Simpson, 2014-04-23 Technology Time and the Conversations of Modernity takes as its impetus the idea that technology is an embodiment of our uneasiness with finitude Lorenzo Simpson argues that technology has succeeded in granting our wish to domesticate time He shows how this attitude affects our understanding of the meaning of action and our ability to discern meaning in our lives **The Postmodern Menace** Conrad Riker, 101-01-01 Are you struggling with the encroachment of postmodernism into nearly every aspect of our lives Are you tired of seeing the erosion of rationality and objective truth replaced by subjective experience and identity politics Look no further The Postmodern Menace is your ultimate guide to understanding the rise of postmodernism and its consequences on culture politics and daily life 1 Discover the origins of postmodernism and how it has infiltrated mainstream culture 2 Learn how postmodernism has eroded family values and contributed to the decline of traditional relationships 3 Uncover the ways in which postmodernism has been weaponized by radical leftists and populist movements 4 Explore the role of technology media and the internet in the development and spread of postmodern ideas 5 Delve into the impact of consumerism branding and advertising on shaping postmodern society 6 Uncover the phenomenon of identity politics and its relation to postmodernism critiquing the assumptions and consequences of such movements 7 Understand the relationship between the erosion of objective truth and the rise of subjective experience in postmodern culture 8 Get a deep dive into the feminist critique of postmodernism and the divide between liberal feminists and those adopting postmodern perspectives If you want to understand the pervasive and insidious effects of postmodernism and how to resist its pull The Postmodern Menace is the book for you Don't wait buy it today

**The Postmodern Presence** Arthur Asa Berger, 1998 Instead of summing up the various perspectives of scholars and the variety of ideas to which the term postmodernism has been assigned this text lets this diversity speak for itself By bringing together articles and essays on the impact of the postmodern temper on an eclectic range of subjects Berger presents a few of the many ways different theorists have come to terms with postmodernism while examining manifestations of postmodernism in the culture of everyday life [Beyond Postmodernism](#) Klaus Stierstorfer, 2012-05-02 After the veritable hype concerning postmodernism in the 1980s and early 1990s when questions about when it began what it means and which texts it comprises were apt to trigger heated discussions the excitement has notably cooled down at the turn of the century Voices are now beginning to be heard which seem to suggest a new episteme in the making which points beyond postmodernism while it remains at the same time very uncertain whether what appears as newness is not rather a return to traditional concepts theoretical premises and authorial practices Contributors to this volume propose to explore new openings and recent developments in anglophone literatures and cultural theories which engage with issues seen to be

central in the construction of a postmodern paradigm but deal with them in ways that promise new openings or a new Zeitgeist

gospel to a culture grappling with postmodernism We must understand our times Then through the power that Christ gives we can counter the prevailing culture and proclaim His sufficiency to our society's very points of need

**Postmodern/drama** Stephen Watt, 1998 Scrutinizing the critical tendency to label texts or writers as postmodern scholar Stephen Watt argues that reading post modernly merely implies reading culture more broadly In contemporary drama Watt considers postmodernity less a question of genre or media than a mode of subjectivity shared by both playwright and audience 6 illustrations

**The McDonaldization Thesis** George Ritzer, 1998-02-17 In this major new book the author of the bestselling McDonaldization of Society provides an exploration of one of the most innovative and imaginative sociological theses of the last decade of the twentieth century McDonaldization

Part One centres on a discussion of Karl Mannheim's theory of rationalization. The author also assesses the degree to which sociology in general and sociological theory in particular have been McDonaldized. The second part demonstrates the empirical reach of the McDonaldization process with discussions on work, credit and globalization. Part Three moves beyond McDonaldization to the worlds of new means of consumption and the postmodern perspectives that best illuminate them. The author: *The Postmodern Turn* Steven Best, Douglas Kellner, 1997-01-01. This book presents a groundbreaking analysis of the emergence of a postmodern paradigm in theory, the arts, science and politics. From the authors of *Postmodern Theory*, the much acclaimed introduction to key postmodern thinkers and themes. *The Postmodern Turn* ranges over diverse intellectual and artistic terrain from architecture, painting, literature, music and politics to the physical and biological sciences. Critically engaging postmodern theory and culture. Steven Best and Douglas Kellner illuminate our momentous transition between a modernist past and a future struggling to define itself.

**Ethics and Desire in the Wake of Postmodernism** Graham Matthews, 2012-04-26. What is the significance of writing in the wake of postmodernism? The previous decade has seen a growing interest in criticism of postmodern ethics and aesthetics from theorists and writers. This book begins to answer what art form or critical methodology might take its place. Exploring the work of six contemporary novelists: Bret Easton Ellis, J.G. Ballard, Will Self, Michel Houellebecq, Tama Janowitz and Chuck Palahniuk. *Ethics and Desire in the Wake of Postmodernism* delivers a series of interventions into six key areas of contemporary debate: fear, nihilism, revolution, ethics, enjoyment and feminism. The book goes on to develop an innovative critical methodology which reinvigorates the ability of art and literature to engage in ideological critique. Rather than valorising separatism, plurality or indeterminacy, this approach delivers a critical framework which enacts a radical de-centering of the fundamental coordinates of contemporary society.

**Virtual Globalization** David Holmes, 2002-11. This book examines the interrelationship between telecommunications and tourism in shaping the nature of space, place and the urban at the end of the twentieth century. They discuss how these agents are instrumental in the production of homogenous world spaces and how these in turn presuppose new kinds of political and cultural identity. This work will be of essential interest to scholars and students in the fields of sociology, geography, cultural studies and media studies.
