Postnatal Illness

Robert Duffy

Postnatal Illness:

Postnatal Depression Robert Duffy, 2020-07-27 Half of all Western women suffer from the baby blues this is fairly common and usually occurs during the first week following the birth and may only last a day Postnatal depression on the other hand is experienced by 1 in 10 women within the first few weeks of giving birth It can last for up to a year after the baby has been born and can be treated in a variety of ways Written by someone with first hand experience of postnatal depression this book aims to be authoritative comforting and hopeful It will focus on coping strategies for day to day life how to approach your treatment and where to find support Each chapter is standalone so readers can dip in and out making it useful for partners and family members as well The Essential Guide to Postnatal Depression will include case studies from women who have overcome postnatal depression partners accounts of the condition and input from health professionals who have specialist knowledge of postnatal depression The important thing to remember is that postnatal depression is a temporary illness this book aims to help families struggling with postnatal depression by giving them the information and support to rise above the illness and create a balanced and happy homelife

Maternal Distress and Postnatal Depression Jane Littlewood, Nessa McHugh, 1997-11-11 Written by a social psychologist and a midwife this book moves beyond the conventional medical approach to emotional problems following childbirth It examines the range of potential causes of maternal distress and postnatal depression and puts forward suggestions for a practical multidisciplinary and woman centred response The personal cost to women of postnatal depression is highlighted by the use of case history material and the Appendices offer a wealth of information on resources and avenues for help

Antenatal And Postnatal Depression Siobhan Curham, 2012-04-24 Pregnancy is often assumed to be a happy time in a woman's life The prospect of having a baby together with the bloom of pregnancy all combine to a general feeling of excitement and fulfillment But it isn't always like this It is estimated that approximately 1 in 10 mothers suffer from antenatal depression where uncontrollable crying fits mood swings and irrational fears dominate their pregnancy And it doesn't just affect the mother recent research has shown that antenatal depression can affect the fetus in some cases causing low birth weight and premature delivery Recent research has also shown that as many as a third of antenatal cases then go on to suffer from postnatal depression which in itself affects 10 per cent of all new mothers Antenatal and Postnatal Depression is a much needed handbook for all mothers who suffer from ante and or postnatal depression reassuring sufferers that they are not alone It looks into the possible causes offers practical advice and support and contains a Foreword by the Director of the Fetal and Neonatal Stress Research Centre at Queen Charlotte's Hospital Dr Vivette Glover

[The Compassionate Mind Approach To Postnatal Depression](#) Michelle Cree, 2015-08-03 It is well known that having a baby can be a time of joy but also one of anxiety and even depression for new mothers Indeed it is very common for new mothers to experience a short period of distress following childbirth often referred to as baby blues Usually this passes quite quickly however for more than 1 in 10 women this

distressing experience can be more prolonged This practical self help book based on Compassion Focused Therapy will help women to recognise some of the symptoms and where appropriate to normalise them thereby alleviating their distress It will also guide mothers to be and new mothers through the maze of confusing feelings that can arise Not only will this book cover the basic experiences and symptoms associated with anxiety and depression and childbirth an evolutionary model of why this occurs and an outline of the basic Compassionate Mind model it will guide the reader through a series of exercises that they can use for themselves to develop their compassionate mind and work on their difficulties *Stigma's Impact on People*

