Postponing the Postmodern Ben Agger, 2002 We are not yet at a moment that could be called postmodernity and may never be says leading sociologist Ben Agger in his newest book Modernity is still our history our framework Nevertheless Agger shows how postmodern theory can enhance understanding of the self everyday life and culture in the early 21st century Changes in culture commerce and communications such as the internet require postmodern modes of knowing Agger borrows from French postmodern theory and from the Frankfurt School's critical theory in addressing the utility and shortcomings of postmodern theory for understanding identity culture race gender and power He explains postmodern theory clearly borrowing creatively from postmodernism in order to theorize about daily life and social structures heavily reliant on information technologies like the internet and the Web

Postmodern Theory and Biblical Theology Brian D. Ingraffia, 1995-12-07 This book explores the relationship between postmodernism and Christianity Whereas deconstructionists claim all religious discourses can be radically undermined Ingraffia argues that the version of Christianity constructed by Nietzsche Heidegger and especially Derrida ignores Christianity's unique ontological status This truth Ingraffia claims is an unacknowledged influence on leading postmodernist thinkers thereby demonstrating the priority of the Judaeo Christian tradition over secular attempts to displace it

Critical Entanglements: Postmodern Theory and Biblical Studies Andrew P. Wilson, 2019-11-26 While postmodernism remains an ambiguous and messy phenomenon to represent it also remains a compelling prophetic voice in the ongoing development of contemporary biblical studies In *Critical Entanglements Postmodern Theory and Biblical Studies* Andrew P Wilson tracks the various strands of postmodernism threaded through the discipline drawing on a range of evocative biblical readings as well as key examples from the art world Wilson demonstrates that the scholarly entanglement with postmodern theory provides a valuable critical sensibility to biblical readings and referring to specific examples from reception history one that has the potential to showcase biblical studies at its best When it comes to reading practices scholarly voices and identities postmodern theory shows that biblical scholarship is ethically oriented and has an expansive sense of the text and textual effects Wilson plots the distinctive ways in which postmodern theory has shaped scholarship of the bible while continuing to beckon in unanticipated

ways from unexpected vantage points **Postmodern Theory and Blade Runner** Matthew Flisfeder, 2017-04-06 Provides an introductory explanation of postmodernism and its connection to film theory and how it can be used to interpret Ridley Scott's film Blade Runner *Max Weber and Postmodern Theory* N. Gane, 2002-04-09 This book explores the contemporary nature of Max Weber's work by looking in detail at his key concepts of rationalization and disenchantment Thematic parallels are drawn between Weber's rationalization thesis and the critiques of contemporary culture developed by Jean Francois Lyotard Michel Foucault and Jean Baudrillard It is suggested that these three postmodern thinkers develop and respond to Weber's analysis of modernity by pursuing radical strategies of affirmation and re-enchantment Examining the work of these three key thinkers in this way casts new light both on postmodern theory and on Weber's sociology of rationalization

Postmodern Theory and Progressive Politics Thomas de Zengotita, 2018-08-23 This book explores the origins of the academic culture wars of the late 20th century and examines their lasting influence on the humanities and progressive politics It puts us in a position to ask this question what to make now of those furious debates over postmodernism multiculturalism relativism critical theory deconstruction post-structuralism and all the rest In an effort to arrive at a fair judgment on that question the book reaches for an understanding of postmodern theorists by way of two genres they despised and hopes for that very reason to do them justice It tells a story and in the telling advances two basic claims first that the phenomenological hermeneutical tradition is the most suitable source of theory for a humanism that aspires to be universal and second that the ethical and political aspect of the human condition is authentically accessible only through narrative In conclusion it argues that the postmodern moment was a necessary one or will have been if we rise to the occasion and seize the opportunity it offers a truly universal humanism might yet be realized even in or perhaps especially in this atavistic hour of parochial populism Handbook of Sociological Theory Jonathan H. Turner, 2006-05-17 Sociology is experiencing what can only be described as hyperdifferentiation of theories there are now many approaches competing for attention in the intellectual arena From this perspective we should see a weeding out of theories to a small number but this is not likely to occur because each of the many theoretical perspectives has a resource base of adherents As a result theories in sociology do not compete head-on with each other as much as they coexist This seminal reference work was brought together with an eye to capturing the diversity of theoretical activity in sociology specifically the forefront of theory Contributors describe what they themselves are doing right now rather than what others have done in the past The goal of this volume is to allow prominent theorists working in a variety of traditions who wouldn't usually come together to review their work The chapters in this volume represent a mix of theoretical orientations and strategies but these theories are diverse and represent the prominent theoretical discussions in sociology today Some areas included are Section I Theoretical Methodologies and Strategies Section II The Cultural Turn in Sociological Theorizing Section III Theorizing Interaction Processes Section IV Theorizing from the Systemic and Macrolevel Section V New Directions in Evolutionary Theorizing
