Bowker's Complete Video Directory, 2000 **Variety's Complete Home Video Directory**, 1989 **Postwar Continuity and New Challenges in Central Europe, 1918-1923** Tomasz Pudłocki, Kamil Ruszała, 2021-09-30 This book presents a multi layered analysis of the situation in Central Europe after the collapse of the Austro Hungarian Empire The new geopolitics emerging from the Versailles order and at the same time ongoing fights for borders considerable war damage social and economic problems and replacement of administrative staff as well as leaders all contributed to the fact that unlike Western Europe Central Europe faced challenges and dilemmas on an unprecedented scale The editors of this book have invited authors from over a dozen academic institutions to answer the question of to what extent the solutions applied in the Habsburg Monarchy were still practiced in the newly created nation states and to what extent these new political organisms went their own ways It offers a closer look at Central Europe with its multiple problems typical of that region after 1918 organizing the post imperial space a new political discourse and attempts to create new national memories the role of national minorities solving social problems and verbal and physical violence expressed in public space Particular chapters concern post 1918 Central Europe on the local state and international levels providing a comprehensive view of this sub region between 1918 and 1923 *Post-war Economic Policy and Planning: Financial problems of the transitional period* United States. Congress. House. Special Committee on Post-War Economic Policy and Planning, 1944 **Israel Yearbook on Human Rights, Volume 1 (1971)** Yoram Dinstein, 1989-05-01 The Israel Yearbook on Human Rights an annual published under the auspices of the Faculty of Law of Tel Aviv University since 1971 is devoted to publishing studies by distinguished scholars in Israel and other countries on human rights in peace and war with particular emphasis on problems relevant to the State of Israel and the Jewish people The Yearbook also incorporates documentary materials relating to Israel and the Administered Areas which are not otherwise available in English including summaries of judicial decisions compilations of legislative enactments and military proclamations The Articles section of Volume 33 contains articles on Legal Aspects of Emergency Regimes [The US Air Force after Vietnam : postwar challenges and potential for responses](#) Donald J. Mrozek, 2001 This book probes various groups of Americans as they come to grips with the consequences of the Vietnam War Dr Mrozek examines several areas of concern facing the United States Air Force and the other services in varying degrees in the years after Vietnam *The Problem of Democracy in Postwar Europe* Pepijn Corduwener, 2016-08-25 The current perception of democratic crisis in Western Europe gives a renewed urgency to a new perspective on the way democracy was reconstructed after World War II and the principles that underpinned its postwar transformation This study accounts for the formation of the postwar democratic order in Western Europe by studying how the main political actors in France West Germany and Italy conceptualized democracy and strove over its meaning Based upon a wide range of librarian and archival sources from these countries it tracks changing conceptions of democracy among leading politicians political

parties and leaders of social movements and unveils how they were deeply divided over key principles of postwar democracy such as the political party the free market economy representation and civic participation By comparing three national debates on the question what democracy meant and how it should be institutionalized and practiced this study argues that only in the 1970s conceptions of democracy converged and key political actors accepted each other as democrats with similar conceptions of democracy This study thereby deconstructs the myth of the quick emergence of one consensual Western European model of democracy after 1945 demonstrates that its formation was a long and contentious process in which national differences were often of crucial importance and contributes to an enhanced understanding of the historical roots of the current sentiment of democratic crisis *Comparing Post War Japanese and Finnish Economies and Societies* Yasushi Tanaka,Toshiaki Tamaki,Jari Ojala,Jari Eloranta,2014-11-13 This book compares two countries with striking parallels in economic and political outcomes yet with some distinct features in terms of institutional structures relative size and culture Therefore this book forms a fruitful platform for the study of the similarities and differences in the economic and societal development of Japan and Finland Despite their geographic distance from one another and the aforementioned differences both countries experienced rather similar economic and societal development patterns after the Second World War The study of these societies both individually and through commonalities will provide a unique perspective on the emergence of modern economies and institutions The book provides comprehensive coverage on issues such as welfare state formation and society security and military spending education system industrial development international trade governmental economic policies energy solutions and bubbles and their collapse thus issues typical for these countries as well as most modern states studied from a longitudinal perspective The book aims to answer a fundamental question in social science Why do there seem to be common trends and developmental paths among countries differing in size culture and economic structure This book will provide insights for those seeking to decipher how the developments in their own countries came about and where they may be headed to **Monthly Labor Review** ,1946 Publishes in depth articles on labor subjects current labor statistics information about current labor contracts and book reviews *National Resources Development: Wartime planning for war and post war* United States. National Resources Planning Board,1943 **Post-war Economic Policy and Planning: Problems of foreign trade and shipping** United States. Congress. House. Special Committee on Post-War Economic Policy and Planning,1944 *Post-War Business Planners in the United States, 1939-48* Charlie Whitham,2016-10-20 During the Second World War several independent business organizations in the US devoted considerable energy to formulating and advocating social and economic policy options for the US government for implementation after the war This planning community of far sighted businessmen joined with academics and government officials in a nationwide endeavor to ensure that the colossal levels of productivity achieved by the US during wartime continued into the peace At its core this effort was part of a wider struggle between liberals moderates and conservatives over determining the economic and social

