries. In 2013 alone, NCDs killed eight million people before their sixtieth birthdays in developing countries. A new CFR-sponsored Independent Task Force report and

accompanying interactive look at the factors behind this epidemic and the ways the United States can best fight it **In the Wake of War**, 2005 Post-Conflict Studies Chip Gagnon, Keith Brown, 2014-07-11 This book examines how the violence of conflict is transformed in the post conflict period Post conflict studies seek to illuminate theorise and narrate the processes by which societies transition from periods of overt and violent conflict to periods of relative stability and peace Most of the research carried out on post conflict societies has taken place within disciplinary bounds In contrast this volume breaches those boundaries though each author is grounded in a particular discipline the chapters have been written in a spirit of interdisciplinarity The focus of the volume is how the violence of conflict is transformed in the post conflict period into processes that the editors have categorised as criminalisation medicalisation and missionisation Comprised of essays written by a diverse group of scholars and activists from anthropology political science international relations law education religion and military history each section of the book looks at the concept of post conflict in a way that problematises its common usage and highlights the importance of strongly interdisciplinary research into post conflict societies This book will be of interest to students of war and conflict studies peace studies security studies and IR in general **Arctic Imperatives** Thad W. Allen, Christine Todd Whitman, Esther Brimmer, Anya Schmemmann, 2017-03-01 *Global Brazil and U.S.-Brazil Relations* Council on Foreign Relations. Independent Task Force on Brazil, Samuel W. Bodman, Julia Sweig, James D. Wolfensohn, 2011 July 12 2011 Over the course of a generation Brazil has emerged as both a driver of growth in South America and as an active force in world politics A new Council on Foreign Relations CFR sponsored Independent Task Force report asserts that it is in the interest of the United States to understand Brazil as a complex international actor whose influence on the defining global issues of the day is only likely to increase Brazil currently ranks as the world's fifth largest landmass fifth largest population and expects to soon be ranked the fifth largest economy The report *Global Brazil and U.S. Brazil Relations* recommends that U.S. policymakers recognize Brazil's standing as a global actor treat its emergence as an opportunity for the United States and work with Brazil to develop complementary policies The Task Force is chaired by former secretary of energy Samuel W. Bodman and former president of the World Bank James D. Wolfensohn and directed by CFR Senior Fellow and Director for Latin America Studies and Director of the Global Brazil Initiative Julia E. Sweig Recognizing Brazil's global role the report recommends that the Obama administration now fully endorse the country's bid for a seat as a permanent member of the United Nations Security Council UNSC It argues that a formal endorsement from the United States for Brazil would go far to overcome lingering suspicion within the Brazilian government that the U.S. commitment to a mature relationship between equals is largely rhetorical Domestically Brazil's inclusive growth has translated into a significant reduction of inequality an expansion of the middle class and a vibrant economy all framed within a democratic context Consequently Brazil has been able to use its economic bona fides to leverage a stronger position in the international commercial and diplomatic arena The report stresses the importance of regular communication between the presidents of

both countries Cooperation between the United States and Brazil holds too much promise for miscommunication or inevitable disagreements to stand in the way of potential gains A mature working relationship means that the United States and Brazil can help each other advance mutual interests even without wholesale policy agreements between the two notes the report The Task Force further recommends that the U S Congress include an elimination of the ethanol tariff in any bill regarding reform to the ethanol and biofuel tax credit regime the United States take the first step to waive visa requirements for Brazilians by immediately reviewing Brazil s criteria for participation in the Visa Waiver Program the U S State Department create an Office for Brazilian Affairs and the National Security Council NSC centralize its efforts under a NSC director for Brazil in order to better coordinate the current decentralized U S policy The bipartisan Task Force includes thirty distinguished experts on Brazil who represent a range of perspectives and backgrounds The report includes a number of additional views by Task Force members including one that notes We believe that a more gradual approach regarding Brazil s inclusion as a full UNSC member would likely have more success in navigating the diplomatic complexities presented by U S support for Brazil Another view asserts If the United States supports as the Obama administration has said it does leadership structures in international institutions that are more reflective of international realities it must support without qualifications Brazil s candidacy for the UNSC

Contractors and War Christopher Kinsey, Malcolm Hugh

Patterson, 2012-07-25 The U S military is no longer based on a Cold War self sufficient model Today s armed forces are a third smaller than they were during the Cold War and yet are expected to do as much if not more than they did during those years As a result a transformation is occurring in the way the U S government expects the military to conduct operations with much of that transformation contingent on the use of contractors to deliver support to the armed forces during military campaigns and afterwards Contractors and War explains the reasons behind this transformation and evaluates how the private sector will shape and be shaped by future operations The authors are drawn from a range of policy legislative military legal and academic backgrounds They lay out the philosophical arguments supporting the use of contractors in combat and stabilization operations and present a spectrum of arguments that support and criticize emergent private sector roles The book provides fresh policy guidance to those who will research direct and carry out future deployments

Schmitz, 2011-03-16 As National Security Advisor to President Gerald Ford advisor to President Ronald Reagan and as National Security Advisor to President George H W Bush Brent Scowcroft was at the center of the ongoing debate over how to shape American foreign policy in the post war world As David F Schmitz makes clear in his new biography Scowcroft was a realist in his outlook on American foreign policy and an heir to the Cold War internationalism that had shaped that policy since 1945 During his most important service as George H W Bush s national security advisor Scowcroft sought to work with like minded Republicans and Democrats to construct a post Cold War foreign policy that would provide consistency and stability to American policymaking in a rapidly changing international environment defend the internationalist position from challenges and criticisms and buffer the conduct of diplomacy from the turbulence of domestic politics The type of bi partisan cooperation and internationalism that marked the pre Vietnam War years served as Scowcroft s guide to how to defend American interests and promote U S values and institutions globally While not always successful Scowcroft provided a consistent internationalist voice in the midst of change **Endgame in the Balkans** Elizabeth Pond, 2007-08-29 Can Europe tame the Balkans That s the question veteran journalist Elizabeth Pond addresses in this timely and absorbing book Starting with the wars of the Yugoslav succession Endgame in the Balkans guides readers through the region s tumultuous recent history and explores both how the lure of European Union EU membership has affected the Balkans and how Balkan developments have shaped the EU Drawing on hundreds of interviews as well as decades of experience as a foreign correspondent Pond moves deftly across the region from Bulgaria to Romania Kosovo Croatia Bosnia Macedonia Albania and Serbia and Montenegro She examines the many hurdles standing between these countries and EU membership including poverty corruption and rabid chauvinism as well as the hopes and problems that have led Balkan leaders to look to the West In the process she paints a vivid picture of the challenges facing the region as it seeks to vault from the nineteenth to the twenty first century Already in its brief history the European Union has forged a historic reconciliation between France and Germany and helped consolidate democracy in Portugal Spain and Greece But in southeastern Europe it faces one of its most difficult tasks yet En dgame in the Balkans reveals the full extent of this challenge as well as the grounds for hope Rich in detail and penetrating analysis this book will be essential reading for