With Mental Illness: Advances in Understanding, Management, and Prevention Leandro Fernandes Malloy-Diniz, Antônio Geraldo da Silva, Alexandre Paim Diaz, Milton Wainberg, Alexandre Andrade Loch, Antonio Palha, 2021-09-13 **Motherhood and Postnatal Depression** Carolyn Westall, Pranee Liamputtong, 2011-07-21 Globally postnatal depression PND is a growing public health problem PND affects 10 to 15% of women in Western society It caused by a combination of biological psychological and social factors Two models have attempted to define and explain PND the biomedical and the sociological models The traditional biomedical model views PND as a medical condition which implies there is individual pathology and abnormality Whilst the biomedical model has been the dominant model in treating PND it has been criticized by feminist sociologists and psychologists for its rigidity in defining and explaining PND In contrast the psychosocial model of health acknowledges the biological factors that impact on emotional well being but places more emphasis on the personal and social factors that impact on emotional well being but places more emphasis on the personal and social factors that contribute to depressive symptoms such as gender poverty social disadvantage and social class The central argument throughout this book is the importance of support before and after the birth for women s emotional well being This book will also include women s journeys through pregnancy childbirth motherhood postnatal depression and resolution To date literature has focused on women s lived experiences of PND rather than their personal journeys through pregnancy childbirth and early motherhood Additionally the adjustment to fatherhood has received less attention For example little is known about the impact of postnatal depression on the partner what support partners offer when women with the intention to fill the gap in knowledge of cultural and social issues relating to pregnancy childbirth and motherhood for woman who were diagnosed with and had resolved PND *Anatomy and Physiology for Midwives* Jane Coad, Melvyn Dunstall, 2005-01-01 Aimed directly at midwives *Anatomy and Physiology for Midwives* Second Edition provides a thorough grounding in the structure and functions of the human body associated with childbearing birth and postnatal care This new edition has a fully revised section on how this knowledge can be applied to practice and includes cutting edge information on reproductive cycles and sexual differentiation and behaviour Clear language and illustrations ensure complete understanding and effective learning This text will be invaluable to both practising midwives and midwifery students Book Jacket **Postnatal Depression (The National Childbirth Trust)** Heather Welford, 2016-11-24 A sensitive and practical look at all types of postnatal depression and what

you can do about it Psychopharmacology and Pregnancy Megan Galbally, Martien Snellen, Andrew Lewis, 2014-06-14 This book examines the role of psychopharmacological treatment in a range of disorders that may be encountered during pregnancy including major depressive disorders anxiety disorders bipolar affective disorder schizophrenia eating disorders and substance abuse The natural history of each condition pre and post partum is analyzed and the evidence for the efficacy of drug treatments evaluated Special attention is paid to the potential dangers of different treatment options for both mother and fetus covering risks of malformation pregnancy and obstetric risks neonatal risks and possible long term consequences The risks of not treating a particular condition are also analyzed On the basis of the available evidence management guidelines are provided that additionally take into account non pharmacological options Closing chapters consider the value of complementary and alternative medicine and ECT and explore future research directions Neurological Diseases and Pregnancy Emma Ciafaloni MD, FAAN, FANA, Lorelei L. Thornburg MD, Cheryl D. Bushnell MD, 2018-05-02 For a woman of reproductive age any medical appointment is a pre conception visit and an opportunity to address pre existing conditions that affect pregnancy and the maternal fetal dyad However many neurologic conditions are rarely seen in pregnancy and limited experience and knowledge may prevent the team from developing a shared approach to these complex conditions during pregnancy Neurological Diseases and Pregnancy A Coordinated Care Model for Best Management brings together experts across the disciplines of maternal fetal medicine neurology obstetrics family planning genetics anesthesia psychiatry neurosurgery and lactation to provide a multi disciplinary comprehensive protocol driven guide on best care for patients with neurologic disease before during and after pregnancy Each chapter provides a detailed care map on each unique disorder and discusses the use of neurological medications during pregnancy and in lactation Through this multi disciplinary approach clinicians can navigate the complexities of preconception and pregnancy care and help to optimize outcomes for the mother infant dyad Beyond pregnancy care this volume further serves as a resource on best care for the life course of women affected by neurologic disease including pre pregnancy planning genetic counseling contraception and sexuality in neurologic disease as well as post partum depression and menopausal neurologic changes **Postpartum Depression** Jennie P. Hunt, 1992 **Screening for Perinatal Depression** Carol Henshaw, Sandra Elliott, 2005-04-29 This much needed text provides guidance for health care professionals on the issues and controversies surrounding screening and on good practice in the use of screening tests The role of the UK National Screening Committee is explored along with the problems faced when implementing screening programmes in developing countries **New Research on Postpartum Depression** Adrian I. Rosenfield, 2007 Postpartum depression affects 10 15 percent of women any time from a month to a year after childbirth Women with postpartum depression may feel restless anxious sad or depressed They may have feelings of guilt decreased energy and motivation and a sense of worthlessness They may also have sleep difficulties and undergo unexplained weight loss or gain Some mothers may worry about hurting themselves or their baby In extremely rare cases

less than 1 percent of new mothers women may develop something called postpartum psychosis It usually occurs within the first few weeks after delivery Symptoms may include refusing to eat frantic energy sleep disturbance paranoia and irrational thoughts Women with postpartum psychosis usually need to be hospitalised
