Francis Poulenc and the Franco-American Cultural Alliance Amy Dunning, 2008 Francis Poulenc's 1949 Piano Concerto was written for his performance with the Boston Symphony Orchestra during his second American tour in 1950 It is an example of his distinctive musical language and compositional craftsmanship as well as a thoughtful and creative interaction with his host audience through the incorporation of American tunes Stephen Foster's Old Folks at Home and a melodic rhythmic idea from George Gershwin's An American in Paris The Concerto synthesizes the exuberant style of Poulenc's youthful years the serene and expressive qualities of his mid life maturity and his overall neoclassic idiom This study begins by examining aspects of Poulenc's musical style exemplified in the Concerto as they were shaped by the Parisian avant garde of the 1910s and 1920s and by the composer's maturing musical language in the 1930s and 1940s An analysis of the Concerto's formal procedures and musical syntax reveals some of the ways that Poulenc emulated and remade classical tradition through a balance of clarity and ambiguity A discussion of the creation and reception of the Concerto within the context of the composer's mid century American tours shows how Poulenc captivated American audiences and further solidified his international reputation through his pianism social decorum and adeptness in synthesizing tradition with popular tunes and styles that acknowledged and engaged his patrons This study highlights the Concerto's significance as a product and reflection of the dynamic interaction between France and the United States An illumination of the countries political connections and cultural exchanges particularly as manifested in music art and fashion in the first half of the twentieth century reveals Poulenc's role as a musical diplomat and a commentator on the history of the Franco American alliance

Modern Times Robert P Morgan, 1993-11-02 This volume covers the development of modern music from World War I to the present Specific musical responses can be identified from the prevailing social economic and political circumstances Since World War II musical languages have tended to converge with developments in technology and communications Robert P Morgan is the author of Twentieth Century Music and co editor of Alban Berg Historical and Analytical Perspectives Britten, Voice and Piano Graham Johnson, 2017-10-03 This collection of eight lectures by internationally acclaimed pianist Graham Johnson is based on a series of concert talks given at the Guildhall School of Music and Drama as part of the Benjamin Britten festival in 2001

The focus of the book is on Britten's songs starting with his earliest compositions in the genre. Graham Johnson suggests that the nature of Britten's creativity is especially apparent in his setting of poetry that he becomes the poet's alter ego. A chapter on Britten's settings of Auden and Eliot explores the particular influences these writers brought to bear at opposite poles of the composer's life. The inspiration of fellow musicians is also discussed with a chapter devoted to Britten's time in Russia and his friendship with the Rostropovitch family. Closer to home the book places in context Britten's folksong settings illustrating how he subverted the English folksong tradition by refusing to accept previous definitions of what constituted national loyalty. Drawing on letters and diaries and featuring a number of previously unpublished photographs this book illuminates aspects of Britten's songs from the personal perspective of the pianist who worked closely with Peter Pears after Benjamin Britten was unable to perform through illness. Johnson worked with Pears on learning the role of Aschenbach in *Death in Venice* and was official pianist for the first master class given by Peter Pears at Snape in 1972.

Carlos Chávez and His World Leonora Saavedra, 2015-08-25 Carlos Chávez 1899-1978 is the central figure in Mexican music of the twentieth century and among the most eminent of all Latin American modernist composers. An enfant terrible in his own country Chávez was an integral part of the emerging music scene in the United States in the 1920s. His highly individual style diatonic dissonant contrapuntal addressed both modernity and Mexico's indigenous past. Chávez was also a governmental arts administrator founder of major Mexican cultural institutions and conductor and founder of the Orquesta Sinfónica de México. Carlos Chávez and His World brings together an international roster of leading scholars to delve into not only Chávez's music but also the history art and politics surrounding his life and work. Contributors explore Chávez's vast body of compositions including his piano music symphonies violin concerto late compositions and Indianist music. They look at his connections with such artistic greats as Aaron Copland Miguel Covarrubias Henry Cowell Silvestre Revueltas and Paul Strand. The essays examine New York's modernist scene Mexican symphonic music portraits of Chávez by major Mexican artists of the period including Diego Rivera and Rufino Tamayo and Chávez's impact on El Colegio Nacional. A quantum leap in understanding Carlos Chávez and his milieu this collection will stimulate further work in Latin American music and culture. The contributors are Ana R. The Creative Labor of Music Patronage in Interwar France
Louis K. Epstein, 2022 Challenges the longstanding perception that modernist composers made art not money and that those who made money somehow failed to make art Patrons have long appeared as colorful exceptional figures in music history but this book recasts patrons and patronage as creative forces that shaped the sounds and meanings of new French music between the world wars Far from mere sources of funding early twentieth century patrons collaborated closely with composers treating commissions for new music as opportunities to express their own artistry Patrons developed new pathways to participate in music making going beyond commissions to establish ballet companies manage performance venues and establish state programs The impressive variety of patronage activities led to an explosion of new music as well as new styles and isms indelibly marking the repertoire that this book examines including a number of pieces frequently heard in concert halls today In addition to offering new perspectives on well known French repertoire this book challenges conceptions of patronage as a bygone phenomenon Complementing a dwindling cast of aristocratic patrons were new ranks of music publishers impresarios state bureaucrats opera directors and others capitalizing on their savings social connections and artistic vision to bring new music into the world In chapters on French discourse around patronage aristocratic commissions the stimulus provided by the interwar dance craze music publishing the Paris Op ra state intervention in French musical life and transatlantic musical exchanges the book blends cultural history with primary source study and music analysis It not only improves our understanding of French musical life and culture during the early twentieth century but also supplies us with essential insights into the ways modern music emerged at the intersection of music composition aesthetic and national politics and the creative labor of patrons
