Postmodern Theory And Biblical Theology Vanquishing Gods Shadow:

Postmodern Theory and Biblical Theology Brian D. Ingrassia, 1995-12-07 This book explores the relationship between postmodernism and Christianity Whereas deconstructionists claim all religious discourses can be radically undermined Ingrassia argues that the version of Christianity constructed by Nietzsche Heidegger and especially Derrida ignores Christianity's unique ontological status This truth Ingrassia claims is an unacknowledged influence on leading postmodernist thinkers thereby demonstrating the priority of the Judeo-Christian tradition over secular attempts to displace it

Vanquishing God's Shadow Brian Douglas Ingrassia, 1993 **Postmodernism and the Ethics of Theological Knowledge** Justin Thacker, 2016-04-08 This book establishes the necessary integration of theological knowledge with theological ethics It does this as a response to the postmodern critique of Christianity as exemplified in Rorty and Lyotard They argue that any claim to know God is necessarily tyrannical Contemporary responses to such postmodern thinking often fail to address adequately the ethical critique that is made This book redresses that balance by suggesting that our knowledge of God and love of the Other are so intimately connected that we cannot have one without the other In the absence of love then we simply do not know God Justin Thacker proposes that an effective theological response to postmodernity must address both knowledge and ethics in an integrated fashion as presented in this book **Postmodern Philosophy and Christian Thought**

Merold Westphal, 1999-11-22 Are postmodern philosophy and Christian thought so diametrically opposed that never the twain shall meet Or are various postmodern philosophies in spite of their secular provenance open to religious appropriation These thirteen lively original essays awaken secular postmodernisms and various modes of Christian thinking from their ideological complacency An open space for passionate dialogue emerges from conversations that powerfully engage both intellectual and religious points of view **Hope in Barth's Eschatology** John C.

McDowell, 2017-11-22 This title was first published in 2000 Hope in Barth's Eschatology presents a critical investigation and survey of Karl Barth's writings particularly his Church Dogmatics IV 3 in order to locate the character and nature of hope within Barth's eschatology Arguing that Barth with his form of hope that refuses to shy away from the dark themes of the tragic vision could be seen to undermine certain tragic sensibilities necessary for a healthy account of hope John McDowell locates Barth within the context of larger traditions of theological thinking and influential accounts of Christian hope examining the work of Steiner MacKinnon Pannenberg Rahner Moltmann and others Addressing the relative neglect that Barth commentators have paid to eschatological themes McDowell maintains that to miss what Barth is doing in his eschatology is to seriously misunderstand Barth's broader theological sense This book offers a significant contribution to the ongoing task of understanding Barth's theology whilst developing a way of reading hope and eschatology that ultimately places some critical questions at Barth's door Rhetorics of Religion in American Fiction Liliana M. Naydan, 2016-05-23

Rhetorics of Religion in American Fiction considers the way in which contemporary American authors address the subject of

belief in the post 9 11 Age of Terror Naydan suggests that after 9 11 fiction by Mohsin Hamid Laila Halaby Philip Roth Don DeLillo John Updike and Barbara Kingsolver dramatizes and works to resolve impasses that exist between believers of different kinds at the extremes These impasses emerge out of the religious paradox that shapes America as simultaneously theocratic and secular and they exist for instance between liberals and fundamentalists between liberals and certain evangelicals between fundamentalists and artists and between fundamentalists of different varieties Ultimately Naydan argues that these authors function as literary theologians of sorts and forge a relevant space beyond or between extremes They fashion faith or lack thereof as hybridized and hence as a negotiation among secularism atheism faith fundamentalism and fanaticism In so doing they invite their readers into contemplations of religious difference and new ways of memorializing 9 11

Truth and Subjectivity, Faith and History Varughese John, 2012-09-26 What is truth Philosophical explorations have merely presupposed truth rather than define it The inscrutable nature of truth is a recognition of human finitude which is both Socratic the recognition that one does not know and non Socratic the recognition that truth has to be given from without This opens the way to locating truth outside the individual which can be appropriated only when the condition to recognize it is given For Kierkegaard the incarnation of Christ is the point when both revelation and the condition to recognize it are given However incarnation being historical raises the question of objectivity and evidence This book explores what truth implies for the individual and examines the value of historical research for Christian faith

Psalms Alastair G. Hunter, 2005-08-16 Psalms examines the nature of the Psalms as a text in English dealing specifically with the problem of translation and various aspects of the techniques on reading with relation to traditional approaches within Biblical studies and contemporary literary theory Alastair Hunter also outlines a programmatic approach to reading and applies it to a selection of individual Psalms

The Doctrine of Creation Bruce Riley Ashford, Craig G. Bartholomew, 2020-11-10 According to Bruce Ashford and Craig Bartholomew one of the best sources for regaining a robust biblical doctrine of creation is the recovery of Dutch neo Calvinism Tracing historical treatments and exploring theological themes Ashford and Bartholomew develop the Kuyperian tradition s rich resources on creation for systematic theology and the life of the church today

