Postmodernism And Society:

Modern/Postmodern Peter V. Zima, 2010-08-05 Modern Postmodern Society Philosophy Literature offers new definitions of modernism and postmodernism by presenting an original theoretical system of thought that explains the differences between these two key movements Taking a contrastive approach Peter V Zima identifies three key concepts in the relationship between modernism and postmodernism ambiguity ambivalence and indifference Zima defines modernism and postmodernism as problematics as opposed to aesthetics stylistics or ideologies Unlike modernism which is grounded in an increasing ambivalence towards social norms and values postmodernity is presented as an era of indifference i e of interchangeable norms values and perspectives Taking an historical interdisciplinary and intercultural approach that engages with Anglo American and European debates the book describes the transition from late modernist ambivalence to postmodern indifference in the contexts of philosophy literature and sociology This is the ideal guide to the relationship between modernism and postmodernism for students and scholars throughout the humanities Postmodernism And Society Roy Boyne, Ali Rattansi, 2017-03-01 Neither a manifesto nor a one sided critique this new book introduces a number of original essays exploring various aspects of that contemporary cultural phenomenon named postmodernism These essays are prefaced by an introductory essay which sets out the major lines of a debate which is about nothing less than the current shape and future prospects of our society **Theories of Modernity and Postmodernity** Bryan S. Turner, 1990 This book encapsulates the recent debate on the concepts of modernity and postmodernity Arguments over modernism and its aftermath are traced to their origins in art architecture and literature The authors then focus on the contribution of sociology to this cultural dispute through the theories of Weber Simmel Habermas Lyotard and Baudrillard Throughout Theories of Modernity and Postmodernity demonstrates the connections between traditional problems of sociological theory and the contemporary debate around modernity **The Postmodern Presence** Arthur Asa Berger, 1998 Instead of summing up the various perspectives of scholars and the variety of ideas to which the term postmodernism has been assigned this text lets this diversity speak for itself By bringing together articles and essays on the impact of the postmodern temper on an eclectic range of subjects Berger presents a few of the many ways different theorists have come to terms with postmodernism while examining manifestations of postmodernism in the culture of everyday life **Images of Postmodern Society** Norman K Denzin, 1991-09-26 By using a series of studies of contemporary mainstream Hollywood movies Blue Velvet Wall Street Crimes and Misdemeanors When Harry Met Sally sex lies and videotape Do the Right Thing Norman K Denzin explores the tension between ideas of the postmodern and traditional ways of analyzing society The discussion moves between two forms of text social theory and cinematic representations of contemporary life Denzin analyzes the ideas of society embedded in poststructuralism postmodernism feminism cultural studies and Marxism through the ideas of key theorists Mills Baudrillard Barthes Habermas Jameson Bourdieu Derrida and others He relates these ideas to the problematic of the postmodern self as

e *Postmodernism and Society* Roy Boyne, Neither a manifesto nor a one sided critique this new book introduces a number of original essays exploring various aspects of that contemporary cultural phenomenon named postmodernism These essays are prefaced by an introductory essay which sets out the major lines of a debate which is about nothing less than the current shape and future prospects of our society *Consumer Culture and Postmodernism* Mike Featherstone, 1990-12-07 Implicit within claims that society itself is in some sense postmodern is an argument about the priority of consumption as a determinant of everyday life In this view mass media advertising and market dynamics lead to a constant search for new fashions new styles new sensations and experiences Material goods are consumed as communicators they are valued as signifiers of taste and of lifestyle This volume examines the viability of this portrait of contemporary society Mike Featherstone explores the roots of consumer culture how it is defined and differentiated and the extent to which it represents the arrival of a postmodern world He examines the theories of consumption and postmodernism among contemporary social theorists such as Bourdieu Baudrillard Lyotard and Jameson and relates these to the actual nature of contemporary consumer culture *Postmodernism and Organizations* John Hassard Martin Parker, 1993-07-13 Essential reading for all those concerned with contemporary theorizing of organization this important and thought provoking volume explores the implications of postmodernist poststructuralist thinking for organizations and organizational analysis The book introduces the concepts underpinning a postmodern organizational analysis contrasting modern and postmodern forms of explanation and addressing the distinctions between postmodernity and postmodernism Succeeding chapters then examine and assess the interplay of major postmodernist themes such as deconstruction desire difference pluralism and relativism with key topics of organizational analysis and research The final section is one of critique as its authors variously argue that postmodernism fails adequately to address the realities of power control and change in a globalizing world *International Postmodernism* Johannes Willem Bertens, Hans Bertens, Douwe Fokkema, 1997 Containing more than fifty essays by major literary scholars International Postmodernism divides into four main sections The volume starts off with a section of eight introductory studies dealing with the subject from different points of view followed by a section that deals with postmodernism in other arts than literature while a third section discusses renovations of narrative genres and other strategies and devices in postmodernist writing The final and fourth section deals with the reception and processing of postmodernism in different parts of the world Three important aspects add to the special character of International Postmodernism The consistent distinction between postmodernity and postmodernism equal attention to the making and diffusion of postmodernism and the workings of literature in general and the focus on the text and the reader i e the reader s knowledge experience interests and competence as crucial factors in text interpretation This comprehensive study does not expressly focus on American postmodernism although American interpretations of postmodernism are a major point of reference The recognition that varying literary and cultural conditions in this world are bound to produce endless varieties of

postmodernism made the editors Hans Bertens and Douwe Fokkema opt for the title International Postmodernism
