Pour Le Cor Horn Piano:

Guide to the Solo Horn Repertoire Richard Seraphinoff, Linda Dempf, 2016-04-18 This comprehensive annotated resource of solo repertoire for the horn documents in detail the rich catalogue of original solo compositions for the instrument. Intended as a guide for practical use and easy reference it is organized into three large sections: works for unaccompanied horn, works for horn and keyboard, and works for horn and ensemble. Each entry includes publisher information, a brief description of the form and character of a work, technical details of the horn writing, and information on dedication and premiere. The authors also include commentary on the various techniques required and the performance challenges of each piece. Representing over ten years of careful compilation and notation by an expert in horn performance and pedagogy and by a seasoned music librarian and natural horn performer, Guide to the Solo Horn Repertoire will be an invaluable resource for performers, educators, and composers.

Horn Teaching at the Paris Conservatoire, 1792 to 1903 Jeffrey Snedeker, 2021-07-05 The transition from the valveless natural horn to the modern valved horn in 19th century Paris was different from similar transitions in other countries. While valve technology was received happily by players of other members of the brass family, strong support for the natural horn with its varied color palette and virtuoso performance traditions slowed the reception and application of the valve to the horn. Using primary sources including Conservatoire method books, accounts of performances, and technological advances, and other evidence, this book tells the story of the transition from natural horn to valved horn at the Conservatoire from 1792 to 1903, including close examination of horn teaching before the arrival of valved brass in Paris, the initial reception and application of this technology to the horn, the persistence of the natural horn, and the progression of acceptance, use, controversies, and eventual adoption of the valved instrument in the Parisian community and at the Conservatoire. Active scholars, performers, and students interested in the horn, 19th century brass instruments, teaching methods associated with the Conservatoire, and the intersection of technology and performing practice will find this book useful in its details and conclusions, including ramifications on historically informed performance today.

The Alphorn through the Eyes of the Classical Composer Frances Jones,2021-04-06 The Alphorn through the Eyes of the Classical Composer is the first and definitive book to be written about the alphorn in English It has been written with English speaking readers in mind as it examines the extensive interest of primarily non Swiss composers writers and artists in the alphorn as a symbol of the Alps the influence and significance of the alphorn in culture literature and the arts across the globe and the ways in which the instrument has been specifically utilised by the Swiss as the iconic representation of their country This book also explores the use of the musical language of the alphorn call to ascertain why and how such references as those of Berlioz or Beethoven can convey so much meaning Dr Jones seeks out what it is that a composer brings into the concert hall the theatre the opera house the church or the drawing room by such a quotation to what heritage they are referring and upon what basis there are grounds for an assumption that such a reference will be understood by an audience The book which will be of interest to researchers in Swiss cultural studies and ethnomusicology builds on Dr Jones s research and PhD thesis The six chapters deal with a variety of topics including a basic introduction to the alphorn and an exploration of the promotion of the instrument as the symbol of Switzerland as well as the reasons behind symbolic references to alphorn motifs by European and British composers in concert repertoire jazz and film
