A STUDY IN NUTRITION

*"It is true with human beings, as it is with cats,  
that nutritionally-caused degeneration  
is passed down to our children,  
a sobering challenge stands before us!"*

*— From the Book, Pottenger's Cats*

**Francis M. Pottenger, Jr., MD**

The changes Dr. Pottenger observed in cats on deficient diets paralleled the degeneration that Weston A. Price, D.D.S., found in people who abandoned traditional foods.

Pottenger's Cats Francis Marion Pottenger, 1983-01-01      **Primal Nutrition** Ron Schmid, 2015-09-17 Explores how the traditional foods of ancient cultures can naturally help prevent and treat degenerative disease and chronic conditions Examines the protective nutrients inherent in primal foods such as wild seafood grass fed meat and raw dairy explaining how they differ from Western refined foods Explains how to create your own commonsense primal diet tailored to your specific needs and conditions such as allergies eczema arthritis and even cancer Builds upon the work of Dr Weston A Price Dr Francis Pottenger and other nutritional health pioneers The human body s innate mechanisms for healing and immunity extend beyond the mending of cuts and broken bones or recovery from colds and flu Given the foods we evolved to thrive on foods our ancestors knew well the body can naturally prevent and overcome a host of degenerative conditions and chronic illnesses from allergies eczema and arthritis to dental caries heart attack and even cancer Drawing on the work of Dr Weston A Price Dr Francis Pottenger and other nutritional health pioneers Dr Ron Schmid demonstrates that the strongest and most disease resistant indigenous cultures around the world lived on whole natural foods seafood wild game healthy grass fed domestic animals and in some cases whole grains and raw dairy He explores how modern refined diets differ from ancestral ones the dramatic declines in health seen in indigenous cultures that adopt modern diets and the steps you can take to build health with traditional foods He observes that the foods considered essential and sacred in native cultures the foods around which rituals and ceremonies evolved and that were emphasized prior to and during pregnancy were invariably animal source foods such as seafood liver and raw milk products thus underscoring the importance of these foods to overall health and immunity a fact that modern nutritional science has overwhelmingly proved true Blending the wisdom of traditional eating patterns with modern scientific knowledge Dr Schmid explains how to apply these principles to create your own commonsense primal diet tailored to your specific needs to rebuild health and improve longevity      Raising Cats Naturally Michelle T. Bernard, 2004-02-01 It s about time we had a book like this Michelle Bernard has a rare gift for putting in plain words extraordinarily effective and levelheaded ways to properly care for cats Steering clear of faddish dangerous trends and dissecting the oodles of misinformation that has regrettably become the norm in mainstream advice on animal nutrition she shines most conspicuously on the issue of a proper feline diet By giving the reader a common sense straightforward strategy for preparing a diet that is based solely on the nutritional requirements of true carnivores her book is a must have for anyone committed to building and maintaining glowing good health for cats Bernard s work on all aspects of caring naturally for cats is based on years of meticulous research and hands on experience yet she translates her knowledge into simple common sense guidelines that anyone can understand and put to use Her eloquent explanation of homeopathy demystifies this splendid ancient healing art that is so marvelously suited to cats giving the reader a valuable awareness about how to build and nurture a cat s health from the inside out This alone is a refreshing and most welcome approach given the routine over
