International Politics, 1956 Japan's Foreign Policy, 1945-2009 Kazuhiko Tōgō, 2010 This book stands out amongst the crop of textbooks on Japanese foreign policy that have been available to date because of its authoritative insider voice Here we not only learn what happened in postwar Japan's foreign policy but what the thinking was behind these decisions This is an invaluable element that brings the reader inside the policy making rooms of the Ministry of Foreign Affairs itself In

the process Japan's world view and its own self image are concurrently revealed in fascinating and unexpected ways This book destroys stereotypes and vastly improves the quality of our understanding of Japan as an international player We are spoiled by the wisdom and experience of not just one but three major forces in the shaping of Japan's international existence Mr Togo's own formidable experience plus the seminal contributions of his father and grandfather who was instrumental in the closing phases of World War II All of this makes this book indispensable to those who wish to truly understand Japan in her own terms and through her own eyes Rikki Kersten Professor Modern Japanese Political History Australian National University Ambassador Togo's distinctive account of Japanese foreign policy highlights the impact of the vacuum left by the humiliation of defeat in 1945 It bears witness to the intellectual and diplomatic challenge of finding answers to unresolved issues including managing the U S alliance and enhancing cooperation in Asia Updated to cover the results of the 2009 victory of the Democratic Party of Japan this book shows how its change of course fits into a long term narrative In contrast to more impersonal often unsympathetic analysis of Western authors and the self serving writing of many Japanese Togo offers a guide to Japan's quest not a defense of its choices The result is a wide ranging look at foreign policy over more than 60 years seen from the perspective of an insider attentive to a proud nation's search for its bearings Gilbert Rozman