The Lord Is the Spirit John A. Studebaker Jr., 2008-01-01 Although the doctrine and work of the Holy Spirit is no longer being ignored in theology as was often the case in centuries past the authority of the Spirit remains essentially undefined The need for such a definition however is urgent Some dangerous trends in the contemporary understanding of the Spirit have developed trends that can only be exposed through careful exegesis of Scripture and theological clarification Indeed some contemporary models often leave us with a nonauthoritative Spirit predisposed toward universalism experientialism or panentheism This work will attempt to show that the nature of the Holy Spirit s authority can be clearly defined through biblical and systematic theology When we investigate the Spirit s place within the pattern of divine authority as specified in Scripture we discover that the Holy Spirit indeed possesses a unique authority as divine

Person Christ's Executor Teacher and Governor of the Church Such a work will be helpful for both the theologian and the pastor First definitions of the Spirit's authority will be developed through historical exegetical and theological analysis Then these definitions will be applied to specific church practices including hermeneutics church structure and guidance and Christian spirituality A response will also be given to those practical theologies that are subtly diminishing the Spirit's authority in relation to the contemporary church Towards a Christian Literary Theory L. Ferretter,2002-12-17 Most modern literary theory is explicitly anti theological This book states the case for a contemporary literary theory whose principles derive from Christian theology Ferretter argues that it remains rationally and ethically legitimate to use theological language in literary theory despite the objections to such a theory posed by deconstruction Marxism and psychoanalysis He concludes with an assessment of how such a theory can be formulated and used in contemporary cultural analysis The Cambridge Companion to Postmodernism Steven Connor,2004-07-15 The Cambridge Companion to Postmodernism offers a comprehensive introduction to postmodernism The Companion examines the different aspects of postmodernist thought and culture that have had a significant impact on contemporary cultural production and thinking Topics discussed by experts in the field include postmodernism's relation to modernity and its significance and relevance to literature film law philosophy architecture religion and modern cultural studies The volume also includes a useful guide to further reading and a chronology This is an essential aid for students and teachers from a range of disciplines interested in postmodernism in all its incarnations Accessible and comprehensive this Companion addresses the many issues surrounding this elusive enigmatic and often controversial topic **Toward a Priestly Christology** Adriani Milli Rodrigues,2018-11-02 Toward a Priestly Christology is a constructive theology on the person and work of Christ from the standpoint of a systematic thinking about his priesthood This priesthood is usually discussed in biblical scholarship on the Christology of Hebrews and also explored in historical or systematic theology with its connections with soteriology and ecclesiology However there is a scarcity of studies that attempt to systematize this topic in its basic components and their ontological foundations in order to provide conceptual clarity for a constructive discussion of the priestly Christology in systematic theology The book makes a contribution to this discussion by engaging firstly with the main models of Christ's priesthood in Christian theology and then with a theological reading of the letter to the Hebrews In both steps the author conceptually articulates the priesthood in terms of need agent actions and goal Then he observes the conceptual articulation from the macro hermeneutical point of view of ontology especially noticing how assumptions on time and space impact the internal logic of Christ's priesthood By using existing models of this priesthood as heuristic tools for systematic thinking the work attempts to push Christian theology toward a more dynamic understanding of Christ's priesthood especially regarding the relationship between the ascended Christ and our Christian life **The Word Became Flesh** David Graham Griffin,2016-05-16 Is following Jesus natural Many would say no but this book argues yes Saying no suggests that grace and human nature are alternate moral

categories Saying yes implies that our humanity is gracious in origin capacity and intent Much of this discussion hangs on what is meant by nature and natural and this book explores these ideas creationly and christologically Part One considers natural law as commonly found in the classical Christian tradition Part Two explores the radical christological tradition of Anabaptism Part Three then proposes the two nature christology of the Chalcedonian definition as a theological resource enabling their reconciliation The Chalcedonianism of the modern Barth and the ancient Maximus the Confessor are appropriated along with scientific theology of T F Torrance and Nancey Murphy If Chalcedon correctly affirms Jesus s humanity as being homoousios one nature with our humanity created like Adam s through the eternal Spirit then Jesus s life was natural proper to its created intent And as his divine nature was homoousios with the Father s nature he is the human expression of the divine Word which gives creation its contingent moral rationality As such the life of Jesus Anabaptists concern is morally normative for all humanity natural law s concern

Relating Faith Robert Knowles,2014-03-01 This stimulating book contains a selection of reflections that aim to encourage us to approach issues in the church and in life increasingly through engagement with the biblical texts The author argues that Western Christians are often starved of biblical content in their local church contexts He believes that the Bible is indispensable to building Christian and church identity thought and life and that the biblical texts brought to life by the Holy Spirit themselves play a central role in Christian formation In this way Robert Knowles locates biblical formation squarely at the centre of our relationships with God and with each other

