Women and the Material Culture of Death Beth Fowkes Tobin, 2017-07-05 Examining the compelling and often poignant connection between women and the material culture of death this collection focuses on the objects women make the images they keep the practices they use or are responsible for and the places they inhabit and construct through ritual and custom Women's material practices ranging from wearing mourning jewelry to dressing the dead stitching memorial samplers to constructing skull boxes collecting funeral programs to collecting and studying diseased hearts making and collecting taxidermies and making sculptures honoring the dead are explored in this collection as well as women's affective responses and sentimental labor that mark their expected and unexpected participation in the social practices surrounding death and the dead The largely invisible work involved in commemorating and constructing narratives and memorials about the dead from family members and friends to national figures calls attention to the role women as memory keepers for families local communities and the nation Women have tended to work collaboratively making collecting and sharing objects that conveyed sentiments about the deceased whether human or animal as well as the identity of mourners Death is about loss and many of the mourning practices that women have traditionally and are currently engaged in are about dealing with private grief and public loss as well as working to mitigate the more general anxiety that death engenders

about the impermanence of life **Widow's Weeds and Weeping Veils** Bernadette Loeffel-Atkins, 2012-04-01 During the 19th century death shadowed daily life A high infant mortality rate poor sanitation risk during childbirth poisons ignorance and war kept 19th century Americans busy practicing the ritual of mourning The Victorian era in both Europe and America saw these rituals elevated to an art form expressing not only grief but also religious feeling social obligation and even mourning fashion Complete with period illustrations *Widow's Weeds and Weeping Veils* explores how Victorians viewed death and dying as a result of the profound historical events of their time This concise informative work is ideal for students of Victorian era culture and Civil War enthusiasts *Pleasure Grounds of Death* Joy M. Giguere, 2024 Rural cemeteries named for their expansive picturesque landscape design rather than location were established during the middle decades of the nineteenth century in the United States An instant cultural phenomenon Mount Auburn Cemetery in Cambridge Massachusetts was the nation's first such burial ground to combine the functions of the public park and the cemetery becoming a popular place to picnic and go for strolls even for people who didn't have graves to visit It sparked a nationwide movement in which communities sought to establish their own cities of the dead *Pleasure Grounds of Death* considers the history of the rural cemetery in the United States throughout the duration of the nineteenth century as not only a critical cultural institution embedded in the formation of community and national identities but also as major sites of contest over matters of burial reform taste and respectability and public behavior issues concerning race class and gender conflicts over the burial of the Civil War dead and formation of postwar memory and what constituted the most appropriate ways to structure the landscape of the dead in a modern and progressive society As cultural landscapes that served the needs of the living as well as the dead rural cemeteries offer a mirror for the transformations and conflicts taking place throughout the nineteenth century in American society *Gone to the Grave* Abby Burnett, 2015-04-03 Before there was a death care industry where professional funeral directors offered embalming and other services residents of the Arkansas Ozarks and for that matter people throughout the South buried their own dead Every part of the complicated labor intensive process was handled within the deceased's community This process included preparation of the body for burial making a wooden coffin digging the grave and overseeing the burial ceremony as well as observing a wide variety of customs and superstitions These traditions especially in rural communities remained the norm up through the end of World War II after which a variety of factors primarily the loss of manpower and the rise of the funeral industry brought about the end of most customs *Gone to the Grave* a meticulous autopsy of this now vanished way of life and death documents mourning and practical rituals through interviews diaries and reminiscences obituaries and a wide variety of other sources Abby Burnett covers attempts to stave off death passings that for various reasons could not be mourned according to tradition factors contributing to high maternal and infant mortality and the ways in which loss was expressed through obituaries and epitaphs A concluding chapter examines early undertaking practices and the many angles funeral industry professionals worked to convince the public of

the need for their services **The Culture and Art of Death in 19th Century America** D. Tulla Lightfoot,2019-02-21
 Nineteenth century Victorian era mourning rituals long and elaborate public funerals the wearing of lavishly somber mourning clothes and families posing for portraits with deceased loved ones are often depicted as bizarre or scary But behind many such customs were rational or spiritual meanings This book offers an in depth explanation at how death affected American society and the creative ways in which people responded to it The author discusses such topics as mediums as performance artists and postmortem painters and photographers and draws a connection between death and the emergence of three dimensional media **Mount Calvary Cemetery** C. L. Miller,2008 Mount Calvary Cemetery s 40 acres of sprawling land has been the final resting place of prominent citizens religious figures and even the notorious for over 142 years Many of those interred here were Catholic immigrants that settled in Columbus long before it became the city of a million people They built homes established businesses and sought a higher level of education becoming lawyers politicians doctors and businessmen One became the voice of the 1920s and several streets throughout the city were named after others For every image carved in majestic stone or simple marker engraved with a name and date there is the untold story of an individual who made Columbus the great city it is today The Silent Life of Things Alan Munton,Daniela Rogobete,Jonathan P. Sell,2015-11-25 The ever growing interest in the analysis of materiality has found its expression in many studies of objects and objecthood of things and thingness Combining cultural phenomenological semiotic and philosophical approaches this collection of eleven essays proposes a journey into the silent life of things into those aspects of materiality that are not immediately visible and require both increased attention and a sense of intuition It focuses on the subtle changes that materiality operates upon our subjectivity and upon our status as producers users possessors negotiators and manipulators of objects and analyses the ways in which materiality is constantly redefined by consumerism and the strategies it adopts in order to resist commodification In the process the collection explores different ways of deciphering what materiality in its reliable concreteness or its magical materialism tries to tell us all the silent stories that things accumulate while circulating among people societies and cultures the narratives they weave when amassed collected archived or transformed into cultural commodities the secrets they reveal when witnessing the gradual commodification of their owners of their bodies lives and souls The Silent Life of Things Representing and Reading Commodified Objecthood establishes a new paradigm for reading and interpreting commodified materiality and its participation in the establishment of a new aesthetics of consumerism *Markers* ,2002 **The Chicago Guide to Grammar, Usage, and Punctuation** Bryan A. Contesting British Chinese Culture Ashley Thorpe, Diana Yeh, 2018-09-18 This is the first text to address British Chinese culture It explores British Chinese cultural politics in terms of national and international debates on the Chinese diaspora race multicultural identity and belonging and transnational Chineseness Collectively the essays look at how notions of British Chinese culture have been constructed and challenged in the visual arts theatre and performance and film since the mid 1980s They contest British Chinese invisibility showing how practice is not only heterogeneous but is forged through shifting historical and political contexts continued racialization the currency of Orientalist stereotypes and the possibility of their subversion the policies of institutions and their funding strategies and dynamic relationships with transnationalisms The book brings a fresh perspective that makes both an empirical and theoretical contribution to the study of race and cultural production whilst critically interrogating the very notion of British Chineseness
