Methuselah's Hidden Antediluvian Abridgement James Hendershot, 2014-10-14 Too much of humanity's history might have been lost through the great flood which mercifully rendered humankind another chance to dwell on the Earth. This fictional account through Methuselah begins with the creation of the two Earths and follows Adam through his multiple wives torn by sons who murder each other. His remaining sons divide into tribes separated by their relationship with the creator. Nonetheless, wickedness rose in Seth's tribe while righteousness comes forth from Cain's seed. Eve rewards Irad after he avenges the murder of his mother who was a favored stepdaughter of Eve. Eve rewards Irad with three of her cherished daughters. They launch a new homeland beyond the two established borders and through their faith in the God of Adam find favor with the Ancient One who reestablishes his covenant with a descendant of Habil. Cain, Lilith, and several of her daughters' bond with Duci, one of Irad's wives, exploring the wild, unsettled bulk of Pangaea's lands beyond the invisible border which protects humanity from the hungry dinosaurs living in the open wilderness. Duci, with help from the Nephilim, build the foundations for their two new cities and multiple temples. Irad's tribe sails on secret ships to the southern hemisphere and build a Holy nation serving the Ancient One. Enoch settles his small family on a mountaintop protected by angels as humanity falls into the final stage of wickedness. Irad and his wives end their long fruitful lives; nevertheless, they watch from heaven as the vast majority of their family chose to follow their own gods and disown the Ancient One. Just three young men who must sail to a distant island with their wives remain servants of the Ancient One. Noah builds a giant rectangle ship, boarding his sons and many wild animals, saving them through a large flood. Avram sails through the flood with his small group while watching death consume the lands.

Otherworlds Federico Campagna, 2025-06-26 What can survive the end of the world? In *Otherworlds*, philosopher Federico Campagna constructs extraordinary stories and alternative histories of the Mediterranean nexus of migrations and odysseys, ruins and romances, to depict a world in which the imagination is the only engine of survival. Chapter by chapter, Campagna chronicles the existential challenges posed by history and the inventive and radical responses of people facing the ruin of their world. From the earliest myths with which the inhabitants of the kingdoms around the Mediterranean constructed a shared social reality, the stories of the Mediterranean are dominated by cataclysm.

and collapse in which fugitive fragments become the building blocks of resilience and renewal Alexander the Great's cataclysmic conquests seed a cycle of existential romances pagan philosophers fleeing the fall of Rome give rise to new visions of reality translators across the Islamic world Iberia and Italy use stories to bridge the gap between cultures at war and pirates slaves renegades and publishers expand the imaginative horizons of human possibility through modernity and beyond In Campagna's lyrical novel and expansive work part history part philosophy part love letter to a heritage of seasonal migration and searches for belonging the challenges of disintegration and destruction are time and again met with the creation of new and radical realities As rich and various as the philosophy myths literature and art of the Mediterranean itself *Otherworlds* traces the tales of these attempts to reinvent the world and reveals how at the most dramatic and decisive junctures of Mediterranean history it was the ability to set sail for these other worlds which prevailed *Birth of a Nation* J. L. Rose, 2011-05-04 In order to understand the dynamics of religion covert politics it is imperative that one understands the origin purpose and or intent of the same Human behavior when left unchecked results in a variety of cultures religions that rule our everyday affairs which is the central theme of this book This book goes into the origin evolution of the human race and the reason for its negative tendencies Our behavior is the product of our thinking though to some degree our being can be attributed to our environment If our anatomy is not properly evolved developed the same will affect our psychology remember our brain receives its nourishment from our blood Over the years there has been speculations as to origin of man and his religion politics The content of this book will lay to rest some of the ignorance brought about by contemporary culture religion an ever present ignorance One must always bear in mind that all religions only seek to glorify and glamorize the culture and nature of its creators and protractors The so called New Testament is only a tool used by the wealth robbers to justify the New World Order the critical thinkers must therefore guard themselves and their progeny against this political religious machine that once rolling is unrelenting in its pursuit for wealth and power Every war ever visited by the human race has been stimulated by the afore mentioned greed You reader will also see a comparative analysis of the original Egyptian language and the so called English Roman Arabic and many of the worlds dominating languages *Sethian Gnosticism and the Platonic Tradition* John Douglas Turner, 2001 [The Nag Hammadi Library in English](#) James James McConkey Robinson, Richard Smith, Coptic Gnostic Library Project, 1996-01-01 First published in 1978 The Nag Hammadi Library was widely acclaimed by critics and scholars alike Containing many of the writings of the Gnostics since the time of Christ this was the work that launched modern Gnostic studies and exposed a movement whose teachings are in many ways as relevant today as they were sixteen centuries ago Although some of the texts had appeared in other translations the 1978 edition was the first and only translation of these ancient and fascinating manuscripts to appear in one volume This new edition is the result of ten years of additional research and editorial and critical work Every translation has been changed or added to many have been thoroughly revised Unearthed in 1945 near the town of Nag Hammadi in Upper Egypt the texts

literally begin where the Dead Sea Scrolls end Their discovery is seen as equally significant bringing to light a long hidden well of new information sources and insights into early Judaism and the roots of Christianity Each text is accompanied by a new and expanded introduction Also included are a revised general introduction and an afterword discussing the modern relevance of Gnosticism from Voltaire and Blake through Melville and Yeats to Jack Kerouac and science fiction writer Philip K Dick The translations and introductions to the Nag Hammadi texts are by members of the Coptic Gnostic Library Project which includes such scholars as Helmut Koester George McRae and Elaine Pagels **The Light and the Dark: Gnostic dualism in asia minor during the first centuries A.D** Petrus Franciscus Maria Fontaine,1993