COMMENDATIONS Rob s gift to the Church is to communicate rich theological truth in profoundly relational ways with the Scriptures at the centre Those who want more and know there s more but just don t know where to look would find in Rob s work a goldmine of wisdom and Christ is the fount of it all Rev d Richard Matcham Minister of Barton Baptist Church Torquay I am glad to commend this book It combines such technical sounding topics as speech act theory and postmodernism with very practical issues in bible study and the Christian life Dr Knowles has shown that these are down to earth tools and issues which can be of practical use in everyday Christian discipleship Issues such as that of church leadership are also raised in a practical way Anthony C Thiselton Emeritus Professor of Christian Theology University of Nottingham Rob Knowles is one of those people who has had a massive influence on my life and ministry his work is always thoughtful challenging and very helpful Rob always seeks to be thoroughly biblical and he s never one to duck the tough questions or offer easy platitudes I thoroughly recommend this volume as one which will help you significantly in your life and ministry Rev d Ted Fell Vicar of All Saints Anglican Church Kings Cross London

Stories of the Middle Space Deborah C. Bowen,2010-04-19 Highlighting the wide variety of ethical concerns considered by writers such as Timothy Findley Thomas King Carol Shields Julian Barnes A S Byatt and Salman Rushdie Deborah Bowen makes the case for a new category of postmodern realism and shows how contemporary stories about the real and the good are constructed Applying theoretical insights from Emmanuel Levinas and Mikhail Bakhtin Bowen investigates categories of postmodern realism such

as magic realism parody and metafiction while laying the groundwork for Christian readings of a medium that is often perceived as largely irreligious An illuminating study of well known contemporary writers *Stories of the Middle Space* is a critically nuanced and methodologically innovative work that reads the postmodern from a faith based perspectives to create new literary insights *Ecclesiastes (Baker Commentary on the Old Testament Wisdom and Psalms)* Craig G.

Bartholomew,2009-06-01 Respected Old Testament scholar Craig Bartholomew coauthor of the well received *Drama of Scripture* provides a careful exegetical reading of *Ecclesiastes* in this addition to the Baker Commentary on the Old Testament Wisdom and Psalms series Along with helpful translation and commentary *Ecclesiastes* considers the theological implications of the text and its literary historical and grammatical dimensions Footnotes deal with many of the technical matters allowing readers of varying levels of interest and training to read and profit from the commentary and to engage the biblical text at an appropriate level Pastors teachers and all serious students of the Bible will find here an accessible commentary that will serve as an excellent resource for their study *The Hebrew Bible and Philosophy of Religion* Jaco Gericke,2012-11-01 This study pioneers the use of philosophy of religion in the study of the Hebrew Bible After identifying the need for a legitimate philosophical approach to Israelite religion the volume traces the history of interdisciplinary relations and shows how descriptive varieties of philosophy of religion can aid the clarification of the Hebrew Bible s own metaphysical epistemological and moral assumptions Two new interpretative methodologies are developed and subsequently applied through an introduction to what the biblical texts took for granted about the nature of religious language the concept of deity the properties of Yhwh the existence of gods religious epistemology and the relation between religion and morality

Introducing Biblical Hermeneutics Craig G. Bartholomew,2015-11-10 2016 Word Guild Award Academic category Honorable mention Grace Irwin Prize Renowned scholar Craig Bartholomew coauthor of the bestselling textbook *The Drama of Scripture* writes in his main area of expertise hermeneutics to help seminarians pursue a lifetime of biblical interpretation Integrating the latest research in theology philosophy and biblical studies this substantive hermeneutics textbook is robustly theological in its approach takes philosophical hermeneutics seriously keeps the focus throughout on the actual process of interpreting Scripture and argues that biblical interpretation should be centered in the context and service of the church an approach that helps us hear God s address today *The Logic of Intersubjectivity* Darren M. Slade,2020-08-27 To survey harsh criticisms against Brian Douglas McLaren 1956 readers gain the inaccurate impression that he is a heretical relativist who denies objective truth and logic While McLaren s inflammatory and provocative writing style is partly to blame this study also suspects that his critics base much of their analyses on only small portions of his overall corpus The result becomes a caricature of McLaren s actual philosophy of religion What is argued in this book is that McLaren s philosophy of religion suggests a faith based intersubjective relationship with the divine ought to result in an existential appropriation of Christ s religio ethical teachings When subjectively internalized this appropriation will lead to the assimilation of Jesus kingdom

priorities thereby transforming the believer's identity into one that actualizes Jesus' kingdom ideals. The hope of this book is that by tracing McLaren's philosophy of Christian religion, future researchers will not only be able to comprehend and perhaps empathize with McLaren's line of reasoning but they will also possess a more nuanced discernment of where they agree and disagree with his overall rationale.
