From around 1880 for almost a hundred years shipowners commissioned a wealth of paintings that depicted their magnificent liners as well as the routes they travelled their exotic destinations and life onboard These paintings rich in imagination and atmosphere appeared on postcards and posters of the day and were used to advertise the companies and their ships and so was born a whole genre that produced tens of thousands of paintings which formed a wonderful record of the great era of the passenger liner In 1900 there were over thirty shipping companies operating passenger liners across the North Atlantic Other oceans were similarly served But now with just a few exceptions the companies and their liners have disappeared along with the art they once inspired Little remains to recall this aspect of our maritime past except the postcards and they tell an evocative story of the vanished world of elegant ships and leisurely travel of social and political times much changed by the history of the past century Here brought vividly to life in more than 500 colourful postcards are the ships on which so many of our predecessors sailed as emigrants soldiers administrators or simply as tourists in days long past These cards which are now highly collectable show how steamships developed over the years but they are also a fine tribute to the artists who painted them This volume also includes a glossary of some 170 illustrators which forms an important reference section and advice on collecting Old Los Angeles and Pasadena in Vintage Postcards C. Tennessee State Parks Lori Jill Smith and Jane Banks Campbell,2017-02-20 The story of Tennessee s state parks began more than 80 years ago when New Deal agencies worked to

rebuild portions of Tennessee's eroded landscape. Along with these conservation measures, the state's early parks were created through the development of recreational areas. The Tennessee Valley Authority built dams that contributed to recreational attractions, and the Division of State Parks was started in 1937. All of these efforts, in addition to Tennessee's natural beauty, have resulted in 56 state parks. Through their postcard collections, the authors invite readers to discover each park's special place in Tennessee's history and landscape.

Diplomatic Games Heather L. Dichter, Andrew L. Johns, 2014-09-23. How events like the Olympics and World Cup have affected international relations. A significant contribution to historical knowledge and understanding. Peter J. Beck, author of *Scoring for Britain*. International sporting events, including the Olympic Games and the FIFA World Cup, have experienced profound growth in popularity and significance since the mid-twentieth century. Sports often facilitate diplomacy, revealing common interests across borders and uniting groups of people who are otherwise divided by history, ethnicity, or politics. In many countries, popular athletes have become diplomatic envoys. Sport is an arena in which international conflict and compromise find expression, yet the impact of sports on foreign relations has not been widely studied by scholars. In *Diplomatic Games*, a team of international scholars examines how the nexus of sports and foreign relations has driven political and cultural change since 1945, demonstrating how governments have used athletic competition to maintain and strengthen alliances, promote policies, and increase national prestige. The contributors investigate topics such as China's use of sports to oppose Western imperialism, the ways in which sports helped bring an end to apartheid in South Africa, and the impact of the United States 1980 Olympic boycott on US-Soviet relations. Bringing together innovative scholarship from around the globe, this groundbreaking collection makes a compelling case for the use of sport as a lens through which to view international relations.