responsibilities of government in the new post war order In this book Charlie Whitham draws on an abundance of unpublished primary material from private and public archives that includes the minutes memoranda policy statements and research studies of the major post war business planning organisations on a wide range of topics including monetary policy demobilization labor policy international trade and foreign affairs This is the untold story of how the post war business planners of all hues helped shape the moderate consensus which prevailed after 1945 over a permanent but limited government responsibility for fiscal welfare and labor affairs advanced American interests overseas and established

East Asia Beyond the History Wars Tessa Morris-Suzuki, Morris Low, Leonid Petrov, Timothy Y. Tsu, 2013-01-17 East Asia is now the world's economic powerhouse but ghosts of history continue to trouble relations between the key countries of the region particularly between Japan China and the two Koreas Unhappy legacies of Japan's military expansion in pre war Asia prompt on going calls for apologies while conflicts over ownership of cultural heritage cause friction between China and Korea and no peace treaty has ever been signed to conclude the Korean War For over a decade the region's governments and non government groups have sought to confront the ghosts of the past by developing paths to reconciliation Focusing particularly on popular culture and grassroots action East Asia beyond the History Wars explores these East Asian approaches to historical reconciliation This book examines how Korean historians from North and South exchange ideas about national history how Chinese film makers reframe their views of the war with Japan and how Japanese social activists develop grassroots reconciliation projects with counterparts from Korea and elsewhere As the volume's studies of museums monuments and memorials show East Asian public images of modern history are changing but change is fragile and uncertain This unfinished story of East Asia's search for historical reconciliation has important implications for the study of popular memory worldwide Presenting a fresh perspective on reconciliation which draws on both history and cultural studies this book will be welcomed by students and scholars working in the fields of Asian history Asian culture and society as well as those interested in war and memory studies more generally

Iconography Beyond the Crossroads Pamela A. Patton, Catherine A. Fernandez, 2023-03-23 This volume assesses how current approaches to iconology and iconography break new ground in understanding the signification and reception of medieval images both in their own time and in the modern world Framed by critical essays that apply explicitly historiographical and sociopolitical perspectives to key moments in the evolution of the field the volume's case studies focus on how iconographic meaning is shaped by factors such as medieval modes of dialectical thought the problem of representing time the movement of the viewer in space the fragmentation and injury of both image and subject and the complex strategy

of comparing distant cultural paradigms The contributions are linked by a commitment to understanding how medieval images made meaning to highlighting the heuristic value of new perspectives and methods in exploring the work of the image in both the Middle Ages and our own time and to recognizing how subtle entanglements between scholarship and society can provoke mutual and unexpected transformations in both Collectively the essays demonstrate the expansiveness flexibility and dynamism of iconographic studies as a scholarly field that is still heartily engaged in the challenge of its own remaking Along with the volume editors the contributors include Madeline H Caviness Beatrice Kitzinger Aden Kumler Christopher R Lakey Glenn Peers Jennifer Purtle and Elizabeth Sears **National Transportation Inquiry** United States. Congress. House. Committee on Interstate and Foreign Commerce, 1946 *Review of Petroleum Geology in 1945* Francis Maurice Van Tuyl, W. S. Levings, 1946 **Beyond the Broker State** Jonathan J. Bean, 2002-03-01 Focusing on anti chain store legislation beginning in the 1930s and on the establishment of federal small business agencies in the 1940s and 1950s Jonathan Bean analyzes public policy toward small business Beyond the Broker State challenges the long accepted definition of politics as the interplay of organized interest groups mediated by a broker state
