Soviet Regional Elite Mobility After Khrushchev William A. Clark, 1989-07-21 Clark's groundbreaking study covers the period in Soviet political history from the fall of Nikita Khrushchev in late 1964 through the spring of 1987 and examines the forces affecting regional elite mobility throughout the Soviet Union during these years Turning the explanatory focus away from the traditional areas of patronage

and clientelism Clark adopts a novel approach to the subject by concentrating on structural variables such as the economic social and demographic aspects of the regions themselves as key elements of an explanation for long term mobility trends In addition to his focus on non traditional variables the broad chronological scope of the study and the fact that all Soviet republics with equivalent party structures are examined make Clark s work especially valuable for graduate students and scholars of Soviet politics and government seeking a more general and inclusive explanation of regional elite mobility than has been available in previous studies of the subject The study is based on an exhaustive examination of the careers of over 275 Obkom regional party committees First Secretaries As a result of this analysis the 129 regional party structures of the USSR are ranked hierarchically with respect to political mobility Throughout the study Clark seeks to isolate non idiosyncratic variables to explain the significant variance in mobility opportunities offered by the various regional party units Thus rather than relying on the traditional personalistic variables Clark seeks to identify independent variables that have explanatory value throughout the Soviet system Finally Clark examines the effects of background characteristics and functional career types on elite mobility at the Obkom tier and analyzes changes in regional cadres policy after Brezhnev Six appendices provide additional information for the student and researcher

Nationalism In Uzbekistan James Critchlow,2018-03-09 Drawing from a wide range of Uzbek and Russian sources James Critchlow analyzes significant developments leading up to Uzbekistan s declaration of sovereignty and examines the outlook for the republic s emergence as an independent international player The author s primary focus is on the Uzbek elites attitudes and their efforts to throw off Moscow s hegemony by using popular grievances to mobilize mass support against the central Soviet government Critchlow traces local grievances to two roots The first is Uzbekistan s decades long economic exploitation by Moscow through the imposition of an intensive cotton monoculture the accumulated effects of which have been massive environmental degradation illness and death The second is the central government s failure to adequately compensate Uzbekistan for these hardships and for the republic s overall contribution to the Soviet economy while having further impoverished Uzbeks by limiting the range of their cultural and political expression Among the manifestations of Uzbek resistance explored here are protests against russification and compulsory military conscription persistent and open adherence to religious traditions and loyalty above all to local political ethnic and family ties which frequently has led Moscow to charge the republic s leadership with nepotism

and corruption Now that their campaign for sovereignty has triumphed will Uzbek leaders be able to solve the knotty political and economic problems their republic still faces The analysis offered here illuminates this question and suggests possible answers
