The Outbreak of the Peloponnesian War Donald Kagan, 2013-01-14 The first volume of Donald Kagan's acclaimed four volume history of the Peloponnesian War offers a new evaluation of the origins and causes of the conflict based on evidence produced by modern scholarship and on a careful reconsideration of the ancient texts He focuses his study on the question Was the war inevitable or could it have been avoided Kagan takes issue with Thucydides' view that the war was inevitable that the rise of the Athenian Empire in a world with an existing rival power made a clash between the two a certainty Asserting instead that the origin of the war cannot without serious distortion be treated in isolation from the internal history of the states involved Kagan traces the connections between domestic politics constitutional organization and foreign affairs He further examines the evidence to see what decisions were made that led to war at each point asking whether a different decision would have been possible

City and Empire in the Age of the Successors Ryan Boehm, 2018-02-09 In the chaotic decades after the death of Alexander the Great the world of the Greek city state became deeply embroiled in the political struggles and unrelenting violence of his successors' contest for supremacy As these presumptive rulers turned to the practical reality of administering the disparate territories under their control they

increasingly developed new cities by merging smaller settlements into large urban agglomerations This practice of synoikism gave rise to many of the most important cities of the age initiated major shifts in patterns of settlement and consolidated numerous previously independent polities The result was the increasing transformation of the fragmented world of the small Greek polis into an urbanized network of cities Drawing on a wide array of archaeological epigraphic and textual evidence *City and Empire in the Age of the Successors* reinterprets the role of urbanization in the creation of the Hellenistic kingdoms and argues for the agency of local actors in the formation of these new imperial cities *The North Aegean Wars, 371-360 B.C* Julia Heskell, 1997 The basis of this book is Heskell's belief that Philip II's policies regarding Athens cannot be properly understood without a thorough investigation of the preceding events of the 360s and what Heskell describes as the hotbed of diplomatic and military activity that was the North Aegean in that period By making the region rather than the actions of any one power the central focus of the study Heskell aims to fill in the gaps left by previous writers on the subject *The Emory University Quarterly*, 1963 *The Homeric Hymn to Aphrodite* Andrew Faulkner, 2008-05-29 The Homeric Hymn to Aphrodite which tells of the seduction of the shepherd Anchises by the love goddess Aphrodite has long been recognized as a masterpiece of early Western literature This edition is designed as a reference tool to aid scholars and students in their study of the poem The introduction and commentary deal with points of language appropriate to the specialist or student of Greek but also with matters of literary interpretation of interest to the non specialist reader *C.P. Cavafy Historical Poems* J. Phillipson, 2013-08-02 Cavafy's Historical Poems is the first volume of a four book set constituting a study of the life and opus of this fascinating poet The second volume is an anecdotal life detailing Cavafy's home and its atmosphere the man the poet and his lifestyle the odes of his compatriot partisans the praises of his foreign admirers the barbs and insults of his critics and revilers the poet as a critical ironist and the last part of his life More than one hundred commentators are quoted and just as many of his poems are used where it seemed appropriate A third volume consists of erratic commentaries containing the author's evaluation and criticism of the main contributions to Cavafy's poetry That is these of George Seferis Sir Maurice Bowra Robert Liddell Edmund Keeley Grigorios Xenopoulos Timos Malanos Stratis Tsirkas John Sareyiannis and others These follow an opening chapter on Hellenization and a second chapter on the controversial subject of the dates of composition of Cavafy's poems The fourth volume The Canon is a verse translation of the 150 poems Cavafy accepted as his mature opus including the original Greek verses accompanied by detailed examination of the poet's craft and style That is to say the meter length of verse wedging rhyme enjambment titles organization punctuation the absences lyricism periphrasis description narrative suggestive image abstractions transmission maturity content language irony intellectuality etc **Libanius: Ten Mythological and Historical Declamations**, 2020-01-30 This book offers translations of ten rhetorical declamations of the fourth century AD sophist Libanius of Antioch and some related texts almost all appearing for the first time in a modern language In these works the declaimer impersonates such mythological or historical figures as Poseidon Paris Achilles and

Orestes either in court as prosecutor or defendant or by trying to persuade his audience to take a course of action The texts illustrate the sophist s eloquence and had an educational purpose in the schools but were also delivered before adult audiences They also put the Hellenic past on display for audiences of the Greek East in the Roman Empire The annotated translations are accompanied by analyses of their themes structure and argumentation
