Postmodern And Political Agency:

International Postmodernism Johannes Willem Bertens, Hans Bertens, Douwe Fokkema, 1997 Containing more than fifty essays by major literary scholars International Postmodernism divides into four main sections The volume starts off with a section of eight introductory studies dealing with the subject from different points of view followed by a section that deals with postmodernism in other arts than literature while a third section discusses renovations of narrative genres and other strategies and devices in postmodernist writing The final and fourth section deals with the reception and processing of postmodernism in different parts of the world Three important aspects add to the special character of International Postmodernism The consistent distinction between postmodernity and postmodernism equal attention to the making and diffusion of postmodernism and the workings of literature in general and the focus on the text and the reader i e the reader's knowledge experience interests and competence as crucial factors in text interpretation This comprehensive study does not expressly focus on American postmodernism although American interpretations of postmodernism are a major point of reference The recognition that varying literary and cultural conditions in this world are bound to produce endless varieties of postmodernism made the editors Hans Bertens and Douwe Fokkema opt for the title International Postmodernism

Political Satire, Postmodern Reality, and the Trump Presidency Mehnaaz Momen, 2018-12-11 This book attempts to grasp the recent paradigm shift in American politics through the lens of satire It connects changes in the political and cultural landscape to corresponding shifts in the structure and organization of the media in order to shed light on the evolution of political satire on late night television Satire is situated in its historical background to comprehend its movement away from the fringes of discourse to the very center of politics and the media Beginning in the 1990s certain trends such as technological advances media consolidation and the globalization of communications reinforced each other paving the way for satire to claim a prized spot in the visual media a tendency that only gained strength after September 11 While the Bush

presidency presented itself as an apposite target for satirists their stronghold on American television was made possible by a number of transitions in broader culture which are encapsulated in the shrinking space available for political engagement under neoliberalism This largely underestimated development can be understood through the framework of postmodernism which focuses on the relationship between language power and the presentation of reality These trends and transitions reached a climax in the 2016 election where President Trump was elected embodying what can only be considered a significant turning point in American politics The bigger narrative contains various subplots represented in the rise of the neoliberal economy the acceptance of postmodernism as the dominant cultural code and the role of the voyeur superseding that of the engaged citizen It is only through understanding each of these pieces and connecting them that we can comprehend the current political transformation The present moment may feel like a golden age of satire and it may well be but this book addresses the hardest questions about the realities behind such a claim what can we conclude about when and how satire is effective judging by the history of this genre in its various incarnations and how can the apolitical postmodern media landscape be reconciled with what the best of this genre has had to offer during times of political duress **A**

Postmodern Reader Joseph Natoli, Linda Hutcheon, 1993-06-29 These readings are organized into four sections The first explores the wellsprings of the debates in the relationship between the postmodern and the enterprise it both continues and contravenes modernism Here philosophers social and political commentators as well as cultural and literary analysts present controversial background essays on the complex history of postmodernism The readings in the second section debate the possibility or desirability of trying to define the postmodern given its cultural agenda of decentering challenging even undermining the guiding master narratives of Western culture The readings in the third section explore postmodernism's complicated complicity with these very narratives while the fourth section moves from theory to practice in order to investigate in a variety of fields the common denominators of the postmodern condition in action Twenty-First Century

Latin American Narrative and Postmodern Feminism Gina Ponce de Leon, 2014-06-26 The authors of Twenty-First Century Latin American Narrative and Postmodern Feminism argue that while the more traditional feminists of the 20th century did not recognize in their theoretical and literary work the diversity of women's experiences current Latin American post feminist and post modern writers are proposing a transgressive new social order resulting in a more significant cultural resistance to the society they represent The authors included in this volume show that the narrative of the writers analyzed here is not limited to recognizing issues focused on gender or even sexuality but also explores the female aspiration of a dignified life and overcoming the dominant structures in their social political and cultural dimension The complex female situation of this millennium has become the primary quandary while searching for new forms to represent women in literature In Twenty-First Century Latin American Narrative and Postmodern Feminism the authors confront this dilemma in a sharp sophisticated and harmonious way offering a critical text that will be of interest for both specialists and general

