Postmodern Geography Theory And Praxis:

Postmodern Geography Claudio Minca, 2001-06-08 This edited collection brings together some of the most authoritative voices in contemporary debates in geography Michael Dear Giuseppe Dematteis Franco Farinelli Cindy Katz Don Mitchell Gunnar Olsson Neil Smith and Edward Soja to address the question of praxis within broader discussions of the postmodern in geography Critical Urban Theory, Common Property, and "the Political" Dan Webb, 2017-05-18 Dan Webb explores an undervalued topic in the formal discipline of Political Theory and political science more broadly the urban as a level of political analysis and political struggles in urban space Because the city and urban space is so prominent in other critical disciplines most notably geography and sociology a driving question of the book is what kind of distinct contribution can political theory make to the already existing critical urban literature The answer is to be found in what Webb calls the properly political approach to understanding political conflict as developed in the work of thinkers like Chantal Mouffe Jodi Dean and Slavoj Žižek This properly political analysis is contrasted with and a curative to the predominant ethical or post political understanding of the urban found in so much of the geographical and sociological critical urban theory literature In order to illustrate this primary theoretical argument of the book Webb suggests that common property is the most useful category for conceiving the city as a site of the properly political When the city and urban space are framed within this theoretical framework critical urbanists are provided a powerful tool for understanding urban political struggles in particular anti gentrification movements in the inner city **Approaches to Human Geography** Stuart Aitken, Gill Valentine, 2006-01-27 Approaches to Human Geography is the essential student primer on theory and practice in Human Geography It is a systematic review of the key ideas and debates informing post war geography explaining how those ideas work in practice Avoiding jargon while attentive to the rigor and complexity of the ideas that underlie geographic knowledge the text is written for students who have not met philosophical or theoretical approaches before This is a beginning guide to geographic research and practice *Subaltern Geographies* Tariq Jazeel, Stephen Legg, 2024-08-20 Subaltern Geographies stands as the inaugural comprehensive exploration into the intersection of subaltern studies historical breakthroughs and the critical methodologies of cultural urban historical and political geography Editors Tariq Jazeel and Stephen Legg embark on an intellectual journey to scrutinize the relationship between space and spatial categorizations posing pivotal questions about the methodological philosophical potential that a geographically grounded engagement with the concept of subalternity offers in both historical and contemporary contexts This edited volume seeks to unravel the implications and impact of subaltern studies scholarship on geographical thought while navigating beyond methodological nationalism and Eurocentrism The book's contributors comprising historians geographers urban theorists and a social activist present diverse studies spanning colonial India post colonial Tanzania Andean Ecuador Delhi's recycling centres Bolivian protest sites the Indian Ocean and urban fragments The volume contends that politicointellectual skills are vital for conceiving and

representing subaltern geographies This craft involves grappling with the complexities of translation mistranslation and the untranslatability inherent in radically different geographical descriptions The book further explores the challenges of retrieving notionally subaltern space from archives or through ethnographic and textual research Lastly it addresses the representational hurdles posed by ordinariness and everyday spatiality in contrast to conventional geographical descriptions

A Companion to Cultural Geography James Duncan,Nuala C. Johnson,Richard H. Schein,2008-04-15 A Companion to Cultural Geography brings together original contributions from 35 distinguished international scholars to provide a critical overview of this dynamic and influential field of study Provides accessible overviews of key themes debates and controversies from a variety of historical and theoretical vantage points Charts significant changes in cultural geography in the twentieth century as well as the principal approaches that currently animate work in the field A valuable resource not just for geographers but also those working in allied fields who wish to get a clear understanding of the contribution geography is making to cross disciplinary debates

Urban Space and Late Twentieth-Century New York Literature C. Neculai,2014-03-06 Interdisciplinary in nature this project draws on fiction non fiction and archival material to theorize urban space and literary cultural production in the context of the United States and New York City Spanning from the mid 1970s fiscal crisis to the 1987 Market Crash New York writing becomes akin to geographical fieldwork in this rich study

Securing Respect Andrew Millie,2009-04-15 Securing respect contains essays from leading academics in the field that consider the origins current interpretations and possible future for the Respect Agenda It explores various policy and theoretical discourses relating to respect behavioural expectations and anti social behaviour

The Cambridge Companion to Postmodernism Steven Connor,2004-07-15 The Cambridge Companion to Postmodernism offers a comprehensive introduction to postmodernism The Companion examines the different aspects of postmodernist thought and culture that have had a significant impact on contemporary cultural production and thinking Topics discussed by experts in the field include postmodernism s relation to modernity and its significance and relevance to literature film law philosophy architecture religion and modern cultural studies The volume also includes a useful guide to further reading and a chronology This is an essential aid for students and teachers from a range of disciplines interested in postmodernism in all its incarnations Accessible and comprehensive this Companion addresses the many issues surrounding this elusive enigmatic and often controversial topic

