A. W. Rhodes, 2011-04-21 As citizens why do we care about the everyday life of ministers and civil servants We care because the decisions of the great and the good affect all our lives for good or ill For all their personal political and policy failings and foibles they make a difference So we want to know what ministers and bureaucrats do why and how We are interested in their beliefs and practices In his fascinating piece of political anthropology Rod Rhodes uncovers exactly how the British political elite thinks and acts Drawing on unprecedented access to ministers and senior civil servants in three government departments he answers a simple question what do they do On the basis of extensive fieldwork supplemented by revealing interviews he tries to capture the essence of their everyday life He describes the ministers and permanent secretaries world through their own eyes and explores how their beliefs and practices serve to create meaning in

politics policy making and public service delivery He goes on to analyze how such beliefs and practices are embedded in traditions in webs of protocols rituals and languages The story he has to tell is dramatized through in depth accounts of specific events to show ministers and civil servants in action He challenges the conventional constitutional institutional and managerial views of British governance Instead he describes a storytelling political administrative elite with beliefs and practices rooted in the Westminster model which uses protocols and rituals to domesticate rude surprises and cope with recurrent dilemmas

Popular Music And Television In Britain Ian Inglis,2016-04-22 Listening to popular music and watching television have become the two most common activities for postwar generations in Britain From the experiences of programmes like Oh Boy and Juke Box Jury to the introduction of 24 hour music video channels the number and variety of television outputs that consistently make use of popular music and the importance of the small screen as a principal point of contact between audiences and performers are familiar components of contemporary media operation Yet there have been few attempts to examine the two activities in tandem to chart their parallel evolution to explore the associations that unite them or to consider the increasingly frequent ways in which the production and consumption of TV and music are linked in theory and in practice This volume provides an invaluable critical analysis of these and other topics in newly written contributions from some of Britain's leading scholars in the disciplines of television and or popular music studies Through a concentration on four main areas in which TV organises and presents popular music history and heritage performers and performances comedy and drama audiences and territories the book investigates a diverse range of musical genres and styles factual and fictional programming historical and geographical demographics and the constraints of commerce and technology to provide the first systematic account of the place of popular music on British television

All in the Best Possible Taste Tom Bromley,2010-08-19 Television past as LP Hartley might have once said is another country And in the early 1980s it certainly was a different beast There were still only three channels to watch the evening's programmes finished with the playing of the national anthem and the

biggest prize on TV was not Chris Tarrant's million pounds but a speedboat on Bullseye. But as Tom Bromley suggests in this funny and warming memoir all that was about to change. The 1980s saw the end of the original golden era of television and the beginnings of TV as we know it today. In 1982 Channel 4 became the first new terrestrial channel for almost twenty years and by the end of the decade Rupert Murdoch's Sky Television was vying to become Britain's first multi-channel provider. The result of all this was that slowly but surely British viewers had more choice than ever before and the cost of this choice was the erosion of television as a shared national event. And no one felt this change more deeply than Tom Bromley. Television played a large part in Tom's childhood. His first word was two as in BBC Two and his earliest childhood memory is seeing Johnny Ball at a church fete. With great humour and affection Tom Bromley tells the story of a childhood spent with his three siblings and that other all-important family member the television set.