readers interested in Latin American literature and culture of the recent years *The Postmodernism Debate in Latin America* John Beverley, Michael Aronson, José Oviedo, 1995-05-05 Postmodernism may seem a particularly inappropriate term when used in conjunction with a region that is usually thought of as having only recently and then unevenly acceded to modernity Yet in the last several years the concept has risen to the top of the agenda of cultural and political debate in Latin America This collection explores the Latin American engagement with postmodernism less to present a regional variant of the concept than to situate it in a transnational framework Recognizing that postmodernism in Latin America can only inaccurately be thought of as having traveled from an advanced capitalist center to arrive at a still dependent neocolonial periphery the contributors share the assumption that postmodernism is itself about the dynamics of interaction between local and metropolitan cultures in a global system in which the center periphery model has begun to break down These essays examine the ways in which postmodernism not only designates the effects of this transnationalism in Latin America but also registers the cultural and political impact on an increasingly simultaneous global culture of a Latin America struggling with its own set of postcolonial contingencies particularly the crisis of its political left the dominance of neoliberal economic models and the new challenges and possibilities opened by democratization With new essays on the dynamics of Brazilian culture the relationship between postmodernism and Latin American feminism postmodernism and imperialism and the implications of postmodernist theory for social policy as well as the text of the Declaration from the Lacandon Jungle of the Zapatista National Liberation Army this expanded edition of *boundary 2* will interest not only Latin Americanists but scholars in all disciplines concerned with theories of the postmodern Contributors Xavier Albó José Joaquín Brunner Fernando Calderón Enrique Dussel Néstor García Canclini Marten Hopenhayn Neil Larsen the Latin American Subaltern Studies Group Norbert Lechner María Milagros López Raquel Olea Anbal Quijano Nelly Richard Carlos Rincón Silviano Santiago Beatriz Sarlo Roberto Schwarz and Hernán Vidal **The Political Economy of the Agri-Food System in Thailand** Prapimphan Chiengkul, 2017-05-08 This book adopts a neo Marxist and Gramscian approach to studying the political economy of the agricultural and food system in Thailand 1990-2014 The author argues that hegemonic forces have many measures to co-opt dissent into hegemonic structures and that counter hegemony should be seen as an ongoing process over a long period of time where predominantly counter hegemonic forces constrained by political economic structural conditions may at times retain some hegemonic elements Contrary to what some academic studies suggest the author argues that localist inspired social movements in Thailand are not insular and anti globalisation **Beyond Postmodernism** Roger Frie, Donna Orange, 2013-12-16 *Beyond Postmodernism* identifies ways in which psychoanalysis has moved beyond the postmodern debate and discusses how this can be applied to contemporary practice Roger Frie and Donna Orange bring together many of the leading authorities on psychoanalytic theory and practice to provide a broad scope of psychoanalytic viewpoints and perspectives on the growing interdisciplinary discourse between psychoanalysis continental philosophy social theory and