Thinking Geographically Phil Hubbard,Brendan Bartley,Duncan Fuller,Rob Kitchin,2002-10-01 The last decade has seen Geography transformed by an astonishing range of cultural and philosophical concepts and approaches Thinking Geographically is designed for students as an accessible and enjoyable introduction to this new landscape of geographical ideas The book takes the reader through the history of geographic thought up to a survey of the present Contemporary theory is then used to explore real world issues drawn from across the discipline of social cultural political and economic geography Entertainingly written and packed with examples and with profiles of key theorists the

book is an ideal introduction for any student who wants to discover the potential of thinking geographically

Taming the Disorderly City Martin J. Murray, 2017-08-31 In postapartheid Johannesburg tensions of race and class manifest themselves starkly in struggles over rights to the city Real estate developers and the very poor fight for control of space as the municipal administration steps aside almost powerless to shape the direction of change Having ceded control of development to the private sector the Johannesburg city government has all but abandoned residential planning to the unpredictability of market forces This failure to plan for the civic good and the resulting confusion is a perfect example of the entrepreneurial approaches to urban governance that are sweeping much of the Global South as well as the cities of the North Martin J Murray brings together a wide range of urban theory and local knowledge to draw a nuanced portrait of contemporary Johannesburg In *Taming the Disorderly City* he provides a focused intellectual and political critique of the often ambivalent urban dynamics that have emerged after the end of apartheid Exploring the behaviors of the rich and poor each empowered in their own way as they rebuild a new Johannesburg we see the entrepreneurial city high rises shopping districts and gated communities surrounded by and intermingled with poverty In graceful prose Murray offers a compelling portrait of the everyday lives of the urban poor as seen through the lens of real estate capitalism and revitalization efforts

Towards Safe City Centres? Gesa Helms, 2016-02-24 Examining the rising interest in quality of life offences anti social behaviour and incivilities in urban public spaces this study explores the rising importance of policing crime control and community safety policies in the context of the ongoing urban restructuring in old industrial cities This is achieved through an extensive exploration into the making and remaking of urban spaces in the city of Glasgow In so doing this book puts forward a strong and innovative theoretical argument Framed in a critical Marxist perspective that draws on debates within German speaking critical theory and Marxism this study argues for the centrality of human social praxis in our understanding of contemporary cities It engages with questions over the production of social space a fragmented social totality and human agency which so far have only received limited attention in Anglo American debates

Heterotopic World Fiction Lesley Higgins, Marie-Christine Leps, 2022-09-06 After more than a century of genocides and in the midst of a global pandemic this book focuses on the critique of biopolitics the government of life through individuals and the general population and the counterdevelopment of biopoetics an aesthetics of life elaborating a self as a practice of freedom realized in texts by Virginia Woolf Michel Foucault and Michael Ondaatje Their world fiction produces transhistorical transnational experiences offered to the reader for collective responsibility in these critical times Their books function as heterotopias spaces and processes that recall and confront regimes of recognized truths to dismantle fixed identities and actualize possibilities for becoming other Higgins and Leps define and explore a slant biopoetic perspective that is feminist materialist anti racist and anti war

The Routledge Handbook of Translation and the City Tong King Lee, 2021-06-27 The Routledge Handbook of Translation and the City is the first multifaceted and cross disciplinary overview of how cities can be read through the lens of

translation and how translation studies can be enriched by an understanding of the complex dynamics of the city Divided into four sections the chapters are authored by leading scholars in translation studies sociolinguistics and literary and cultural criticism They cover contexts from Brussels to Singapore and Melbourne to Cairo and topics from translation as resistance to translanguaging and urban design This volume explores the role of translation at critical junctures of a city's historical transformation as well as in the mundane intercultural moments of urban life and uncovers the trope of the translational city in writing This Handbook is critical reading for researchers scholars and advanced students in translation studies linguistics and urban studies Colonial and Post-Colonial Geographies of India Saraswati Raju, M Satish Kumar, Stuart

Corbridge, 2006-03-29 This collection of original essays by scholars of geography from India Western Europe and the USA provides important insights into the way contemporary geographers are engaging with India The earlier narrow colonial focus that saw India as a country of resources and peoples tribes and castes has now been discarded for a broader view located in mainstream intellectual frameworks and informed by a public policy perspective This volume highlights how contemporary geographers see and write on topics such as the state nation community environment and division of labor while keeping in mind issues of spatiality and territoriality **Seductions of Place** Carolyn L. Cartier, Alan A. Lew, 2005 The seductiveness of touristed landscapes is simultaneously local and global as travelled places are formed and reworked by the activities of diverse mobile people in their desires to experience situated sensuous qualities of difference Cartier and Lew's interesting and informative book explores contemporary issues in travel and tourism and human geography and the complex cultural political and economic activities at stake in touristed landscapes as a result of globalization This book assesses travel and tourism as simultaneously cultural and economic processes through ideas about place seduction and the formation of landscapes Throughout examples are given from urban and environmental touristed landscapes from major world cities to tropical islands and chapter contributions include an analysis of the representational character of landscape and the built environment historic constructions of place seduction the importance of class racial and gender dimensions of place how mobility and the seduction of place orient identity formation the environmental impacts of tourism economies Broad in scope this book is ideal for social scientists and humanists who are interested in contemporary debates about place studies mobility and the located realities of globalization A Companion to the Literatures of Colonial America Susan Castillo, Ivy

