Kaledin,2000-09-30 Examine the everyday lives of ordinary Americans from the 1940s and 1950s and discover how very different the two decades were World War II affected Americans and the way they behaved not only in the 1940s but also in the years that followed when the depression that preceded the war was replaced with an economic boom Explore how women s roles and lives changed during these two very distinct decades how politics and political decisions impacted all walks of life and what the advent of growing technology much of it developed during the war meant to the general population What was it like to be a woman suddenly earning her own money while men were off fighting How did children and teenagers contribute to the war effort How did housing change in postwar America What pastimes were popular during these two decades and how did they reflect the times These questions and others are explored in detail encouraging students teachers and interested readers to recognize the tremendous shift in society between the war years and the atomic age that immediately followed This text presents the 1940s as a time of social problems that existed alongside community commitment to the war while the 1950s are presented as a time when exciting social change such as the beginning of the civil rights movement and the building of Levittowns occurred After the war ordinary people began to question long accepted ideas The exploration of these everyday details provides a rich look at two very important decades in our country s history **Literature**

Connections to American History K6 Lynda G. Adamson,1997-09-15 Identifying thousands of historical fiction novels biographies history trade books CD ROMs and videotapes this book helps you locate resources on American history for students Each book presents information in two sections In the first part titles are listed according to grade levels within eras and further organized according to product type The books cover American history from North America Before 1600 and The American Colonies 1600 1774 to The Mid Twentieth Century 1946 1975 and Since 1975 The second section has annotated bibliographies that describe each title and includes publication information and awards won The focus is on books published since 1990 and all have received at least one favorable review Some books with more illustration than text will be valuable for enticing slow or reticent readers An index helps users find resources by author title or biographical subject **Fashion**

from Victoria to the New Millennium, Second Edition Daniel Delis Hill,2023-12-01 This survey of EuroAmerican fashion and style includes a detailed thoroughly illustrated chronology of women s men s and children s dress since 1800 Each chapter covers in detail virtually all categories of clothing including day attire evening dress outerwear sportswear and swimwear undergarments sleepwear accessories footwear hats hairstyles and grooming and more Over 1 000 illustrations visually document the past 200 years of fashion and style Each era is introduced with an overview of the history and cultural developments that impacted modern fashion *Richard M. Nixon* Michael Schuman,1998 Richard M Nixon resigned early in

his second term rather than face Congressional impeachment over the Watergate scandal Controversy followed Richard Nixon He achieved victory in his first congressional campaign by falsely accusing his opponent of being a communist and as a Freshman congressman he gained fame by pursuing suspected communists in government He was Eisenhower s Vice President and won the Presidency in the midst of the turmoil over the war in Vietnam Although he established relations with Communist China during his administration a major accomplishment he continues to be known for the Watergate break in that destroyed his Presidency

Revolution in Europe, 1989 Patrick Burke,1995 Discusses recent events in Eastern Europe focusing on the decisive year that saw the fall of Communist governments in several countries

The Cinematography of Roger Corman Pawel Aleksandrowicz,2016-09-23 Roger Corman is an ambiguous artistic figure On the one hand he is notorious for shooting and producing his films quickly cheaply and with blatant disregard for safety measures which together with his ability to issue a dozen new films every year and his impressive filmography have earned him the titles of shlockmeister and the King of the B s among film journalists On the other hand he became the youngest American director to be given a film retrospective at the prestigious Cin mat que Fran aise in Paris one of his directorial efforts House of Usher was selected for preservation in the National Film Registry by the Library of Congress and the Academy of Motion Picture Arts and Sciences awarded him with an Academy Honorary Award for his rich engendering of films and filmmakers This book investigates this duality and explores whether Corman is indeed a shlockmeister or an artist whose works are worthy of the highest cinema awards The scope of analysis is limited to his directorial efforts only still encompassing 50 features excluding the 400 films he produced The methodology adopted here is based on the auteur theory in its structuralist version by Geoffrey Nowell Smith and Peter Wollen and focuses on three areas of interest work ethic personal elements in the films personal control over and commitment to the production process outside direction themes topics and concerns common for many of the films regardless of the genre and style recurring stylistic motifs and elements in the camerawork editing and framing

Cold War Kitchen Ruth Oldenziel, Karin Zachmann, 2011-01-21 The kitchen as political symbol and material reality in the cold war years Richard Nixon and Nikita Khrushchev s famous kitchen debate in 1958 involved more than the virtues of American appliances Both Nixon and Khrushchev recognized the political symbolism of the modern kitchen the kind of technological innovation represented in this everyday context spoke to the political system that produced it The kitchen connects the big politics of politicians and statesmen to the small politics of users and interest groups Cold War Kitchen looks at the kitchen as material object and symbol considering the politics and the practices of one of the most famous technological icons of the twentieth century Defining the kitchen as a complex technological artifact as important as computers cars and nuclear missiles the book examines the ways in which a range of social actors in Europe shaped the kitchen as both ideological construct and material practice These actors from manufacturers and modernist architects to housing reformers and feminists constructed and domesticated the technological innovations of the postwar kitchen The home became a mediation junction in which women

users and others felt free to advise producers from the consumer's point of view. In essays illustrated by striking period photographs the contributors to Cold War Kitchen consider such topics as Soviet consumers' ambivalent responses to the American dream kitchen argued over by Nixon and Khrushchev; the Frankfurter Kitchen, a European modernist kitchen of the interwar period and its export to Turkey when its designer fled the Nazis; and the British state subsidized kitchen design so innovative that it was mistaken for a luxury American product. The concluding essays challenge the received wisdom of past interpretations of the kitchen debate.

The Cooperstown Symposium on Baseball and American Culture, 2001 William M. Simons, 2002-04-15 This is an anthology of 23 papers that were presented at the Thirteenth Cooperstown Symposium on Baseball and American Culture held June 6-8 2001 and co-sponsored by the State University of New York at Oneonta and the National Baseball Hall of Fame and Museum. Featuring keynote remarks from George Plimpton, author of *Home Run: The Best Writing About Baseball's Most Exciting Moment*, this Symposium examined such topics as baseball's myths, legends, and tall tales. These essays, divided into sections titled Mythic Heroes, Media Mythology, Myth and Mystery, and Myths in Progress, go beyond the quick and easy judgments of the media and offer instead the longer, more informed views of scholars and researchers.

V Bombers Tony Redding, 2024-05-02 A sobering and necessary read for all those interested in Cold War history. Much has been written about the V bombers, the Valiant, Victor, and Vulcan, but virtually nothing has been said about their strategic nuclear strike role. How would Britain's small force of subsonic bombers have retaliated following a Soviet attack? Would they have succeeded in visiting thermonuclear catastrophe on their Soviet targets? *V Bombers: Britain's Nuclear Frontline* is the first detailed account of the operational capability and credibility of Britain's airborne nuclear deterrent during the peak years of the Cold War. This book is the product of six years of research by the author, Dr. Tony Redding. It includes a great deal of fresh material on V force weapons, war mission, targeting, vulnerabilities, and tactics for attacking targets within Soviet Russia. Over 70 V force aircrew and ground crew were interviewed, and over 300 operational research reports and other official documents were reviewed. This book demonstrates how the V bombers retained a unilateral capacity to destroy the largest cities in the Soviet Union until the handover of the strategic nuclear deterrent to the Polaris submarines in 1969. It concludes that a small force of surviving V bombers could have unleashed the explosive power of all Allied bombs dropped on Germany in six years of war, but in the space of the first two hours of World War 3. A sobering thought and a fascinating and necessary read for all those interested in this period of history.