The Magical State Fernando Coronil, 1997-11-10 In 1935 after the death of dictator General Juan Vicente Gómez Venezuela consolidated its position as the world's major oil exporter and began to establish what today is South America's longest lasting democratic regime Endowed with the power of state oil wealth successive presidents appeared as transcendent figures who could magically transform Venezuela into a modern nation During the 1974-78 oil boom dazzling development projects promised finally to effect this transformation Yet now the state must struggle to appease its foreign creditors counter a declining economy and contain a discontented citizenry In critical dialogue with contemporary social theory Fernando Coronil examines key transformations in Venezuela's polity culture and economy recasting theories of development and highlighting the relevance of these processes for other postcolonial nations The result is a timely and compelling historical ethnography of political power at the cutting edge of interdisciplinary reflections on modernity and the state *Postmodernism, Post-colonialism and Pedagogy* Peter McLaren, 1995 POSTMODERNISM POSTCOLONIALISM and PEDAGOGY offers a trenchant and sophisticated criticism of forms of educational discourse that subordinate advocacy to analysis depoliticise the margins and reject the struggle for social justice as a legitimate aspect of social scientific and educational practice Pushing the limits of current educational thinking this volume defines the Issues that will be at the forefront of educational debate in the coming decade A timely and controversial collection POSTMODERNISM POSTCOLONIALISM and PEDAGOGY is at the cutting edge of critical educational theory The Lesbian Postmodern Laura L. Doan, 1994 This collection of essays explores the shifting definitions of the terms lesbian and postmodern the lesbian in contemporary fiction and Hollywood film and the pitfalls and rewards of the recent lesbian theory From a 'Necessary Evil' to the Art of Contingency Suvi Soininen, 2015-10-15 This book presents a comprehensive study of Oakeshott's conception of political activity The author first examines Oakeshott in the contexts of liberal conservative and Idealist thought and then presents a detailed interpretation of the change in his conception of politics in the context of British postwar political thought It is argued that Oakeshott's conception of political activity shifted from a near contempt of politics towards the applauding of politics as a deliberative and reflective activity The development is disclosed by examining the change in his key concepts such as authority and tradition Accordingly some rather unexpected aspects of Oakeshott's thought such as his close relationship to the linguistic turn appear The author argues that although Oakeshott cannot exactly

be classified as belonging to that group of political philosophers for whom politics represents a superior human activity his later work presents an important and original view of politics as an art of contingency *On Critical Pedagogy* Henry A. Giroux, 2011-06-16

International Relations and the Challenge of Postmodernism D. S. L. Jarvis, 2021-11-24 Assesses current poststructural and postmodern theories and defends international relations as a discipline Promising to stimulate discussion among both those who celebrate the arrival of the Third Debate and those who fear its colonialization and spread D S L Jarvis offers an innovative appraisal of the various postmodern and poststructural theories sweeping the discipline of international relations Citing the work of Richard Ashley Jarvis explores the lineage of postmodern theory its importation into international relations and its transformation from critical epistemology to subversive and deconstructive political program Inspired by a deep seated concern that theory in international relations is becoming increasingly abstract and unrelated to the subject matter scholars strive to understand Jarvis argues that much postmodern and poststructural theory has impoverished our theoretical understanding of global political relations embroiling us in incommensurate discourses and research agendas driven by identity politics By developing a series of critical typologies to assess postmodern and poststructural theories Jarvis mount a ringing defense of the discipline s existing research methods and epistemologies and he suggests that more harm than good has come of the epistemological subversion occasioned by the Third Debate

Cosmopolitanism and International Relations Theory Richard Beardsworth, 2013-04-16 Globalization has been contested in recent times Among the critical perspectives is cosmopolitanism Yet with the exception of normative theory international relations as a field has ignored cosmopolitan thinking This book redresses this gap and develops a dialogue between cosmopolitanism and international relations The dialogue is structured around three debates between non universalist theories of international relations and contemporary cosmopolitan thought The theories chosen are realism post Marxism and postmodernism All three criticize liberalism in the international domain and therefore cosmopolitanism as an offshoot of liberalism In the light of each school s respective critique of universalism the book suggests both the importance and difficulty of the cosmopolitan perspective in the contemporary world Beardsworth emphasizes the need for global leadership at nation state level re embedding of the world economy a cosmopolitan politics of the lesser violence and cosmopolitan political judgement He also suggests research agendas to situate further contemporary cosmopolitanism in international relations theory This book will appeal to all students of political theory and international relations especially those who are seeking more articulation of the main issues between cosmopolitanism and its critics in international relations

Peasants, Populism and Postmodernism Dr Tom Brass, 2013-02-01 Tracing the way in which the agrarian

myth has emerged and re emerged over the past century in ideology shared by populism postmodernism and the political right the argument in this book is that at the centre of this discourse about the cultural identity of otherness difference lies the concept of and innate peasant ness In a variety of contextually specific discursive forms the old populism of the 1890s and the nationalism and fascism in Europe America and Asia during the 1920s and 1930s were all informed by the agrarian myth The postmodern new populism and the new right both of which emerged after the 1960s and consolidated during the 1990s are also structured discursively by the agrarian myth and with it the ideological reaffirmation of peasant essentialism