Schweitzer, 2008-04-15 This broad introduction to Colonial American literatures brings out the comparative and transatlantic nature of the writing of this period and highlights the interactions between native non scribal groups and Europeans that helped to shape early American writing Situates the writing of this period in its various historical and cultural contexts including colonialism imperialism diaspora and nation formation Highlights interactions between native non scribal groups and Europeans during the early centuries of exploration Covers a wide range of approaches to defining and reading early American writing Looks at the development of regional spheres of influence in the seventeenth and eighteenth centuries

Serves as a vital adjunct to Castillo and Schweitzer's *The Literatures of Colonial America: An Anthology* Blackwell Publishing 2001

Loose Space Karen Franck, Quentin Stevens, 2006-10-16 In cities around the world people use a variety of public spaces to relax to protest to buy and sell to experiment and to celebrate *Loose Space* explores the many ways that urban residents with creativity and determination appropriate public space to meet their own needs and desires Familiar or unexpected spontaneous or planned momentary or long lasting the activities that make urban space loose continue to give cities life and vitality The book examines physical spaces and how people use them Contributors discuss a wide range of recreational commercial and political activities some are conventional others are more experimental Some of the activities occur alongside the intended uses of planned public spaces such as sidewalks and plazas other activities replace former uses as in abandoned warehouses and industrial sites The thirteen case studies international in scope demonstrate the continuing richness of urban public life that is created and sustained by urbanites themselves Presents a fresh way of looking at urban public space focusing on its positive uses and aspects Comprises 13 detailed well illustrated case studies based on sustained observation and research by social scientists architects and urban designers Looks at a range of activities both everyday occurrences and more unusual uses in a variety of public spaces planned leftover and abandoned Explores the spatial and the behavioral considers the wider historical and social context Addresses issues of urban research architecture urban design and planning Takes a broad international perspective with cases from New York London Berlin Amsterdam Rome Guadalajara Athens Tel Aviv Melbourne Bangkok Kandy Buffalo and the North of England

Strategizing Management Accounting Chandana Alawattage, Danture Wickramasinghe, 2018-08-30 The theory and practice of management accounting should be seen within the context of varieties of global capitalism to appreciate its role as a calculative technology of capitalism which is practiced on factory floors corporate boards computer networks spreadsheets and so forth This new textbook is the first to introduce the field from a rounded social science perspective *Strategizing Management Accounting* offers a theoretical discussion on management accounting's strategic orientation by accommodating two interrelated lines of analyses from historical and contemporary perspectives The book illustrates how new management accounting has evolved into the form in which it exists today in its neoliberal context and how those new management accounting practices have become manifestos for the managers as calculative technologies of decision making performance management control corporate governance as well as global governance and development within various forms of organizations across the globe Each chapter draws on Foucauldian analysis of biopolitics explaining how neoliberal market logic informs a set of strategies and mechanisms through which various social entities and discourses are made governable by considering them as biopolitical entities of global governance Written by two recognized accounting experts this book is vital reading for all students of management accounting and will also be a useful supplementary resource for those wanting to understand and research accounting's vital role in contemporary society

The Form of Cities Alexander R. Cuthbert, 2008-04-15 The

Form of Cities offers readers a considered theoretical introduction to the art of designing cities Demonstrates that cities are replete with symbolic values collective memory association and conflict Proposes a new theoretical understanding of urban design based in political economy Demonstrates different ways of conceptualising the city whether through aesthetics or the prism of gender for example Written in an engaging and jargon free style but retains a sophisticated interpretative edge Complements Designing Cities by the same author Blackwell 2003 *Space, Place, and Violence* James A. Tyner, 2012-05-02

Direct interpersonal violence is a pervasive yet often mundane feature of our day to day lives paradoxically violence is both ordinary and extraordinary Violence in other words is often hidden in plain sight Space Place and Violence seeks to uncover that which is too apparent to critically question both violent geographies and the geographies of violence With a focus on direct violence this book situates violent acts within the context of broader political and structural conditions Violence it is argued is both a social and spatial practice Adopting a geographic perspective Space Place and Violence provides a critical reading of how violence takes place and also produces place Specifically four spatial vignettes home school streets and community are introduced designed so that students may think critically how race sex gender and class inform violent geographies and geographies of violence
