Newell,2014-03-15 Drawing from 167 examples of decorative needlework primarily samplers and quilts from 114 collections across the United States made by individual women aged forty years and over between 1820 and 1860 this exquisitely illustrated book explores how women experienced social and cultural change in antebellum America The book is filled with individual examples stories and over eighty fine color photographs that illuminate

the role that samplers and needlework played in the culture of the time For example in October 1852 Amy Fiske 1785 1859 of Sturbridge Massachusetts stitched a sampler But she was not a schoolgirl making a sampler to learn her letters Instead as she explained The above is what I have taken from my sampler that I wrought when I was nine years old It was w rough t on fine cloth and it tattered to pieces My age at this time is 66 years Situated at the intersection of women s history material culture study and the history of aging this book brings together objects diaries letters portraits and prescriptive literature to consider how middle class American women experienced the aging process Chapters explore the physical and mental effects of old age on antebellum women and their needlework technological developments related to needlework during the antebellum period and the tensions that arose from the increased mechanization of textile production and how gift needlework functioned among friends and family members Far from being solely decorative ornaments or functional household textiles these samplers and quilts served their own ends They offered aging women a means of coping of sharing and of expressing themselves These threads of time provide a valuable and revealing source for the lives of mature antebellum women Publication of this book was made possible in part through generous funding from the Coby Foundation Ltd and from the Quilters Guild of Dallas Helena Hibbs Endowment Fund **Paperbound Books in Print** ,1991
