Postmodern Contentions:

Planning in Postmodern Times Philip Allmendinger, 2002-01-04 Postmodern social theory has provided significant insights into our understanding of society and its components Key thinkers including Foucault Baudrillard and Lyotard have challenged existing ideas about power and rationality in society This book analyses planning from a postmodern perspective and explores alternative conceptions based on a combination of postmodern thinking and other fields of social theory In doing so it exposes some of the limits of postmodern social theory while providing an alternative conception of planning in the twenty first century This title will appeal to anyone interested in how we think and act in relation to cities urban planning and governance

Negotiating Postmodernism Wayne Gabardi, 2001 Joining the modern postmodern debate this book suggests that the polarizing polemics of the radical postmodernists who once dominated the discussion have given way to a new critical postmodernism characterized by dialogue accommodation and synthesis A comprehensive survey Negotiating Postmodernism also marks the arrival of a powerful critical presence on the scene one that advances the idea of a late modern postmodern social and cultural transition

Cartographic Strategies of Postmodernity Peta Mitchell, 2013-01-11 The last fifty years have witnessed the growing pervasiveness of the figure of the map in critical theoretical and fictional discourse References to mapping and cartography are endemic in poststructuralist theory and similarly geographically and culturally diverse authors of twentieth century fiction seem fixated upon mapping While the map metaphor has been employed for centuries to highlight issues of textual representation and epistemology the map metaphor itself has undergone a transformation in the postmodern era This metamorphosis draws together poststructuralist conceptualizations of epistemology textuality cartography and metaphor and signals a shift away from modernist preoccupations with temporality and objectivity to a postmodern pragmatics of spatiality and subjectivity Cartographic Strategies of Postmodernity charts this metamorphosis of cartographic metaphor and argues that the ongoing reworking of the map metaphor renders it a formative and performative metaphor of postmodernity

Postmodernism & a Sociology...(c) , In the fifth volume in the Studies in American Sociology Series Stanford M Lyman offers commentaries on and critiques of postmodernism poststructuralism and deconstruction posing questions concerning theoretical and epistemological problems arising from what appears to be a nouvelle vague Postmodernism poststructuralism and deconstructionism are interrelated aspects of the newest theoretical development in sociology and the social sciences This new wave of thought challenges virtually all paradigms currently in use In this his fifth volume in the Studies in American Sociology Series Stanford M Lyman offers commentaries on and critiques of this new perspective posing questions concerning theoretical and epistemological problems arising from what appears to be a nouvelle vague Among the basic themes and issues explored are the allegation that modernity has defaulted on the promise of the Enlightenment the question of whether the rational basis for knowledge and action is still valid the controversy over the place of metanarratives and macrosociological outlooks and newer concerns over race gender sexual

preferences the self and the Other Professor Lyman provides empirically based and historically specific analyses of the relation of the race question to the problem of otherness and to the legal construction of racial identity in American court proceedings Focusing on the issues of citizenship affecting European Middle Eastern and Asian immigrants African Americans and the special cases of the Chinese and Native Americans he relates major public problems to the modern as well as the postmodern perspectives on justice The debate over assimilation and multiculturalism the dynamics of gender specific emotions as expressed in six decades of Hollywood films and the postmodern approach to deviance are each examined He also offers proposals for a social science attuned to but critical of postmodernism and poststructuralism Such a sociology might offer a perspective that treats the drama of social relations in the routine as well as the remarkable aspects of everyday life Professor Lyman provides not only a new understanding of postmodernism but also a program of how to proceed with respect to its challenges

The Postmodern Mythology of Michel

Tournier Melissa Panek, 2012-03-15 Michel Tournier defines the supreme mission of a writer to be the creation of a mythology which allows for interaction with his readers who seem to be losing their critical faculties in our contemporary postmodern world dominated by consumption and dizzying technological advances Our contemporary society has changed due to the end of the modern era with its reigning ideologies Collapsing after the atrocities of the Second World War Modernity and the artistic and literary reactions referred to as modernism have likewise been transformed Myth continues to represent the collectivity of human existence yet in the short stories and novels of Michel Tournier myth represents the collapse of the all encompassing ideologies inherent to the Modern era The grand narratives of Modernity such as Christianity and Man's reason have been deconstructed in the postmodern era The mythology of Michel Tournier expresses these trends towards the dissolution of Modernity and creates individual mini narratives which emphasize the particularity of individual existence Tournier takes established mythical models rooted in Christianity fables and legends of Western Civilization and re contextualizes them Through a semiotic reworking of core binary pairs of a myth Tournier creates a third order level of representation which modifies the mythical model The works of *le Roi des Aulnes* Gilles et Jeanne and *Vendredi* are illustrious of this third order level of signification According to Ferdinand de Saussure Roland Barthes and Claude Lévi Strauss the structural make up of myth transforms established meanings according to the dominant cultural code Barthes semiological study of myth reveals the levels of representation through which myth creates meaning Myth builds upon the denotative first order level of language and through a connotative process creates a second order level This connotative process does not end on this second order for in the writings of Tournier this semiological process is continued to a third order which re contextualizes the myth again Tournier adapts myth to the unique traits of the postmodern era including deconstruction and playfulness by allowing the reader to provide the context of the story As such we the reader take the place as author of our own individual mythology

Oden, 2001-06-26 As dramatic changes unfold throughout the world and the new millennium begins many in South Africa have begun to ask what next The scale and pace of change have led to a feeling of powerlessness How to cope with globalization regionalization a depleting ozone layer new diseases rampant militarization let alone unseen structures of influence and oppression like race class and gender While there is no shortage of theoretical models on offer many feel that they are inadequate for the case of Southern Africa In this book scholars of both international relations and Southern Africa present a wide variety of thoughts on the future of the region and the place of theory in helping us to understand the bewildering array of events characterizing the late modern early twenty first century world This book marks a call to theory if Southern Africans are to overcome the divisive legacy of the past and to move toward a more prosperous and sustainable collective future theory must be placed at the centre of everyday life For it is our understanding of the world that shapes both it and us
